Walters of this town, and wants the race to be rowed on Cameron lake some time next month. He further challenges him to a double canoe race on the same day for \$50 a side. This is from an advertisement in the Winnipeg Star. Parties having houses to rent, furnished or unfurnished, will study their interest by placing them in our office. Winnipeg houses must be decidedly better when a number of them can be handled into an office. A Lindsay dealer heads his advertisement. "Don't you do you wear boots or shoes?" Do the majority of the people there go barefoot, or do they wear shoes? Orville Fackel, it is the people of Orillia he is addressing for it is a well known fact that all the people in that backwoods town have to go barefoot unless boots and shoes are obtained from Lindsay. Fall Show. The South Victoria fall exhibition which takes place here on Friday and Saturday, 20th and 21st, promises to be the best exhibition yet held by this society. Owing to the large and splendid crops of almost every kind of grain and farm produce the outcome will in all probability be largely in excess of previous years and the rivalry and competition for the prizes much keener than usual. The secretary, Mr. J. W. Keith, is now busy preparing preliminary and arranging for the proper care of all exhibitors sent on and any information regarding the show that may be required by those who intend exhibiting should communicate with him at once.

Organized by the photo or in bulk at Mrs. E. F. Jewett's. Carver's little liver pills at Higginbotham's drug store. The Military and music stock at the Golden Fleece is the most complete and elegant ever shown by that firm. J. It appears the Peterboro lacrosse club were afraid to face our lacrosse team on Tuesday and dare not show up. At all events they did not come. Misses. Miss Goby has completed her purchases and designs for the autumn trade and is confident of more than retaining her enviable reputation. B. Smyth. "I NEVER FEEL IT." This is a common expression with people getting tired and strained with Mr. Neelands, even when they take nothing. He says "he don't believe them." 1827-ft. What with excursions, picnics, etc., the Lindsay people have had a quieter time than usual in a business way. The grain is beginning to move, however, and that will brighten matters up considerably. RIBBON BOOTS for sale by the hundred, of the best kinds. Also thousands of strawberry plants. Wilson's Albany and cream seedling cheap. At W. M. Robson, Kent street, Lindsay. Awards. Mr. W. M. Robson succeeded in carrying off the prizes for apples at the Toronto exhibition, 1st prize for the Ontario and 2nd for Wagner varieties. This is good for Lindsay and Mr. Robson both. (G. A. Weese) Teeth extracted positively without pain or injury at Neelands' either by liquid gas or ordinary laughing gas or no charge will be made. A splendid electric machine used for those who wish teeth extracted in that way. 30-ft. PHOTOGRAPHS reduced in price during month of October, next card size \$1.00 per dozen, cabinet size \$3.00 per dozen. All work guaranteed. Positively for one month only. FOWLER & OLIVER, LINDSAY. A PREDICTION.—Mr. H. G. Vennor has issued "probabilities" regarding the weather we shall have during the remainder of the year. He predicts a fair and frosty September, a wet October and November, and a stormy December, with plenty of snow. Fall OPENINGS.—Fall openings will be held earlier this year than usual. Our merchants are consequently making extensive preparations in opening out goods, etc., which will delight the ladies generally. All the latest European and American styles will be shown. SHRIMPING IN GRAIN.—Corn loses one-fifth by trying, and wheat one fourteenth. From this the estimate is made that it is more profitable for farmers to sell unshelled corn in the fall at 75c than at \$1 a bushel in the following summer, and that wheat at \$1.25 in December is equal to \$1.50 in the succeeding June. COVINO.—Signs of the coming winter are now in order. It is reported that corn husks are heavy, which is a indication of a hard winter. If Vennor and the veracious goose bone should concur, no doubt they will, it would be wise for the young men to take their overcoats out of pawn at once. The 4th batt. returned home from Cobourg Saturday having put in their annual drill. They appear to have enjoyed themselves considerably during their outing notwithstanding their hard exercise and have certainly a more healthy and hearty appearance, especially those who have been in the shop all summer. Our town during the past week has been unusually quiet, owing to the fact no doubt, that many of our noisy citizens are attending the exhibition at Toronto, seeking health, wealth, recreation, rest or something else elsewhere.—Orillia Times. That is all very fine, but the true reason is more likely to be that they have seen enough population in Orillia to get up a respectable noise. S. D. ACCIDENT.—One day last week Mr. John Cook, of Ops, had his foot severely crushed in the horse power of the threshing machine which he was driving for Mr. Wetherby. The poor fellow had the sole of his foot torn completely off for about half its length. Dr. Herriman dressed the wound, and the patient is now doing well. He will be laid up for some time, and it is somewhat doubtful whether he will ever again obtain the full use of his foot. Civic Excursion.—The annual civic excursion of the Midland railway to Midland was held on Wednesday. A very large number attended from here, and in fact all along the line. Excellent accommodation had been prepared in every way, both as to coaches and everything else, and the trip was much enjoyed by every one who had the good fortune to be in attendance. B. B. BALL.—A greenhorn nine played the Independents in this town last Friday afternoon and defeated them by an innings and two runs—the score standing 31 to 29 at the conclusion of the game. As might be expected from these figures there was a good deal of wild play made on both sides, and American professionals would no doubt have been very much startled had there been any of them on hand to witness the match! We would like to see Lindsay have a first-class team in such of the now popular games of cricket, lacrosse and base ball, but there will require to be a heavy investment all round before such can be the case, and in the two latter especially. All three require intelligent study and steady practice, and quick perception and cool calculation when a match is in progress. Rowing.—A correspondent in another column appears to be rather indignant regarding some rowing which he witnessed recently in Lindsay, and he might be expected from these figures there was a good deal of wild play made on both sides, and American professionals would no doubt have been very much startled had there been any of them on hand to witness the match! We would like to see Lindsay have a first-class team in such of the now popular games of cricket, lacrosse and base ball, but there will require to be a heavy investment all round before such can be the case, and in the two latter especially. All three require intelligent study and steady practice, and quick perception and cool calculation when a match is in progress. FOOT BALL.—A new foot ball club was organized on Monday and the different officers appointed. What with cricket, four lacrosse clubs, base ball and now a foot ball club it must be admitted we are without doubt considerably of a sporting town. But the foot ball club is the club of the season as they intend showing us as follows: Geo. E. Dean, president; Geo. Matthews, Jr., vice-president; Harry Hangerford, captain; Fred Knowlton, treasurer; Wm. Wood, secretary. The committee of management is composed as follows: Wm. Bushell, J. Marshall, W. Matthee, W. Brown, D. McSwain, and N. Elliot, ball game, whatever that may be. Lindsay has already started providing provisions to "cleaning out" any undertaker club that may have the backbone to try them a match in a short time. We are all certain that Lindsay is already at a moment's notice if they do not want Lindsay to copy of the pain.

