

G. Lang. NEW MEAT MART.

The undersigned wishes to inform the public of Lindsay that he has bought out Mr. PAUL O'NEILL'S BUCKINGHAM BUSINESS and will keep on hand in season choice cuts of Beef, Pork, Veal, Lamb, etc.

Former customers and such new ones as may give me their custom may depend upon my efforts being put forth to confer the same satisfaction as has been given in the past.

The Canadian Post.

LINDSAY, FRIDAY, JAN. 24, 1890. ECHOES FROM THE CAPITAL.

The address - A Short Debate - The Political Situation - A Social Session. The address in reply to the speech from the throne was moved by Mr. Rufus Pope and seconded by Mr. Prior of Victoria, B. C. The debate was confined to Mr. Laurier and Sir John Macdonald and was unimportant.

A SOCIAL SENSATION.

The gossip at the capital and the papers generally are commenting on an incident which has marked the opening of the parliamentary session. The Montreal Star's Ottawa correspondent, (who by the way is a lady), referring to it, says: Society circles are agitated over the fate of a divorced lady who last summer married a member of the cabinet in Ontario. It was felt that her recognition at the reception to ministers' wives, after the state dinner, would determine her social position, but the illness of Lady Stanley seemingly left the matter in abeyance. Now gossip significantly points to the fact that only the name of the cabinet minister appeared on the official list of those invited to government house, as published in the local government organ. It transpires that the ladies of two members of the government called on the bride shortly after her return from Chicago. This course, it is hinted, was not approved of by Lady Macdonald, who held aloof from any social intercourse with the new arrival. Government house appears to have gone a step further. Much sympathy is being shown to be expressed for the unfortunate position of the lady, whose social accomplishments are known to be very superior. Captain McMahon, A.D.C. to the governor general, visited the (Saturday) morning in an interview that the list of guests at the state dinner last evening was correct, and that Mr. Foster's name did not appear on the regular official list; in fact, that he did not receive an invitation. Hon. Mr. Foster was present, however. The statement by Captain McMahon caused quite a ripple of excitement when it was whispered around the corridors of the house.

MR. MCCARTHY'S OTTAWA TUNE.

Mr. Dalton McCarthy arrived here Monday morning. Speaking to the correspondent of the Montreal Star in reference to the equal rights movement and the prospects of the introduction of legislation this session on that question, he denied that he was the leader of the equal rights movement. He moved purely on his own responsibility and in many ways he considered himself in advance of that movement or any of its advocates or supporters. He was not aware of the existence of any equal rights party in the house nor did he know of any party being advocated by the so-called equal rights representatives in parliament. As for himself, he intended at once giving notice that he would introduce a bill to repeal the dual language in Manitoba, and the Northwest. This he said was the only item in his programme which he had fully decided upon as yet. Any further legislation that he might introduce would depend upon circumstances and the manner in which the present bill was received. Speaking of the strength of the movement, he said he had no doubts but that the equal rights movement would prove a powerful factor in the coming elections.

SEPARATE SCHOOLS IN MANITOBA.

It is learned here on the best authority that the Manitoba government have finally decided to abolish separate schools in that province and will introduce a bill authorizing the establishment of a purely secular school system throughout the province. The bill will also provide for the preparation of a book containing scriptural extracts from the bible which it is intended will be acceptable to all persons of all creeds. It will be optional with school boards to use either the proposed publication or the bible. It is understood that this bill is now being proposed by Attorney General Martin and will be introduced at an early date. There is no doubt but that the proposed measure will become law, as the opposition in the provincial house are said to admit that the government will have a majority of three votes on the proposed bill. The government claim that they will carry the measure by a majority of 18.

It is currently reported in the lobbies here by the members from Manitoba that there is a serious disturbance in the provincial cabinet. Premier Greenway and Attorney General Martin are at daggers drawn, and there is a prospect of a settlement of the dispute. The general impression is that Attorney General Martin must go, and that he is forming many moths.

Attorney General Martin of Manitoba stated here today that he would not leave public life until he has succeeded in abolishing the separate school system and dual language in Manitoba. Hon. C. H. Tupper laid up with a bad cold.

is no more ridiculous than the building of the Canadian Pacific railway round the north shore of Lake Superior. The states that St. Charles, which the company proposed to make its ocean terminus, is open all the year round and is a better harbor than either Halifax or Fort St. Charles. The price, we understand, is in the neighborhood of a couple of centuries.

