A special meeting of the board was held in

the council chamber on Friday evening last, to

consider the question of additional school accommodation in the south ward, and to receive the report of the special committee appointed to consider the results of teaching voice culture in the public schools. The members present were—

"Dobson, chairman; and Mesen J. R. Mc-Neillie, J. Kennedy, Robs. Kennedy, Col. Descen. J. L. Dunsford, D. Ray, A. O'Leary, and J. D. Macmurchy. South ward school matters were discussed at some length by the board. The town council had suggested the building of a second school to account ofacts the pupils living east of indeasy-st., but statistics were presented showing that the present of the building is an convenient to the population living east as it is to that living west. It was also shown that the St.000 demanded of the council provides for the alteration of the present building and the putting in of new dechs and a furnace, while the erection of a new school, involving as it would the purchase of a lot, would call for an expenditure of at least \$100, besides the yearly calary of a caretaker. In view of the additional facts presented it was decided to again submit the board's application to the council for favorable consideration, and a motion to that effect was passed.

The report of the special committee on voice culture, of which Inspecter Knight was chairman, was presented and read. He room meaded the services of Mr. Church astencher be retained for the balance of 1800 at least. R was also noticed that pupils over 11 years of age did not pay the same attention to the instruction as those from 3 to 12......
