THE Directors of the Building and Loan
Association are prepared to advance modey on security of Real Estate, in Town or

TOWN PROPERTY.

To enable persons of limited income to procure houses for themselves, this Association is prepared to advance money at low rates, over periods extending from three to fifteen years, upon the security of eligible building lots, to parties owning the same, or desirous of erecting buildings thereon. The instalments extending over the longer periods, would scarcely exceed the ordinary rental paid for similar houses, whilst the bor rower would thus be enabled to acquire a free dwelling heuse for himself in perpetuity by paying little more than anjerdinary sent. by paying little more than anjertinary rent.

Loans will also be made on che security of first-class city or farm property of every description on the same terms.

rates, payable in yearly and half-yearly in stalments of principal and interest, extending over periods of from three to fifteen years, whereby the whole is cleared off at the end of the term for which it has borrowed.

The adyantages of this system cannot be too fully realized. The borrower is, by easy payments, enabled to pay the debt which would fall too heavy if it had to be paid in one sum at the end of a term of years, and with a little care can with ease provide for the instalments as they become due.
