THE NEW MINISTRY

Sandfield Macdonald has, with as little delay as possible, completed the task assigned him of forming a new Cabinet. Amongst his colleagues will be found men whose names are as familiar in the politics of this country as household words. That the Cabinet, as now formed, will prove acceptable to the country at large there cannot be the slightest doubt, notwithstanding the Physical outcry put now being raised by the Grit organs that the man selected by the leader of the new Government as his colleagues are the self same men with but one or two exceptions who were allied with him at the time he felicitated up the seals of office in 1874, his defeat at that time being brought about by a miserable fluke. The then Opposition led by Mr Mackenzie succeeding to the reins of power under false pretences. This barking back on the Pacific Scandal is about as useless as it is contemptible, and is only proving to the world at large how utterly unscrupulous the Grit party is. It has been puzzled us to know what some of the people of England, who have little or no knowledge of Canada or her public men, think when they read in some Canadian Grit organ, and we presume Canadian Grit organs are sometimes by chance seen across in England, that Sir John Macdonald is the Premier of Canada is an abandoned man, a criminal, a man steeped to the lips in corruption and who is a curse to nobody? Do these people who speak of think that North American people are solely ruled by a handful of marauding Bluenose, that on population as a grand basis we are and that Sir John the chief Chief is a huge thief, the chief pirate, and one who should be at once, if not sooner, sent to the happy hunting grounds? But we wander from our subject. Sir John after a lapse of five years which to the by have been made long ones by the unhappy of the country from the effects of the Pacific Scandal, was placed by his colleagues who, through good report and evil report, have never wavered or faltered in their allegiance, and who as for as experience has gone are the only men capable of directing the affairs of this Dominion in the present crisis. Into their hands people gladly certain and there is the very determination with first what the old cry and unable to find something to reform which, when fought with without doubt be put to practice.

THE WOOD-STAFFORD LETTER.

There is probably no footnote of slander to which the mind of the thorough paced Grit will not stoop. For some time back this vulturous class have whispered that a gentleman well known as one of the most sensitively honourable men in Canada stole the letter of Mr. Wood to Father Stafford while the gentleman referred to was a guest at Father Stafford's house. That gentleman, we are authorized to say, knows no more than we do how the letter came into the possession of the person who placed it at our disposal. The very dates ought to have made such a surmise impossible. But that gentleman in other fields has amply convinced himself that the one weapon of the Grit is slander. No weight of years, no profession of piety, no claims of social decency seem other than dust in the balance against the Grit habit of mind to slander and lie. Whether this is attributable to Orange Brown the father of Gritdom or is in Gritdom's nature we do not know, but there is the fact, the fa vourite, the choice the only fancy of the downright Grit is mendacious calumny. From this no opponent, however spotless his honourable repute may be, can expect to escape.

A QUESTION OF VERACITY

We notice that the *Globe*, in one of its editorials last week, charges sundry South Simcoe organs of the Conservative persuasion with fabricating stories to speak more plainly, with telling lies in order to prejudice, so it says, the minds of unthinking people against the Ontario Government. One organ is declared to be impudent because it asserted that money had been contributed by members of the Mowat Government to assist the Toronto *Tribune*. In answer to that assertion the *Globe* says "it is only necessary to say that no money was contributed by any member of the Ontario Government to the *Tribune*." We thought that this matter had been settled long since. The *Globe*, poor old thing, must be rapidly losing its memory or it would not so soon have forgotten the fact at that memorable epistle from Hon S C Wood to Father Stafford respecting the aid necessary to the *Tribune's* sustenance and support. Mr Wood in his letter said,

"There is a movement on foot now to give some assistance to the *Tribune*. I suppose you are aware that up to this Government gave from £200 to £250 apiece that also a sum was raised by the members of the Ottawa Government in all Mr McCrossom must have received not less than $3,000." In the face of this statement of Mr Wood's how can the *Globe* truthfully say that the *Tribune* received no assistance from members of the Mowat Government? Was the *Globe* not taken into the confidence of the Ministry that it was not aware of the movement that was going on? If the *Globe* is to be believed, then Mr Wood was not writing the truth, if we are to believe the statement in Mr Wood's letter to be true and we have no reason for doubting its truth then the *Tribune* has most assuredly received that support that was deemed necessary to its very existence. Whether the money came out of the private purses of the Ministry or out of the public Treasury, or in either instance was charged to telegraphing or postage, we will leave to future investigations by the House when it meets. Why the *Globe* should come down on the fronted in the matter and at Mr Wood's expense is more than we can say. What has Mr Wood done that the chief Grit organ should take such a slap at him? But leaving Mr Wood out of the question for a moment it strikes us very forcibly that the *Globe* has stultified itself, for it runs in our mind that at the time the matter was made public it attempted to defend the transaction by all means it said that there was nothing improper about it and that it was simply a case of "Dog eat dog and little wool." Our contemporaries in Simcoe are doubtless quite capable of dealing with the subject themselves, at the same time we cannot refrain from shewing up an organ that is conspicuous only in its inconsistency. It does not mean that Mr. Wood went beyond the truth in his letter we would like to know what it does mean, if Mr Wood wrote what he knew to be untrue what object could he have in doing so? The more one speculates about it the more perplexing it becomes

EDITORIAL NOTES

The total clerical vote cast at the Montreal Synod, on Wednesday, 16th inst., was eighty five, of which Dean Bond received forty three, and the lay vote seventy eight, of which the Dean received forty. He was elected by a large majority on the first ballot, and his election gives general satisfaction

The Ottawa *Free Press* says: It is stated that Chief Justice Richards has expressed a desire, on the ground of ill health, to be superannuated, and that the position was offered to Hon. Mr. Drake and to Sir A. A. Dorion, the former declining on the ground of ill health, and the latter on the ground that his affairs would not permit of his acceptance of the office.

