—TO THE—

ELECTORS

—OF THE—

South Riding

—OF THE—

County of Victoria.

GENTLEMEN,—

Having received the nomination of the Liberal-Conservative party for South Victoria, and having accepted the same, I request you to aid me at the ensuing election by your votes and influence.

I am a farmer and have an intimate knowledge of the wants of our county, and my experience in municipal matters will I hope be of assistance to me should I be elected your representative.

I am strongly in favor of maintaining the confederation of the provinces, and consider the course pursued by the present Government of Ontario respecting the railway award opposed both to Confederation and the interests of Ontario. I de-

sire our province to have all her rights, and I believe she will best obtain and hold them by constitutional means.

I am opposed to any encroachment upon the rights and privileges of our municipalities and to the centralization of power in the Local Government, and I shall oppose all measures interfering with the rights of private individuals where the interests of the public are not concerned.

I am in favor of granting an extension of the franchise irrespective of class, and shall if elected do my utmost to secure equal rights to all in this respect.

I shall call upon as many of you as possible before the election, but as the time is short and as it will be impossible for me to see you all I ask you to support me by every legitimate means in your power.

I am, Gentlemen,

Your obedient servant,

CHAS. FAIRBAIRN.

Verulam, 5th Feb., 1883.

—TO THE—

ELECTORS

—OF THE—

North Riding

—OF THE—

County of Victoria.

GENTLEMEN,—

Having accepted the Liberal-Conservative nomination to contest the North Riding of Victoria at the approaching election, and having resided as a farmer for the last twenty-four years in the county, I venture to solicit your vote and influence in forwarding my claims.

If elected I shall deem it my duty to defend the rights of Ontario and Private property from spoliation by every constitutional means, and will endeavor to have the finances of the Province administered so as to avoid direct taxation, using every means of economy consistent with the welfare of all classes of the people.

I shall strenuously resist all measures likely to destroy the harmoniously carrying out the intentions of Confederation, and will regard British connection and unity as indispensable to Ontario's prosperity and development.

I am opposed to increased patronage being exercised by any Government which should be placed in the hands of the county, but is now given to petty officers to administer local affairs, as being opposed to Reform principles allowing the people to govern themselves by popular consent and avoiding a tendency to corruption.

I feel that the Northern portion of the Riding should be most carefully attended to by any Government, as the revenues from timber dues and mineral lands are chiefly derived from the new sections of country.

It will be impossible to call on all the electors, but I hope each will regard the exercise of the franchise as a trust not to be neglected, and I feel confident of success if every lover of his country perform his duty on polling day.

JOHN FELL.

Bury's Green, Feb. 7th, 1883.

The Water Works.

(To the Editor of the Warbler.)

Sir,—I see by THE WARBLER there has been some discussion at the town council regarding the waterworks and that none of the members appear to understand thoroughly the arrangement entered into by the town with Messrs. Needler & Saddler. I trust I may be pardoned in informing the gentlemen of the tenor of the agreement entered into between them in 1874, when the question of fire protection was submitted to the people of Lindsay, whatever form it may have been put into in writing.

When the question was first mooted the council took Waterous, of Brantford, as their consulting engineer. He determined that the power necessary was 70 horse power, which Messrs. Needler & Saddler agreed to give and also to put up a house for the reception of the pumps for the annual rent of \$400. Now, according to this agreement Messrs. Needler & Saddler have to furnish the said power for the said annual rent for the specified and this was as clear as sunlight to anyone at that time. They had in the sawmill two old waterwheels which did not give them the requisite amount of power and they therefore determined to make a change, especially as they received the fine rent of \$400 per annum for a few hours' use of their power and no other charge necessary. The cost of the two new wheels was about \$500 and the building of the small house for the pumps about \$150, and as the old wheels would sell for probably \$100 to \$150 it would reduce the outlay by that amount to them. When, however, this has all been done everyone must admit that Lindsay has paid handsomely for its supply of water, and if they now have to start a line of buckets to carry water to drive these wheels they have to thank Messrs. Needler & Saddler and the sovereign will of the council of 1874 for the bargain.

Now, the waterworks of Lindsay are always a grand institution until they are required, when it is then found that some essential part is entirely out of order, as the water wheels for giving the power have been for the past two years, and which Messrs. Needler & Saddler know. They have found a wheel that will give a good result of power under a low head and have put two of them in their flour mill, and would probably do so in the saw mill if held strictly to their bargain with the council of 1874. But the waterworks of Lindsay are of far more importance to the people of Lindsay than to the general ratepayers as they form a kind of protection to the business part when available, but beyond this they are of little benefit. No fire that I ever saw occur but did its work and without any assistance or hindrance from the waterworks. Yet the owner has to pay his proportion of the waterworks tax all the same and will likely have to take his turn in water carrying when required. However, the bargain with Messrs. Needler & Saddler in 1874 was that for \$400 per annum rental they were to furnish the necessary power and it rests with the present council whether they are compelled to do so or not.

Yours etc,
ONE WHO KNOWS.

Lindsay, Feb. 7th, 1883.

KINMOUNT.

Correspondence of the Warbler.

Lots of cold weather and weddings. That is what brings them to time.

The daughter of Rev. Mr. Soward is able to be up and around again. She was under the treatment of Dr. Frost.

