Conservation of the Range for November. The seed annual for 1890, issued by D. M. Ferry & Co. of Detroit, Michigan, has reached our table. The directions given in the annual for the cultivation of both flowers and vegetables are so full and explicit that no one can fail of success who uses the seeds and follows the instructions. D. M. Ferry & Co. are very conservative both in offering low prices and in their claims for them when offered; but they take pains to inform them of the true character of all varieties, so if some much lauded novelty is not in the annual the probability is they have tried it and found them of the same value. A request sent to the firm at Detroit, Mich., will bring you a copy of the seed annual for 1890 by return mail.
