Princess Louise, of whom Mr. Wallace

quietly observed improved much with

better acquaintance, and were understood

better by the people of the Dominion.

The "British Army and Navy" was next

proposed and Dr. Burrows replied in a

happy strain, dwelling on the bravery of Englishmen in the past and their readi-

ness to respond to the call of their country

at the present moment, and repeat if ne-

essary the bombardment of Alexandria.

Mr. Taylor proposed the health of the

present were much pleased to learn and

to see that their society was in such a

prosperous condition, and also to learn

that they had a balance in the bank. It was his earnest wish that the society

PORT HOPE. DEAD IN THE SNOW .- The Guide says that at about noon on Monday Mr. Aaron Thompson, who was chopping in the woods on his father's farm, lot 13, 1st con. of Hope, found the body of a man buried in the snow. The deceased seemed to be between 55 and 60 years of age, about 5 feet 9 inches in heigth, bald headed with full beard. On his person was found a pair of tailor's good shears, a tailor's thimble and a small glass bottle containing a lot of needles. He was well clothed; had on a good comfortable suit, flann I shirt and drawers, India rubber overshoes, one pair of extra pants wrapped around his feet and another around his head. There was nothing on his person by which he could be identified. A book containing a lot of figures with some writ-ing in German would lead to the supposition that he was a German tailor. He had evidently laid down deliberately-not like a person that was intoxicated-for the snow had been scooped away at the root of an uprooted tree. Besides the articles mentioned above, there was found a small hand looking glass, a comb, a briar-root pipe and a quantity of tobacco and matches. An inquest was held by Coroner Maxwell, and a verdict rendered in accordance with the above facts. He was an entire stranger in this section of the country.
