Agnicultural Society.—At a meeting of the Emily Branch Agricultural Society, held at the Bradburn house last week, Mr. James Groves and Mr. Adam Spence were appointed directors, and the number of members returned for 1882 was 112. We are pleased to be able to state that there is a large increase of members over former years, and judging by the earnest way in which the officers of the society are working the fall show of 1882 will be far ahead of any ever held here.

Urarr. - As Mr. A. Williamson, in company with some others, was driving from Lindsay a few days ago, and when about three miles from Omemee a wagon was met loaded with a horsepower, the driver of which seemed determined to keep all the road, and the consequence was that the rig had to be turned to one pants were thrown out, Mr. Williamson falling in such a position and with such force that his collar bone was broken.

FIRES. On Sunday morning last about 2 o'clock some person set fire to a small isolated and unoccupied house on Mary street, owned by Mr. Thomas Matchett, of Lindsay. The hook and ladder company was soon at the scene, but as the fire had gained too strong a hold on the building nothing was done to stay the progress, the members of the company directing their attention to protecting property close by. Shortly after the above fire had cooled down another house, unoccupied, and situated a short distance south of the village, was set on life, no doubt by the same party, and burned to the ground. A sharp lookout is being kept, and if the incendiaries are discovered a few years in the penitentiary might be the means of reforming them. -- Herald.

Lawrence Hall, Port Hope, -1287-ly. that there were many members in the House from distant parts of the Dominion, who either knew nothing at all of the scheme, or supposed that it was a local pet affair, set quietly to work some weeks before the matter came up, and explained it to the individual members as he found opportunity, and in this laborious way he secured a majority for the measure before it came up for discussion. Mr. Cameron's letter shows that his interest in the Trent Navigation is unabated. I have no doubt whatever that Mr. Cameron will act with wisdom and energy for the future, as he has done in the past, for the promotion of the scheme, and that those who are alive ten years from this time will see the Trent Navigation completed, and in full operation from end to end, and carrying its share of the products of the great west to the sea-board. Mr. Cameron, for the trouble and interest that he has taken in this scheme, deserves the grateful acknowledgments of all those who have the good of the country at heart.

Yours very truly,
WM. LOGAN.

OTTAWA, July 20, 1882 My DEAR MR. LOGAN, -- Knowing the interest which you, as well as my constituents generally, take in the Trent navigation, I write a line to say that Mr. Hilliam, M. P., Mr. Dundas, M. P., Mr. Harry Smith, of Peterborough, and my-self, had an interview with Sir Charles Supper to-day on the subject in order to press the work being prosecuted without delay. Sir Charles explained the causes delay. Sir Charles explained the causes will delay. Sir Charles explained the causes of the delay in giving out the contract, arising from the utter inability of the engineers to get the plans and specifications on the country, arising from the utter inability of the engineers to get the plans and specifications of the choicest wines, liquors and cigars. Meals—are his age, in a sea of Mr. tree, Ross, of ready, and promised to use every exertion to prece on the work this sesson. We insisted on other engineers being called in if the present staff was insufficient, and I feel satisfied that the locks at Fenelon Falls at least will be put under contract within a very short time.
