The Fenian Corrention at Cincingations not without its fruits. It haid down the programme for the averthrow of the British empire; it fixed the tariff of subscriptions to be imposed on Irish servant girls who are devoted to the cause; and it made the following addition to Irish music. To do full justice to this sweet anthou, it is necessary for the vocalist to be very drunk, and he must use the sir of "The Colleen laws" if possible;—

THE Directors of the Building and Loan Association are prepared to advance mo-dey on security of Real Estate, in Town or Country, at moderate rates.

TOWN PROPERTY.

Town Property.

To enable persons of limited income t procure houses for themselves, this Association is prepared to advance money at low rates, over periods extending from three to fifteen years, upon the security of eligible building lots, to parties owning the same, or desirous of erecting buildings thereon. The instalments extending over the longer periods, would scarcely exceed the ordinary rental paid for similar houses, whilst the bor rower would thus be enabled to acquire a free dwelling house for himself in perpetuity by paying little more than an ordinary sent.

Loans will also be made on the security of first-class city or farm property of every description on the same terms.

FARM PROPERTY. Advances made on improved Farms at low rates, payable in yearly and half-yearly in stalments of principal and interest, extending over periods of from three to fifteen years, whereby the whole is cleared of at the end of the term for which it is borrowed.

The adyantages of this system cannot be too fully realized. The borrower is, by easy payments, enabled to pay the debt which would fall too heavy if it had to be paid in one sum at the end of a term of years, and with a little care can with ease provide for the instalments as they become due.
