GENUINE BARGAINS AGAIN.

The fierce competition of the present day forces prices and profits down to the lowest possible point, until only those who can dispose of immense quantities of goods, and thus underbuy others, can succeed. The great success of our business this spring is a positive proof that people are finding this out----finding out the surest way to make money is to visit our large establishment and see the Bargains to be found in every department.

FROM NOW UNTIL JULY 1ST WE ARE DETERMINED TO BEAT ALL PREVIOUS RECORDS.

We know the only way to do this is to so reduce prices that every man, woman or child who either lives in or visits Lindsay, will be out of pocket by not attending our great sale.

But slas! your triends, an igiration by the economy you kept, recidiered that you had deserted them, and for the past four years you have been looked on as a political enemy. And for this you have rourself to blame. The old mercen, "A

It is bad enough to be called a tory under any circumstances, but it is industed worse to be called one by papers of their standing, and I don't blame you one bit for feeling that an injustice has been done you. It is reported that when you came to town of blonday you first went to the Warder office and got your "one," then went to THP Port. A Warning to Electors

(To the Editor of THE POST.) Sin, -As there will be but one more issue of The Post before the election I will ask for a short space to put the electors on their guard, and warn them what to be on the look out for on the day before the election. I am fully convinced by what I heard when in town a few days ago that the third to get the control of the program will be a control between three or four of our most popular young ladies for a ten dollar gold piece, the gift of Mr. P. J. Meagher of Lindsay. The young lady securing the price of the price of votes carries off the price. Brace up young men and see that of THE Post before the election I will ask when in town a few days ago that the tories intend to get up some cry when too late to refute it. It may be in the line of a circular for distribution in West Ops, Mariposa and Eidon, to the effect that the priest has issued some manifesto calling on all C tholies to do so and so. This circular would no doubt pear the signature of the priest or of some very prominent Roman Catholies in the riding, and if so they may ail Citholles to do so and so. This circular would no doubt bear the signature of the priest or of some very prominent Roman Catholics in the riding, and if so they may be mailed so that they will be taken from their respective offices on the Wednesday evening before; or I would not be surprised to see leading tories in every part of Marippea on the difference of Ope and Emily may receive circulars, purporting to be signed by the priest, asking them to vote for the tory condidates. I am very sure that there is some deep laid devilies plot being hatched in Lindsay, and the sight of a Catholic tory boodler from Beaverton on the streets on the circular selfort will be made to snatch a verdict by some such means. I hope that the electors will treat all such printed matter with contempt should they get any, and a content will be present at this the electors will treat all such printed matter. A social will be given the rerdict by some such means. I hope that the electors of Eldon will be present at this the electors will treat all such printed matter with contempt should they get any, and reat assured the ridings, both east and reat assured the ridings, both east and same day by the ladies of the congregation. went, will be flooded with it on Wednes-

day, the 4 h of June, by the tories. If every one of our friends who reads this article will only make it a point to go and see his neighbor and warn him, and be in | the history of their fathers. gist of my turn tell his neighbor, and so on, the danthat they are idle, for a greater effort was never made in the county of Victoria by the tories than now to win the election. The "atill hunt" which they are carrying on misms more than wears aware of. The day is ours if we but work. And again I warn the friends of Dr. McKsy to be on the look out for "esnards" and "roosbacks" of all kinds on the day before the election. The county will be flooded with two circuiars, one to suit Catholics and one to suit the Protestants. I have good reasons for giving this warning and I trust that it will

not go unheeded. AN ELECTOR, Oakwood, May 26th 1800.

When a manufacturer, from years of observa

tion, has so completely satisfied himself of the universal satisfaction given by his products, that he feels fully warranted in selling them under a certificate of guarantee, it is very natural to believe that such a producer has implicit continence in the merits of his goods, and that, too, not without reason. Such confidence is possessed by the World's Dispensary Medical Association of Buffalo, N.Y., in Dr. Pierce's Family Medicines, and hence his "Favorite Prescription" is sold by druggists, as no other m dicine for similar purposes ever war, under a positive guarantee, that it will in every case give estisfaction, or money paid for it will be refunded. It cures all those distressing and delicate ailments and weaknesses peculiar to women. It is not necessary to enumerate the long catalogue of derangements, both functional and organic, of the female system which this marvelous remedy overcomes. They are, also, but too well-known to most females who have attained womanhood, to need more than a hint to make them plain to their understanding. that he feels fully warranted in selling them
