very much respected by all who knew her. She has been living in this township for

we could look to him who is in the controlling position and feel that we had in that position an honest man, a pure man, a Christian man. And one of the mysteries of iniquity is how it can be possible for Christian ministers to lend themselves to the tricks of party for the sake of huring from office a Christian statesman of whom we are all proud. And I hose it will be found that those who are prepared to take all the risk—and it is a terrible risk—of exciting religious higotry in the community and of stirring into flames free which were emoldering in their ashes, causing those fires to blaze forth once more and assuming an awful responsibility, involved in faming into freeh flames the gmbers of bigotry, taking that risk and assuming that responsibility for the sake of political effect, will have so far defeated themselves that there shall go out a voice from the electors of all this previace declaring - Down henceforth and forever with those who would resort to ench a means of gaining political advantage."
