"SOMETHING"
TO TALK ABOUT.
Well, Let us talk about
BOOTS AND SHOES
for a few Minutes.
The subject is not a burning one usually at this time of year; it is a cold or wet one, but that is not as it should be.
Dry and warm is what we propose to make it for you, and another fact we can add to it is, we will make it a profitable and cheap transaction in your case if you will let us. We have too many **BOOTS and SHOES** of all kinds. We wish to turn them into Cash. And for that reason the advantage is all in your favor. Prices are of no account. Boots must go, they have always been down trodden and oppressed servants to the human race; but now more than ever. That being the case, bring along your money and the **BOOTS, SHOES, SLIPPERS, RUBBERS, MOCCASSINS** or anything else we have at yours.

BARGAINS
All Day TO-MORROW
until the store closes.
The prices are of no account. Don't fail to take advantage of this opportunity while it lasts.
L. MAGUIRE.

PARLIAMENTARY NOTES.
The Dual Language Debate—Brilliant Speeches by Hon. Messrs. Mills, Blain and Laurier—The First Division—Political Anxiety and Excitement—A Threatened Dissolution.
THE MANITOBA BILL OF RIGHTS.
The Ottawa Citizen announced Friday morning that Sir Donald Smith has found among his papers the original of the Manitoba bill of rights accepted by the federal government, and which provides for the maintenance of the French language in the province as the official language for all time to come.
MR. MILLS' BRILLIANT SPEECH.
By far the best speech of the debate on Monday, says the correspondent of the Montreal Gazette, was that of Mr. Mills of Bothwell. It was most scholarly and elaborate presentation of the whole subject, which held the earnest attention of the house and won the highest compliments for its liberality, style and sustained logic. It was a significant fact that a single speech was made Thursday in favor of the bill, and especially of the fact that, although a French Canadian member had been present, no one had ventured to speak in French.
MR. BLAKE'S BRILLIANT SPEECH.
The dual language debate was continued Friday evening, Mr. Charlton leading. Then Mr. Blake followed. A graphic description and summary is given by the Globe's correspondent: There was a strong and unanimous desire that Mr. Blake should intervene in the controversy and give to the disturbed and divided assembly the direction of his magnificent ability and his great authority, and when he took the floor to follow Mr. Charlton there was applause, earnest, hearty and long-sustained. The speaker's words were full of meaning and force. He was a significant evidence of the mar's power and standing in this assembly of the best intellects of Canada that the house heard the frequent bursts of applause which marked the course of his delivery, and that through his luminous sentences the people's doubts were cleared, the true bearing of the agitation revealed, and the full gravity of the issue presented with a force and eloquence that startled the very irreconcilable and shook the convictions of those who had settled their course against the conclusions of the great advocate. The intervention of a master mind was badly needed, and the speaker's words had gained a formidable influence upon the members, and there was danger of an issue from the struggle of ill-will to the future of Canada. It was the first of the day's proceedings which was the first of the day's proceedings, and Mr. Charlton, who was not content with these observations, but made a speech of his own, and in his speech he made a strong case for the French Canadian position, and in his speech he made a strong case for the French Canadian position, and in his speech he made a strong case for the French Canadian position.

THE DUAL LANGUAGE DIVISION.
The first division took place Tuesday night on Mr. Beausoleil's amendment practically affirming that the two languages should always be maintained in the Northwest. This was lost by 73 votes to 117. All the French members voted for the amendment except Mr. Chaplain, Messrs. Barron and Hudspeth voted against it.
SIR JOHN'S BLUNDERS.
"I cannot say I am satisfied with our leader's speech," said a conservative member from the Niagara peninsula on Tuesday, reports the Ottawa Free Press. "He took a strongly pro-French attitude, and in his speech he made a strong case for the French Canadian position, and in his speech he made a strong case for the French Canadian position, and in his speech he made a strong case for the French Canadian position."

REPORT OF FIRE AND WATER COMMITTEE.
COUN. COMSTOCK, chairman, presented a report to the effect that the small engine house near the east ward fire bell had been put in condition to hold about 300 feet of rubber hose; a wire rope had been attached to the alarm bell; and that the clock striking had been locked upon the wagon in the fire hall. COUN. LACK expressed some curiosity as to present arrangements for the missing ladders. Although a caretaker had been appointed, property was carried away at will. Reeve Williams said it was a fact that fire appliances had been looked after in a very satisfactory manner. The committee consisted of Messrs. Comstock, Lacey, and Williams. The committee also reported that the fire department was the most important of all the lives and property of the city, and that the committee was of the opinion that the fire department was the most important of all the lives and property of the city, and that the committee was of the opinion that the fire department was the most important of all the lives and property of the city.