It looks as if there was a flaw somewhere in the Constitution when members of an incoming Ministry who have just come from the country after a general election and who have not yet done anything to forfeit the confidence placed in them, are obliged to go back to the country for a second time. It is constitutional of course; at the same time we cannot see why the newly chosen Ministers should be put to all the trouble and expense of a new election.

It is said on good authority that the Marquis of Lorne and the Princess Louise will arrive at Halifax on the 23rd of November, and remain for two days. While there they will reside at the Admiralty House. A public meeting of citizens will be held shortly to appoint a committee to act with the City Council in the reception of the new Governor-General and the Princess. The Duke of Edinburgh is expected on 30th November to be at St. Kings Prince. He will remain on the Halifax station under Vice Admiral Houstrippe and later part in the reception of the Governor-General.

The members of the new Local Government of Nova Scotia were sworn in last Tuesday, before Lieutenant-Governor Lawrence.

A Victoria despatch says the election for the Commons resulted in the return of Sir John Macdonald by a vote of nearly two to one over the two other candidates.

Mr. Solomon White has been nominated to contest the North Riding of Essex in the Conservative interest in the approaching election for the Local House.

It is reported that Hon. Mr. Ayotte, ex-Attorney-General of Quebec, will be a candidate in Chicoutimi, the seat for which has been vacated by the resignation of Mr. Price.

SLAVERY DOOMED IN CUBA.

A letter from Havana, dated Oct. 12, says: "The slavery question is uppermost in every mind, and this country will certainly have no reason to complain of the Government not giving the slave-owners ample notice to provide for the inevitable abolition of slavery. It does all in its power to favor the immigration of field-laborers, and almost every steamer arriving from Spain brings a few hundred sturdy men, mostly from the Canary Islands. On the other hand, the planters are becoming convinced that machinery will have to be substituted as much as possible for human labor, and many have been heard to express an intention of changing their old machinery for the improved system, thus saving time and labor. American machinery is now preferred here, on account of its cheapness and ingenuity of construction, which more than compensate for the advantage the English machinery possesses in its durability. The erection of so-called 'central plantations' is another means of supplying the want of laborers. For instance, a planter, having several adjoining plantations, will dismantle the machinery on all of them, and erect instead one powerful machine that will do the work formerly done by several. As the distance from which the cane will have to be brought to the grinding-mill will thus be augmented, rails will be laid to convenient points on the estate, thus saving the tedious work of carting the cane long distances."

The loan of $25,000,000 made at Paris has been unjustly criticised by many who did not or would not understand why this loan was left to the administration of the Spanish Bank there. The simple reasons for this course were the following. The loan was sanctioned by the Cortes as far back as June 25, when peace was firmly established; and in order to pay the many soldiers then to be mustered out several millions were negotiated with the Spanish Bank in advance of the loan before it had been formally contracted. The Government, besides, considered itself bound, as a measure of the greatest necessity, to settle as soon as possible with the Spanish Bank, as the only means of restoring specie payments, which can only be effected by the bank returning to its normal condition."

MARIPOSA FALL SHOW.

The most successful fall show ever held in the township of Mariposa was that of Monday and Tuesday, October 14 and 15. The weather was favorable and the attendance very large. In the number of entries and other respects the show is said to have been far ahead of the South Riding exhibition. We take from the "Post" the following

THE CANADIAN TWINS.

EXAMINATION BY A PHILADELPHIA PHYSICIAN.

The St. Benoit, Que., twins arrived late on Saturday from Canada, via Boston, and at once were taken by their mother and father, escorted by Dr. J. V. Shoemaker, of this city, to the surgical class at the Philadelphia Hospital. Where Prof. Pancoast was operating in the presence of about five hundred students and a crowd of doctors, who had gotten wind of the intended examination of the twins.

Prof. Pancoast put the twin baby on the table. It appeared to be two babies, joined together at the breast, but with separate heads, however, but two legs, two bodies, two separate intelligences, and four arms. The Professor made a few preliminary remarks to the students and then turned briefly to the formation of the twins' bodies and the Catholic faith. Those from Canada, the Professor said, were Catholics, and he was glad to see that they were so, for it proved a theory of his that Catholics were more prolific than other people. Here was one family of twelve children, all living, and there was another family of twenty-one children, all living, and there was another family of twenty-two children, all living, and there was another family of twenty-three children, all living, and there was another family of twenty-four children, all living, and there was another family of twenty-five children, all living, and there was
