say to the set of the recognition of the recognition of the set of the long wood of the set of the long wood of the set of the long wood of the set of the set of the set of the set of the long wood of the set to nearly or quite double the som. Arlington suggested that they remove mon, or native, dam. The flees will the lorses to his father them, and that

actisfactory results will be secured by a cross with the long-wool breed or the fine wools. The one will show its chief improvement in the careass, the consecutive death.

silts will be derived from a cross with the "Downs" this, not from any defect in the breed, per se, but rather from loss diversity in size in the one and character of the other Sheep from this cross may be reasonably as posted to withstand the bardships sometimes privations, incident to the lot of the flock when compelled to with latter results of the live work its living off the average from with batter results than would be reasonably as with batter results than would be reasonably as with her own knowledge, and firther within her own knowledge, and firther and free by mail to every one. The Specific Medicine is the results of a life since are defended by all drugges and the part of the manual properties. The Specific Medicine is each of a life since are within her own knowledge, and firther and free by mail to every one. The Specific Medicine is each of a life since are made to part and the part of a life since are made and continued and for roughlas it."

Would prove nearly equal to the real late the butter of the Maybew for anything that he life not tell him has the was coins to prove in the seat of receipt of the street of the provential late of the late are made and the late are within her own knowledge, and first here are late are within her own knowledge, and first here are late are within her own knowledge, and first here are late are late are within her own knowledge, and first here are late are late

A PAINTIESS DEATH.

Mrs. Florence Brave, it would appear, is still as attached to the Gorman baths or in the days of her first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed amongst returning to the first widow here for it is removed the first widow here for it is removed the discharge of its way just the short first widow here over there is a weak not only assumed another name, but the first paintiff.

With the first widow is weather first widow in the first widow in the first paintiff. This capacital as an expert.

With the first widow is weather and the first widow in the first w

The first live at the recent Assissas in the County of Hastings exidently had not the fear of Hig Pach Laface that people killed by lighting stiffer no pain.

The measured as an experimental proof that people killed by lighting stiffer no pain.

The measured volocity of electricity is many thousand times greater than the pleasure the courtery and attention of light in the centre of life without any possible announcement by the centre of life without any possible announcement by the courter of the centre of life without any possible announcement by the courter of life without any possible announcement by the courter of life without any possible announcement by the courter of life without any possible announcement by the courter of life without any possible announcement by the copy or ear or sold instructions given with coference to the eases coming before than, in your lordship's charge, and which have essentially alled them in their proper fulfillment of the apportant latter to enter the fulfillment of the apportant latter to exist a proper to the eases coming before than, in your lordship's charge, and which have essentially at a rifle ballier a tarboise compared with the pleasure dark.

This may be regarded as an experimental interval.

The measurement circuit by an elactive from active in units and experimental and private from active in units an experimental as a repeated as an experimental an experimental as a repeated as an experimental an experimental as a repeated as an experimental as a

the best of the we had not talk with him.

The let and tage in the reason of the with him are best as to be unable to do an hour's with the two models and the property of the best of the property of the best of the property of the continual trivials and the continual trivials are the best of the lecensed, and requested him to go with him to his without father to be an affect of the lecensed, and requested him to go with him to his without father and the was afrend their houses would be able to add an Alimeter work with without the house. They saw alranges there. Witness advised his lather not to let the alrangers day over latterful and continued labor, with the property of the best of the past season. My second of the past season M nality and parently of a collabor the work with writings to Mn Mayhow's.

They saw This inquire, in he is plied to from lather not to let the strangers chr. over] so many standpoints, that an opinion alght, as he thought the intended in five of other of the re to commit some theft. Witness and

have delitional length, considerable they both so there and stay, as there improvement in style, and a perception ble increase in weight. The improvement in length and listre will add to list market wither Accordingly the look look. Mr. Howard's barn, and then prepared themselves a place to shope in come stray may the horses to Mr. Howard's barn, and then prepared themselves a place to shope in come stray may the horses to Mr. Howard's barn, and then prepared themselves a place to shope in come stray may the horses to Mr. Howard's barn, and then prepared themselves a place to shope in come stray may the horses to Mr. Howard's barn.

They described the deep and set a need to the market of the deep and set a need to the deep and set a need to the market of the deep and set a need to the deep and set and set a need to the deep and set and set a need to the deep and set and set a need to the deep and set and s ly to the quality of the most some what he will thisken somewhat the property will thisken somewhat the horse and give it slight additional weight, without adding much to its value per pound.

A cross of the American merine will make a marked improvement in will make a marked improvement in a district the least and set a neak year and set and set and set a neak year and set and s

will make a marked improvement in these adding to all its desirable to his kees, pointed his gan obstantiation of the many instances. Without the place where the door opened and fired. We flowed his feet were just within the deer, and are he was shot be fell ontward. As soon as he doubled, while in any other than an anomalous condition of the many an anomalous condition of the many an anomalous condition of the many and fired, where he fell ontward. As soon as he ket, the value per pound will be some what increased. The size of careases will not be increased. The size of careases will not be increased. The size of careases will not be increased, its companions only of the deer he said. It is fasher! Immediately after witness and symmetry of outline will be greatly improved.

With the average farmer the more than the satisfactory results will be seened by

chief improvement in the carease, the other in the fleace, though the morita of neither will be confined to these prominent characteristics.

As a rule, the least satisfactory results will be derived from a cross with the "Downs" this, not from any defect in the breed, per se, but rather from less diversity in one flowers.

with better rosults then would be realized from a long would cross simply broated and, for roughing it, would prove nearly equal to the rosults of the Meximo cross.

In view of these considerations, added to minor ones, that may be classed as results of baste rather than experienced as a general conclusion, we would advise a cross of the Moring realizable for always with the recommendation that the best rams within reach of the means of the others relief and advise a cross of the others relief and advise a cross of the others relief and advise the flock-owner law is an increase of the others relief and that how near the desired standard they may approach. Authoral law is a follows:

The lestimony being given to the verdict in accordance therewith, the verdict in accordance therewith the v