REPORT OF POLICE COMMITTEE.
COUN. BROWN, chairman, presented a report, stating that Chief Bell's report for January had been examined and found correct.—Report was adopted.
TRANSFORMING FOR TOWN PRINTING.
Moved by COUN. KYLLIE, seconded by COUN. BROWN, that the clerk be instructed to call for tenders for town printing for the current year, said tenders to be in at noon on the 3rd day of March. Reeve Williams said that last year trouble was experienced in understanding the tender sent in by the various offices. A proper form should be sent, and unless adhered to by those tenders no notice should be taken of the offer.—The motion was carried.

THAT TOWN MAP.
MAYOR SMYTH said the assessors were complaining of the large amount of extra labor they were called upon to do through the lack of a town map. He understood that a contract had been let for a map some years ago, but it had not yet been finished. He had called for tenders for a new map, and Mr. M. Deane's offer of \$100 had been accepted; since then Mr. Deane had stated that he had no intention of going on with the map. However, Messrs. Bowman, Brown, town engineers, under their agreement, would now do their work outside of cost of drafting material and ready office searches, and it should be gone on with at once. A motion that the map be passed later on, Mr. Bowman stating the map would probably be finished by the last of April.

REDUCING THE NUMBER OF LICENSES.
ON motion the council went into committee of the whole to consider a third reading of a by-law No. 558, reducing the number of

interference tender to destroy the slightest hope of reform. While he held the leadership he had had to meet attempts to form race and creed combinations in the legislature, and to give full and secret meetings with no private intrigues or secret bargains. Minorities were tender, susceptible, apprehensive, exacting, and this must be understood and fought in the delicate question of parliament on the day of the day. He made an eloquent, almost a touching, reference to the great fire then raging at Toronto university, news of which he had just heard, while the house sat subdued and sympathetic, and from that great calamity he warned the house that a little spark could cause a great conflagration, and the perpetuation of old feuds and ancient hatreds. He had faith that this without evil consequences, but in the end truth would prevail. He predicted ultimate defeat for the assailable, but meanwhile the danger, perhaps disaster, to the state. It was his duty to defend the rights of minorities as by settlement established. He could not be driven from parliament, but he could not be driven from the path of duty and honor. He had faith that from the whole course he was taking his only gain was risk and loss.

LOCAL MATTERS.
LINDSAY TOWN COUNCIL.
COMMUNICATIONS—REPORTS—THE GRAVEL QUESTION AGAIN STIRRED UP—LOOKING AFTER THE FIRE APPARATUS—A LOPPING OFF IN THE NUMBER OF LICENSES.
The regular meeting of the town fathers was held Monday evening in the council chamber, business being taken up about eight o'clock. The members present were: Mayor Smith, Reeve Williams, Dep. Reeve Lenson and Fisher, and Couns. Kyle, Parsons, Brown, Comstock, Herriman and Lack. The minutes of last regular meeting were read by the clerk and approved.
COMMUNICATIONS.
From W. D. Halliday, applying for position of street overseer for 1890.—Laid on table.
From Thos. Ball, chief constable, tendering his resignation.—Laid on table.
From McIntyre & Stewart, re Crandell vs. Lindsay, claiming a balance of \$30 for their client, and threatening proceedings if not paid.
From G. H. Hopkins, town solicitor, referring also to the gravel dispute. His opinion was that Crandell being under contract bidding him to furnish gravel free from clay or other matter, could not claim full price simply because the gravel objected to had been placed on the streets.
Reeve WILLIAMS thought it would be wise to look to the matter carefully before rushing into the courts. If Crandell were to come before the committee, he did not doubt but that the matter could be arranged amicably. He moved that both communications be referred to the committee, and this resolution carried.

REPORT OF FIRE AND WATER COMMITTEE.

COUN. LACK expressed some curiosity as to present arrangements for the missing ladders. Although a caretaker had been appointed, property was carried away at will. Reeve Williams said it was a fact that fire appliances had been looked after in a very satisfactory manner. The committee consisted of Messrs. Comstock, Lacey, and Williams. The committee also reported that the fire department was the most important of all the lives and property of the city, and that the committee was of the opinion that the fire department was the most important of all the lives and property of the city.

