Is a compound of the virtues of sarsaparilla. stillingia, mandrake, vellow deck, with the iodide of potash and iron, all powerful blood-making, blood-cieausing, and life-sustaining elements. It is the purest, safest, and most effectual alterative available to the public. The sciences of medicine and chemistry have never produced a remedy so potent to oure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Hose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ling-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause

which contaminate the blood and cause derangement and decay. It stimulates the vital functions, restores and pre-serves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease of the blood need despair who will give AYER'S. SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. Ayer's Sarsaparilla is a medieine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unquali-fied confidence of millions whom it has
