**NORTH VICTORIA.**  
 Given to the remoteness of many of the polling places in the North Riding it was impossible to obtain or to give the exact returns last week. Owing to the figures received from public places by the post from Mr. Cameron's poll in the neighbourhood of 500. The total returns which are published in 170 show that we were not very far away in our calculations. Not a lot of voters considering the very short time Mr. Cameron spent in the riding. Even had Mr. Cameron not resigned in the first place it is not likely that he would have been defeated, but by such a large majority (perhaps, but one quite sufficient to put the matter beyond all doubt). Mr. Cameron's resignation had a great effect in the fresh reputation of the confidence expressed in him. The following is a complete list of the majorities in the different polling divisions.

**WHY NOT IN WRIT?**  
 The Liberal Convention did not in the late election but something further months to be held. Within a few months at the most the election will be called upon to choose representatives for the Local House, and it behooves our friends in both Ridings to be on the alert. We would strongly urge upon them the necessity of keeping up the organization recently perfected and which proved so successful for the Conservative cause and as a nucleus for the Reform party in the elections for the Commons. As things have turned out a more complete job would have been made of it had both Ridings been brought together. We propose Mr. Wilson will be coming upon the scene to look after the matter, and to see that there is a slight betterment in the ranks of the "form" and that the Liberal and Conservative parties are united, only on the ground that the Conservatives are not to be considered as a party in the election, but as a party in the election, and that the Conservatives are not to be considered as a party in the election, but as a party in the election.

There was so full that it was with difficulty that the fresh arrivals could enter their way in without coming in collision with some of those that had preceded them, so crowded were the decks to meet. The vessels lay three and four abreast, on both sides of the stream, for some distance. It is estimated that there are from three million to four million people in the city in store here this morning. The recent heavy northeast storm kept vessels back from two to three days, and when the wind changed they were all in a hurry to get to the pier, and in the course of a few days the entire fleet will be on its return voyage for another load.

**THE INGRESS OF CHEESE.**  
 Now that an attempt to control the price of cheese by an "ingress" bill has failed, it is not surprising that the Legislature has passed a bill to regulate the ingress of cheese. The bill is intended to regulate the ingress of cheese from the United States and to prevent the sale of cheese at a price lower than the price of the cheese in the United States. The bill is intended to regulate the ingress of cheese from the United States and to prevent the sale of cheese at a price lower than the price of the cheese in the United States.

**AN EXASPERATED LOVER.**  
 HAMILTON, Sept. 25.—James Mansfield, a respectable young man of this city, has for some time past been paying attention to a fascinating young lady, but their course of love has proved an exceedingly rough one, the lady's father having entered a protest against the young man's suit. Mansfield, in defiance of the protest, has been writing to the lady, and has been visiting her in the city. **THE FEVER EPIDEMIC.**  
 New York, Sept. 24.—Four thousand dollars in gold was forwarded to Secretary Evans today from Paris for the benefit of the fever sufferers, making ten thousand thus far contributed in Paris. The hope had existed in Memphis that the fever was abating is dispelled by the reports of Monday at the fever headquarters. There are now a continuous call for nurses, giving employment to many who were on the verge of departure for other parts of the country. The Board of Health reports 60 deaths and 120 new cases on Monday. The day previous only 38 deaths and 100 new cases. J. J. Power, Grand Treasurer of the National Association of Manufacturers, has been elected to the office of President of the National Association of Manufacturers.

**THE FEVER EPIDEMIC.**  
 The fever is reported to be existing at the southwest pass, New Orleans. Doctors and nurses are needed. A country on Monday night in New York, for the benefit of the fever sufferers, and the amount of the Old Ladies' Pension Department, realized from \$8,000 to \$10,000. Washington, Sept. 24.—The Secretary of War having ordered that the New York Association of New Orleans has 300,000 on hand and is not in need of funds, has ordered an investigation, and suspended his order to issue forty thousand additional rations.