REPORT OF POLICE COMMITTEE.
COUN. BROWN, chairman, presented a report, stating that Chief Bell's report for January had been examined and found correct.—Report was adopted.
TRANSFORMING FOR TOWN PRINTING.
Moved by COUN. KYLLIE, seconded by COUN. BROWN, that the clerk be instructed to call for tenders for town printing for the current year, said tenders to be in at noon on the 3rd day of March. Reeve Williams said that last year trouble was experienced in understanding the tender sent in by the various offices. A proper form should be sent, and unless adhered to by those tenders no notice should be taken of the offer.—The motion was carried.

THAT TOWN MAP.
MAYOR SMYTH said the assessors were complaining of the large amount of extra labor they were called upon to do through the lack of a town map. He understood that a contract had been let for a map some years ago, but it had not yet been finished. He had called for tenders for a new map, and Mr. M. Deane's offer of \$100 had been accepted; since then Mr. Deane had stated that he had no intention of going on with the map. However, Messrs. Bowman, Brown, town engineers, under their agreement, would now do their work outside of cost of drafting material and ready office searches, and it should be gone on with at once. A motion that the map be passed later on, Mr. Bowman stating the map would probably be finished by the last of April.

REDUCING THE NUMBER OF LICENSES.
ON motion the council went into committee of the whole to consider a third reading of a by-law No. 558, reducing the number of

licenses to eleven from the 1st day of May next. On motion of Couns. Comstock and LACK, the by-law passed its third reading, and Mayor Smyth affixed his signature.
ANOTHER CARETAKER.
On motion Sanitary Inspector Hughes was ordered to be paid the sum of \$100 in full of account up to the 31st December, 1889, for looking after the hospital fixtures.
NOTICE OF MOTION.
Reeve WILLIAMS gave notice that he would at the next meeting bring in a by-law to define the duties of the town engineer and to further define the duties of the police force.
COUN. BROWN gave notice that he would at next meeting bring in a by-law to amend the market by-law. Dr. Herriman alluded to the importance to Lindsay of possessing a good market. He did not know how it was to be attained, but he did know that Peterboro, Port Hope and other towns not so favorably situated could boast of flourishing markets. Dr. Herriman, chairman of town property committee, said a report would likely be brought in at next meeting suggesting some course to be followed with the object of improving the market.
Council then adjourned.

LINDSAY BOARD OF TRADE.
PRESIDENT'S ANNUAL ADDRESS—WORK OF THE YEAR—IMPROVED RAILWAY FACILITIES—BETTER MAIL SERVICE REQUIRED.
A special meeting of the board of trade was held on Tuesday evening at which a large number of members were present. Mr. Robert Kennedy was proposed for membership. The report of the special committee appointed to consider the president's annual report was received and adopted. The report as adopted reads as follows:
THE PRESIDENT'S ADDRESS.
The Members of the Lindsay Board of Trade,
GENTLEMEN,—In submitting to you my third annual report, I am gratified at being able to refer to the prosperity of the board, both as to membership and the continued interest shown in carrying on the important work, for the discharge of which boards of trade were established. During the three years the Lindsay board has been in existence, and for which period I have had the honor of being its president, the membership has been satisfactorily sustained, the work has gone steadily forward, and it is safe to say the Lindsay board of trade to-day ranks among the most successful institutions of the kind in the province.
In reviewing the work of the year, it is but proper that I should refer to the assistance given us by the commission of matters of interest to the town by gentlemen outside the board. The subject of electric lighting was brought to the attention of the board in this manner, and received lengthy and profitable discussion, as also the local improvement system of taxation. Joint meetings have been held during the year with the members of the town council, and the result has been a new waterworks system for the town, and also on the occasion of the visit of Mr. Furey and other gentlemen on behalf of the board, the most interesting interests of the northern districts.
The want of proper railway station accommodation has for a long while been seriously felt by the business and professional men outside the board. The subject of electric lighting was brought to the attention of the board in this manner, and received lengthy and profitable discussion, as also the local improvement system of taxation. Joint meetings have been held during the year with the members of the town council, and the result has been a new waterworks system for the town, and also on the occasion of the visit of Mr. Furey and other gentlemen on behalf of the board, the most interesting interests of the northern districts.
