 Mr. Wm. McKay, of Woodstock, is cutter in Messrs. Melville & Thornbury's establishment. It is needless to say coming from fashionable Woodstock he is up in all the latest styles. Give this well-known firm a call and see.  
 Trains are beginning to look up along the river and the several steamers and boats are being prepared for navigation. Carpenters, oilskin and painters are as busy as can be, and when spring opens the changes and improvements wrought in some of the steamers will be so great that the craft will scarcely be recognized.  
 Teachers' Convention.—The regular semi-annual meeting of the East Victoria Teachers' Association will be held in Lindsay on Wednesday and Thursday, 21st and 22nd inst. Mr. T. Kirkland, of the normal school, Toronto, and Mr. D. J. Gough, of Port Hope, will deliver lectures. The friends of education are invited.  
 There was considerable amusement for the small boy—and the big boy too for that matter—on Kent street Tuesday forenoon, by an itinerant beggar and his large black bear and young cub. The animals appeared to be very tame and readily climbed the telegraph poles from a mandate and an occasional poke from the master of ceremonies.  
 The week has been characterized by quietness in political and municipal circles and beyond a vague rumor that the Reform party intend protesting the North Victoria election, by means giving S. S. Peck another chance nothing has been talked of. This is no doubt partly because all schemes have to a more or less extent been snowed up along with everything else and partly because a "calm always succeeds a storm," even in political matters.  
 There is talk of a splendid American troupe soon to give an entertainment in the Opera house and a treat afforded to the people of Lindsay they do not often have. The troupe is entirely new in this country, having been for the greater part of the time in the South, and is now for the first time appearing in Lindsay. The troupe has not quite completed all arrangements as to time we are unable to say more at present.  
 Quite an interesting time took place Thursday evening in the Mechanics' Institute, it being the occasion of the advertised sale of newspapers and periodicals. Dr. Burrows acquitted himself well as the auctioneer and pushed the sales so well that it is said the sales in the aggregate to quite a neat little sum. The institute under the careful management of the present officers has met with splendid success during the past year, as it deserves to.  
 Runaway.—Yesterday an exciting runaway occurred on Kent street by a farmer's team taking fright. Mr. Fee's bread wagon got badly used up by the team coming in contact with it, and Mr. Bartlett's rig also suffered to some extent. The runaway horses were stopped after some trouble not very much the worse for their mad race. Farmers should tie their horses when leaving them, for often the best and quietest animals get scared at something and away they go.  
 Mr. Cavanagh has been holding during the past week an auction sale of all kinds of articles, which he desires to make room for a larger and more varied stock of merchandise. Each evening the "noise" of the auctioneer could be heard proclaiming the unheard-of cheapness and durability of each article for sale and the thrilling "going, going, gone," as each was consigned to its new owner. There is evidently fun for all attending an auction sale—excepting perhaps the auctioneer, unless he has galvanized his lungs.  
 Know the Toronto press we learn that Mr. H. Graham, of Graham & Co., and brother-in-law to Mr. J. Dobson, of this town, died in Toronto on Saturday. The deceased was an old and well-known resident of Toronto. The Mail says regarding the deceased: "Mr. Henry Graham, who established the firm bearing his name about thirty years ago, was buried yesterday afternoon. The deceased gentleman was seventy-four years of age, having been born in Ashfield, county Cavan, in 1809. He leaves a son and three daughters and many friends to mourn his loss." The Telegram further says: "A highly esteemed citizen, and an old resident of Toronto, has passed away. Mr. Henry Graham, founder of the firm of Henry Graham & Co., established about thirty years ago, died on Saturday, and was buried this afternoon. Mr. Graham had been for some years an invalid. He was seventy-four years of age, and was born in Ashfield, county Cavan, in 1809. He leaves a son, Mr. Edward Graham, and three daughters, one of them Mrs. Beatty, wife of Mr. Beatty, of the firm of Henry Graham & Co.  
 VISIT TO LINDSAY.—Specialists from the International Throat and Lung Institute, 173 Church street, Toronto, will be at the Benson House, Lindsay, three days, March 22, 23 and 24. The surgeons will have with them a supply of sprayers, the invention of M. Souville, of Paris, ex-aid-surgeon of the French army, for the cure of catarrh, catarrhal deafness, bronchitis, asthma and consumption. Consultation and a trial of the sprayer free. Don't fail to see the surgeons while here, as they make a specialty of diseases of the head, throat and lungs, and are curing thousands of cases every year that have been given up to die by doctors in general practice. Crowds are visiting them in every town and city. As proof of our wonderful cures, we would refer you to Mrs. Spike, Harrowsmith P. O., near here, consumption; H. Milne, Kingston, asthma; Mr. Deboncherville, Ottawa, catarrh; J. Caverly, Aylmer, Ont., consumption; J. D. Armstrong, Toronto, catarrhal deafness; Coo. Agar, New Edinburgh, bronchitis and lung disease; and thousands of just as wonderful cures which we could refer to. For information write to 173 Church street, Toronto, or 13 Phillip's square, Montreal.—30-2.

Mr. Fee's bread wagon got badly used up by the team coming in contact with it, and Mr. Bartlett's rig also suffered to some extent. The runaway horses were stopped after some trouble not very much the worse for their mad race. Farmers should tie their horses when leaving them, for often the best and quietest animals get scared at something and away they go.  
 Mr. Cavanagh has been holding during the past week an auction sale of all kinds of articles, which he desires to make room for a larger and more varied stock of merchandise. Each evening the "noise" of the auctioneer could be heard proclaiming the unheard-of cheapness and durability of each article for sale and the thrilling "going, going, gone," as each was consigned to its new owner. There is evidently fun for all attending an auction sale—excepting perhaps the auctioneer, unless he has galvanized his lungs.

 Trains are beginning to look up along the river and the several steamers and boats are being prepared for navigation. Carpenters, oilskin and painters are as busy as can be, and when spring opens the changes and improvements wrought in some of the steamers will be so great that the craft will scarcely be recognized.

 There was considerable amusement for the small boy—and the big boy too for that matter—on Kent street Tuesday forenoon, by an itinerant beggar and his large black bear and young cub. The animals appeared to be very tame and readily climbed the telegraph poles from a mandate and an occasional poke from the master of ceremonies.  
 The week has been characterized by quietness in political and municipal circles and beyond a vague rumor that the Reform party intend protesting the North Victoria election, by means giving S. S. Peck another chance nothing has been talked of. This is no doubt partly because all schemes have to a more or less extent been snowed up along with everything else and partly because a "calm always succeeds a storm," even in political matters.  
 There is talk of a splendid American troupe soon to give an entertainment in the Opera house and a treat afforded to the people of Lindsay they do not often have. The troupe is entirely new in this country, having been for the greater part of the time in the South, and is now for the first time appearing in Lindsay. The troupe has not quite completed all arrangements as to time we are unable to say more at present.  
 Quite an interesting time took place Thursday evening in the Mechanics' Institute, it being the occasion of the advertised sale of newspapers and periodicals. Dr. Burrows acquitted himself well as the auctioneer and pushed the sales so well that it is said the sales in the aggregate to quite a neat little sum. The institute under the careful management of the present officers has met with splendid success during the past year, as it deserves to.
