Grit Tactics in Torente
Whilst the Globe and several of its followers are hypocritically condemning the introduction of politics into Municipal contests, the invariable course of the great reform party is once more laid bare in Torento, vis — the practice of those very acts which they are leudest in very acts which they are loudest in condemning. The Globe is at this moment advocating the removal of several of the members of the City Council, and of course advocates the imperative neces sity of replacing them by certain gentlemen, who of course happen to be Grita. Such conduct is simply disgraceful, and we, in Lindsay, may congratulate ourselves that no such intentions as those to which we refer have manifested themalisms bere.

FOUNG MEA'S CHRISTIAN AS SOCIATION.

To the Editor of the Worder.

SIR,—A few mooths ago an attempt was rade to organize a "A Young Men's Christian Association" in this Town, and I believe one or two preliminary meetings were held, with that object in view, but owing to causes which it is unnecessary to mention here, the attempt was abandoued. That there is material and work enough for such a society in Lindsay I think few will be disposed to deny. Societies of this kind have been established in most of the Cittes and large Towns in Canada and I cannot see any good reason why we should Cities and large Towns in Canada and I cannot see any good reason why we should not have a similar one here. Our town is growing in population, wealth—and, shall I say it?—in wickedness, and those who profess to be followers of Christ should feel their responsibility, and endeavor to do all the good they can.