We hear considerable gossip about a runaway, one man having runaway with another man's wife. She has left three small children and must be something of a clipper. But I must get this off now and tell more next week.

JANETVILLE.

Correspondence of the Warbler.

Mr. Samuel Ferguson, of this place, lost a valuable mare last week by getting her kicked in the leg. It was broken in two places and he had to kill her.

CORRECTION.—It is not the Y. M. C. Association that is being held here; it is the Young People's Mutual Improvement Class. Their last meeting was a complete success and they will hold their next meeting on the 23rd Feb. There will be an entertainment and social sale of an autograph quilt got up by the Misses Whitlocks, in order to pay off some of the debt remaining on the paragonage.

The farmers here are threshing out their clover seed and it far exceeds their expectations in yield.

FENELON FALLS.

HORSE DROWNED.—Mr. Wm. Walcott, of Fenelon, who is leasing for Mr. George Martin his shanty beyond Haliburton, had the misfortune to lose a horse by drowning a few days ago. The team was being driven across a lake or stream, the ice gave way beneath them, and only one of them could be got out of the water alive.

THE PULP MILL.—Some of the members of the company about to erect the pulp mill in this village were here a few days ago, and it is understood that preparations for building will be commenced almost immediately.

THRASHING MACHINE ACCIDENT.—On Wednesday last, while a threshing machine owned by Mr. Henry Suckett was at work on Mr. Wm. McCallis' farm at Pleasant Valley, in Fenelon, the driving belt broke, a hand on the cylinder broke, the cylinder flew to pieces and the machine was badly wrecked. Mr. Robt. Nesbitt, who was feeding it at the moment, was struck on the side by a piece of board and knocked over, but was all right again next day, and all the other men engaged at the threshing escaped unhurt.

IMPROVING.—Mr. Peter Juneau, who was so seriously injured by the blasting accident on the canal last week, is improving, and his hands, though badly torn, will in the course of time probably be as useful as ever. The cause of the accident, it appears, was that the men had been directed to clean out three holes in which the dynamite had missed fire, and that when within about four inches of the bottom of the last one they ceased pouring in water, under the impression that the charge had all been removed, and an explosion was the result.—(Gazette.)

DUNSFORD.

Correspondence of the Warbler.

NEW TRUSTEE.—Mr. Jas. Bell was elected trustee, Mr. Robt. Thornton retiring from the contest in favor of the former. In the evening Mr. Bell gave an oyster supper to his supporters.

RECOVERED.—We are happy to state that Mrs. Wm. Graham has so far recovered as to be able to sit up a few hours during the day.

MEASLES.—The measles, which have been raging here during the past few weeks, are beginning to abate.

FLEETWOOD.

Correspondence of the Warbler.

FIRE.—About 2 o'clock on Saturday morning the inhabitants were aroused by the cry of fire, when the blacksmith shop owned by Mr. Thomas Staples was discovered to be in a blaze. The fire was too far gone when seen to save anything. The whole of his tools and everything in the shop was consumed. As Mr. Staples was working late on Friday night it is thought a spark from the anvil must have struck some place keeping alive until after a time it worked into a blaze.

RECOVERING.—Mr. T. Hart, the young man that got his hand taken off in the threshing machine, is around again. It is healing nicely and is not very painful.

HALIBURTON.

Correspondence of the Warbler.

DRAMATIC.—The dramatic club intend giving Mr. Crosthwaite a farewell entertainment on Feb. 9th. Mr. Crosthwaite is leaving town and this will probably be his last appearance on the stage here. As he has been the captain of our cricket club they have specially engaged Mr. Harris' string band from Lindsay, and are combining with the dramatic association in making the entertainment a success. The very lively farce entitled "Raising the Wind," or "Jeremy Diddler" has been selected for this occasion, and by special request they are re-producing "Wreck Ashore."

PERSONAL.—Mr. J. Erskine left for Manitoba last Saturday. The cricket club entertained him in the shape of an oyster supper on the evening of his departure at the Queen's hotel. A large number were present and a very pleasant evening was spent. Mr. Erskine leaves with the best wishes of many friends.

SONYA.

Correspondence of the Warbler.

ORANGE SOCIAL.—The members of L. O. L., No. 664, Mariposa, held a social recently and was a decided success. After the wants of the inner man were supplied by the sumptuous spread provided by the members, T. W. Dodds, district master, of Mariposa, occupied the chair. After some splendid music rendered by the choir, Rev. Mr. Reed was introduced and gave a sound Orange speech and was loudly applauded. The next speaker, Rev. Mr. Campbell, of Port Perry, spoke some two hours. The subject was "Troubles in Ireland." He handled his subject with ease. The rev. gentleman was closely listened to by a large audience and was loudly applauded. Miss Tena Black presided at the organ; Mrs. H. C. Black sang some excellent pieces; Miss Baker and Miss Ashton also sang some splendid pieces and was loudly applauded. A vote of thanks was tendered the speakers and also the choir. The evening's entertainment was brought to a close by singing the national anthem, after which Rev. Mr. Reed pronounced the benediction.

SALEM—EMILY.

Correspondence of the Warbler.

OYSTER SUPPER.—L. O. Lodge No. 952 held their annual oyster supper at Mr. J. Kennedy's, and it proved a grand success. After supper the guests adjourned to the hall, where they danced till early in the morning