Mr. Borden is now in Ottawa, endeavoring to force his advice upon its subscribers, but to those who will his opinion upon any subject pertaining to the light horse or racing horse, it will willingly give through its columns such information as it possesses, free of cost. Each and every subscriber is invited to make any inquiry desired and it will be answered in the correspondence or veterinary department. If a subscriber has an article with the best results, the Horseman will give him such advice as he may wish to inquire about. These very features make the Horseman a valuable possession to horse-owners. An investment of \$2 will pay for six months' subscription and will place the subscriber in a position to obtain valuable information that would cost him several times this amount if secured in any other way.

Dr. Landerkin, moving for a return of provincial bills disallowed since confederation. The reasons therefor, Mr. McCarthey suggested that to shorten the return the reason given should be simply whether the disallowance had been on the ground of some defect or because the bills were ultra vires. Dr. Landerkin accepted the suggestion, but raised a laugh at Mr. McCarthey by adding: "I suppose you will agree to the return being in French and English." "Oh certainly," was the reply. "It is not unlikely that the matter of imposition of duty on fruit removed a few years ago will be brought up in the house this session. It is desired chiefly by the fruit growers of the Niagara peninsula, who feel that their business would be very much injured by the importation of fruit from the States in the American market. They did not suffer any material loss during the season just over because the American crop of peaches, grapes and other small fruits gave little surplus for export."

COMMERCIAL NEWS.

Business is fairly brisk at the local market, there being large deliveries of barley and wheat. Good sleighing would make a lively market, benefit business, and put lots of money into circulation. The snow is now falling, but it is doubtful if it will last.

Toronto Live Stock Market. Last week's receipts at the western cattle yards were 1,381 cattle, 571 sheep and lambs and 373 hogs.

Tuesday the supply comprised forty loads of live stock, including about 100 sheep and lambs and 100 hogs. This supply was rather larger than the requirements of the trade demanded, and as a consequence a weaker feeling prevailed throughout the market, with slight declines in some cases. Even at the lower figures every thing was not sold, some stock having to be held over at the end of the market.

Cattle - The demand for butchery cattle showed no falling off, but the large supply made the market weaker, and prices were off probably 10 to 15 per cent. On the opening of the market holders seemed disposed to ask full last week's figures, but these purchasers were unwilling to pay a "dressed" feeling to the market. Some little buying was done on Montreal accounts, but this did not stimulate the market. Good cattle were selling Tuesday at \$3.50 to \$3.80 per cwt. with one or two picked lots at \$4 per lb. Very good stock could be had, however, at \$2 to \$3.75 per cwt. Interior cattle were quoted at 2 1/2 to 3 1/2 per lb. Representative sales were:

Table with 3 columns: Quantity, Price, and Unit. Includes items like 20 cattle, 24 sheep, 22 hogs, etc.

Sheep and lambs were also somewhat easier Tuesday in consequence of the large offerings, which were too much for the trade to absorb. Prices were a round 50c per head lower or from \$2 to \$3 each, and at these figures one dealer bought 200 head, averaging 100 lbs each.

TOWN NOTICES.

Mr. Robert Oxby of Cambridge reports that he has after some little research been successful in tracing the pedigree of Canadian breed horses. Prince Arthur, and finds that his lineage is much better than at first known. Mr. Oxby has had Prince Arthur registered in the Canadian Cattle and Horse Register, where he is No. 100.

On Tuesday of the week Mr. W. J. Pasning of Cambridge disposed of his handsome bay mare by Goldust, dam by Erin, bred to the Moore, lower brood of Brampton, together with a very large roll of Canadian currency, in exchange for a well bred three year old grey horse of the imported stallion Orange Boy. Mr. Pasning is at all times open for a "deal" in equine stock and probably owns some animals in a year less any man in the county outside of the "professional dealers" - but, in his last specialities, he declines to do any business, as he purposes keeping the rest of the stock.

was one made vacant by the sale of the volume of science he determined to secure an equipment for it at once. With this end in view he purchased from Mr. James Taylor the Hurdle Book of Lindsay. The Hurdle has more than had a somewhat disreputable career, but will now, no doubt, able to stand under the careful scrutiny of Mr. Curtis. The price, we understand, is in the neighborhood of a couple of centuries.

The Horseman, 222-223, Desbora-st., Chicago, has issued the following valuable circular to its subscribers: It is the desire of the Horseman to force its advice upon its subscribers, but to those who will his opinion upon any subject pertaining to the light horse or racing horse, it will willingly give through its columns such information as it possesses, free of cost. Each and every subscriber is invited to make any inquiry desired and it will be answered in the correspondence or veterinary department. If a subscriber has an article with the best results, the Horseman will give him such advice as he may wish to inquire about. These very features make the Horseman a valuable possession to horse-owners. An investment of \$2 will pay for six months' subscription and will place the subscriber in a position to obtain valuable information that would cost him several times this amount if secured in any other way.