THE CITY STORE THE CITY TAILORING HOUSE Of Lindsay. SOOTHELAN, CATHRO & MARK, CITY DRAPERS AND CLOTHIERS, No. 2 Dobson's Block, 2nd door west of the P.O.

THE GREAT CASH STORE OF LINDSAY. NEW FIRM. NEW GOODS. NEW PRICES. MELVILLE AND THORNBURY. Every person invited to call and inspect this magnificent display of goods, and be convinced that these goods are being sold at prices never dreamed of in the history of the Dry Goods trade in this town. A PLEASURE TO SHOW GOODS. MELVILLE & THORNBURY. Lindsay, September 21, 1902.

OUR TEA TRADE. QUALITY ALWAYS THE BEST. PRICES INVARIABLY THE LOWEST. Our trade in TEAS this season has been a pronounced success. It will leave its mark in the town and county, and must speak forcibly in favor of our system of conducting this branch of our business. A firm's ambition in dealing with customers should be to convince the public that their word may be depended upon, so that when they advertise and offer lines of goods of superior grades and for less money than elsewhere, people can depend upon the statements being backed up. We make the plain statement that we do buy our TEAS at better prices than any other merchant in this county. In all cases we pay no more than the average wholesale man pays to first hands. Our TEAS need no domestic conversation to commend their merits. The quality in every case we guarantee to be just what is stated. OUR AGENT WILL SELL TEAS TO CUSTOMERS AT PRECISELY OUR SHOP PRICES. People can deal with him and implicitly rely on our firm to make good what he promises regarding our stock. WE HAVE 30,000 POUNDS OF TEAS NOW IN STOCK, which came in free of duty, and can sell from one to fifty half-chests as low as Toronto or Montreal wholesale houses, and much lower than elsewhere in town. SPRATT & KILLEN. Lindsay, July 27th, 1902.
