The treasurer in compliance with instructions given at the December session has submitted a comunication from Mr. E. Woods respecting the cost of introducing gas for use in the court house and the cost of fixtures. Your committee have decided to recommend that no action be taken in the matter at present.

Your committee have considered the communication from Mr. Wm. Grace, Esq., calling attention to the insuffici-ency of accommodation in his office for the safe custody of books and papers and the proper transaction of business. To make such changes and additions as he requires would involve a considerable outlay. Your committee recommend that the question be deferred until the June session for further consideration.

All of which is respectfully submitted.

E. H. Hopkins, chairman. Lindsay, 26th Jan, 1893.

GAS LIGHT. Col. Descon moved, seconded by Mr. Geo. Ingle, that the contingent committee be authorized to put in gas into the court house and the offices therein,

Mr. Parkinson was of the opinion that well as gas. The motion was lost.

Dundas, M.P., he had drawn up a petition to the Dominion Government which he would lay before them asking the Government to grant material aid in deepening and improving the Mid-land harbor, a point which was now becoming so important to this section of the country. Also a memorial to the Lieut .-Covernor praying for a fresh supply of Governor in council in favor of the estab-

The reeve of Carden has produced voucher for \$35 granted at December session to assist the township of Carden to pay for the bridge recently built over the Talbot river on the 8th concession.

In reference to the communication of Mr. Nickison your committee recommend that no action be taken in the matter as it appears to be beyond the jurisdiction of the council and that the clerk be instructed to notify him to this effect. In the matter of the Coboconk bridge laid over at the December session to be dealt with at this session. Your com-

The following are the appropriations as doubt by a handsome majority. The mended to each township: we hope to see the two Victorias once and

for all redeemed. We must remember our opponents are leaving no stone unturned. They are working might and main. They fully recognize the fact that it is a last desperate effort and that their overthrow now would for ever blast their chances for office. Mr. Mowat is just now particularly anxious to have it understood that he is not unfriendly to the N. P. as well as the whole of the Hardies and Pardees una voce now that they ask to be retained in power, but the dodge is too transparent and will be met as it deserves. The Boundary Award is still to the fore and furnishes almost the entire stock-in-trade for the Grit leaders in the forthcoming election. There never was a greater fraud perpetrated upon a loyal and in-telligent people. Who is responsible for the delay but Mowat himself; he has taken his stand on the question. What object has he in his stand, and how long does he intend to remain standing? Surely the Premier is well aware that he is the stumbling block that remains in the way to a settlement. Ontario's Conservative majority will show these gentlemen who are the true friends of the Province in this matter that it will be settled by the proper tribunal and to the satisfaction of our people and not be preserved for another election cry.

But most significant to the electors is the result of the recent election in Mani-toba. For months past the Grit party and organs have been agitating against the Dominion Government's right to disallow provincial acts, that Manitoba as well as Untario was engaged in the same righteous battle for provincial rights, and two provinces were arrayed against the Dominion Government. Now, one of these provinces has in the most emphatic manner spoken and Manitoba has decided that the power of the Dominion Government is a just and reasonable power, and that provincial rights are best preserved by loyalty to the terms of the constitu-tion. Mr. Norquay has been sustained by a very significant majority and we Mulligan, a teacher in this county, with trust that as one stay to their fast respect to his examinations undergone by crumbling fabric has given away the him for the purpose of obtaining a second-class normal school certificate. If warden and treasurer to raise by way of it had not been for the poor school of Lindsay when he first made his appearance in town as a poor scholar where would what little learning he has be? If the Lindsay high school had not been supported by the Lindsay ratepayers for free education to all comers like him I think Lindsay would be minus this learned lawyer, who considers himself so much superior to a common farmer. I think it ill becomes Mr. McIntyre to call Mr. Fairbairn a Know Nothing because he is a farmer, when a few days before that, when he was canvassing in Mr. Fairbairn's township he represented to the farmers that he was a farmer himself, but he failed to tell to what extent he farmed. He did not say that his farming consisted in collecting rent off a piece of ground left him by a dead relative. If Mr. Fairbairn is a Know Nothing in the eyes of Mr. McIntyre the township that has returned him reeve for so many years did not think so, and the county that elected him warden did not consider him Know Nothing. Mr. Fairbairn, to give him fair play, is a man of rare ability, being one of the successful farmers of the county, bought his own land and paid for it; he did not wait for some relative Minister of Public Works asking for pairs to the river and dam at Bobcaygeon be received and read. The petition was minence. His own sterling ability and perseverance did the work.
