DR. RYERSON, of Toronto, will be in Lindsay on Saturday, 13th inst., at the Benson house and where he may be consulted by any requiring his services.

The traffic returns for the Midland Railway for the week ending Dec. 23rd, show an increase of \$1,400 over the week before and \$205,410 over the traffic up to the same time last year.

SCHOOL ELECTION.—In the east ward election for school trustee as soon as the poll opened on Wednesday Capt. Crandell retired in favor of Mr. P. J. Pilkie who was therefore declared elected by the returning officer.

A CHANGE.—In consequence of repairs now in progress in the Baptist church, the prayer meeting announced last week to be held there next Monday evening will be transferred to the Presbyterian church. The meetings on the other evenings will take place as announced.

"OYSTER COCKTAILS" are now the correct thing in many of our Canadian towns. In some places of entertainment "a glass of oysters" is said to be commonly called for; also "beef tea," made from Liebig's extract. This is another sign of the general decline of whiskey drinking in this country.

AND now it is claimed that the winter of 1882-83 will be the coldest within the memory of the oldest inhabitant. The old signs which used to point to a cold time. The moss on the trees is growing like compound interest; frogs in mill ponds stand on their heads; grape vines grow around poles instead of climbing upward, and coal has only sixteen hundred pounds to the ton.

GAINING A WORLD WIDE REPUTATION. About 150,000 bottles of medicine and 3,000 Spermometers, the invention of M. Bouvillie, of Paris, and ex-aid surgeon of the French army, have been used by physicians and patients during the last year for the cure of cataract, catarhal deafness, bronchitis, asthma, consumption in its first stages and many diseases of the head, throat and lungs. Consultations with any of the surgeons belonging to the institute free. Poor people showing certificates can have spermometers free.

Write enclosing stamp for pamphlet giving full information to either of the Canadian offices where competent English and French specialists are always in charge. Address: International Throat and Lung Institute, 13 Philip square, Montreal, P. Q., or 173 Church street, Toronto, Ont.

VICTORIA SKATING RINK IN BURNING ORANGE.—Come down with your cash and secure tickets at the old rates, although we intend giving during the skating season three nights in the week a magnificent entertainment of selection views on 100 feet of canvas. There will be a selection gallery erected at the north end of the rink for the purpose. All the principal events of the year will be portrayed and all our public men, both of our town and other places with their respective hobbies, not forgetting our own school board and water committee and an endless variety of side splitting comicalities, jests and so forth will close the evening exhibitions. We will have the band at the rink during the season or often as the public patronage will warrant us in doing so. There is fun, amusement and healthy exercise ahead if your patronage is liberal.
