should display such "extreme solicitude for the reputation of the press of this county "immediately the entiret of Mr. Peek is tenched upon we do not know. nor can we see very plainly wherein that "reputation has been somewhat injured by dealing with him any more than Mr. Wood. The Casette is sprely not so hypocritical as to pretend that it does not know anything of the rescality practice! by Mr. Peck while treasurer of the county of Haliburton, nor the peculiar tricks of that gentleman in his canvas as a candidate last election for the Ontario Assembly. If it has already forgotten these little incidents then the "reputation for Minteness of the press " of Feneton Falls at least cannot amount to much. Scarcety acquainted with Mr. Peck's record, and knows it to be nothing but one mime of disheresty and trickery from the time he first set foot in the district till the present time. > wise and useful purpose. PALTRY DEFENSE.

Many of the petitions which have been fyled against the return of Orit members of the Dominion Parliament cite as one of the reasons that the said return should be on account of the undue influence and intimidation indulged in by the Mowat Covernment and its officials. One esteemed contemporary the Fene. Theorgans of Mr. Mowat have strenuously

But now the tune appears to be changed. Brought to account a little sooner than expected these gentlemen find they can urge the plea of individuality no longer, and now that they are compelled to face the music have put in the following paltry defense against the various indictments

That the Government of the Province Ontario is vested in Her. Majesty the sean as lawful sovereign of the said rovince, and that at the time of the said startion, by letters patent under the great seal of Canada, Her Majesty's local exe intive functions were exercised in Her Majesty's name by Her Majesty's Lieu-tenant-Covernor of the Province of Onario, under the designation and title of lovernment of the Province of Ontario. The specific allegation of undue influence a then negatived. Therespondent therefore submits that Her said Majesty the Queen and Her said Majesty's Lientenant-Governor, under the designation or title of the Covernment of the Province of Onario, are wrongfully charged by the said petitioner with the statutory crime and neither Her Majesty the Queen nor Her said Majesty's Lienterant-Governor, nor either, under the said designation or title of the Government of the Province of Ontario, by herself, himself, or itself, her. an be charged, or tried, or found guilty the said statutory crime and offence of indue influence, as charged by the said petitioner in his said election petition, And the respondent claims the benefit of his defence, as if made by way of preminary objection to the said petition

It is scarcely likely so slim a defense as this will have much weight in the election courts, and it certainly will have none with the country. So far as our own county is concerned not only did Mr. Wood interfere in his official capacity but se to our knowledge sent an emissary to a certain public official to inform him he must either promise to vote for Mr. Needler or he must stay away from the poll altogether if he did not desire trouble afterwards. It is needless to say the poor rentleman took the alternative and staid away. This is not the only intimidation Act, and characterizes its proposed repeal by a good many that might be mentioned and there is every reason to believe the same little games were played in other constituencies. At all events it is to be hoped a searching examination will take place in every contested case till every fact is brought out, as well as Mr.

OFFICE OF THE VICTORIA WARDER,

THE MARKET.

Local deliveries of grain during the past week have been somewhat heavier, especially in barley. Grain can scarcely be said to be moving yet to any extent, however. Prices for both wheat and barley have not materially changed. BRITISH CATTLE MARKET.

The supplies of fat cattle, both in Edinburgh and Glasgew markets, have neither been so large nor nearly so good quality this as last week. At the latter market there was the worst show of the season, there being very few choice animals on offer. The trade has been fairly good. but secondary and inferior qualities were if anything, cheaper. The English markets on the whole, have scarcely been so good this week. Sheep have been selling at prices nearly equal to those of the previous week, but in Glasgow those of the account class were a shade cheaper Fat lambs continue both scarce and dear, and the numbers of this class coming to hand are considerably smaller than two weeks ago. Fat calves about the same prices as the previous week, and pigs a shade more money.

THE BRITISH GRAIN TRADE.

THE Mark Lane Express, in its review of the grain trade of the past week, says The sowing of the 1883 crop is proceeding satisfactorily. The tendency of trade has been continually downward. There was an apparent steadiness at the close, but the varied quality of native offerings of wheat compares badly with foreign wheat. which is extremely depressed. Off coast cargoes are steadily declining. There were twenty-nine arrivals and elevensales. Wheat on passage and for shipment is rather firmer. Flour is freely offered, and prices drooping. Foreign flour is in liberal supply and cheaper. Barley is inactive, but prices are maintained. Foreign is cheaper. Maize has gradually sight. Sales of English wheat, 58 211 quarters at 40s. 4d. against 52,231 at 47s. Od. the previous week. LINDSAY MARKETS.
