He bowed to the ruling of the speaker, but again complained that he had not received fair play, and then came the surprise.

not received fair play, and then came the surprise.

"I tender this house my resignation as member for Lincoln and Niagars, returning to my constituents the trust they imposed in me, and I only hope they will send as my successor one who will try to do his duty as I have done." Then, suiting the action to the word, he lef his seat, and advancing to the speaker he presented his written resignation and left the house.

To say that the chamber was surprised is to put it mildly, and for a moment or two there was a pause, which showed that the members recognized the solemnity of the occasion, for it is a solemn occasion when a member who has been constantly in parliamentary life for thirty-two years past severs his connection with his colleagues in so painful a manner.

HOW IT CAME ABOUT.

HOW IT CAME ABOUT.

The matter came about in this way. The privileges and elections committee met on Priday morning to resume consideration of the case and to draw up their report. It will be remembered that at the two last previous meetings reports, varying somewhat is their terms, were presented by Sir John Thompson and Mr. Blake. Friday morning's session was a protracted one, and it was finally decided to refer both reports to a sub-committee to endeavor to arrive at a compromise report satisfactory to all. This sub-committee, consisting of Sir John Thompson, Hon. Mr. Blake, Hon. Mr. Davies and Mr. Girouard, se chairman, held a meeting afterward, and again in the afternoon, and it is understood strived at a unanimous conunderstood strived at a unanimous conclusion upon the subject. They adopted the draft report submitted by Mr. Biske, but omitted all reference to the department, Mr. Lindsay Russell or Mr. Ryley, the chairman in the morning having submitted an affidevit from Mc.R., kert stating that the \$18,000 unacculated for in the distribution of the money received from Sands had been distributed among the parties mentioned by him in his evidence; that, in fact, there was no balance unaccounted for because the parties had accounted for because the parties had actually received somewhat larger sums than at first stated. This report, which will be presented to the full committee on Monday next, is understood to characterize Mr. Rykert's conduct as scandalous, corrupt and disgraceful.

Mr. Rykert was seen after he left the

house and appeared much agitated, as was natural under the circumstances. He stated that he would leave at once for St. Catharines and place himself in the hands of his friends, who would decide whether be should again be a candidate for parilament. He was sick of political life and did not care whether he ever saw Ottawa again. "But," said he, "if I am asked to be a candidate I will be elected by a thousand more majority than before, and the country will hear from me again." THE ATTEMPT TO WHITEWASH RYKERT.

The Ottawa Free Press saye: At first the government's disposition was to stand by Mr. Rykert and to have him declared blameless. The draft report presented by Sir John Thompson to the privileges and sections commettee indicated that much pretty clearly. But when the committee had to discusse the evidence it was soon found that Sir John Thompson had not a LITERARY SOCIETY.—The literary society has been a very great success the past season. A nice program was rendered lest Friday evening. The president being absent Mr. E. Mahley occupied the chair.

> THE PIG IRON BOUNTY. The resolution respecting a bounty on pig iron manufactured in Canada was reported Friday. This proposed change will go into effect on July 1st, 1802, and last till June 30, 1897. Mr. Foster said that it was an extension of the policy adopted years ago, when the bounty was placed at \$1.50 per tim. A year ago the reduction to \$1 went into effect. The minister pictured the benefits which would flow from the new policy. In ten years Canada imported two million two hundred thousand tons of

This is a benefit to the Shelralics, for which they own a vote of the to Mr. McMullen, for had not that attended called attention to the extractionary nature of the mileage grab the next would quietly have pecketed his pecky' and said nothing.
