The half yearly convention of the East Victoria Teachers' Association was held on Wednesday and Thursday, and was well attended. Particulars will be given next week.
DOMINION ORGANS BOOMING.—W. W. Logan & J. J. Irwin sold three of these fine instruments on Saturday; also one of the celebrated White sewing machines—a good day's work.
SAFE ANESTHETICS.—Mr. Gross, dentist, has extracted teeth without pain by the aid of liquid gas and electricity when everything else failed. They were first used in Lindsay by Mr. Gross, and are perfectly safe and reliable.
ELECTION CORNER.—After mature consideration it has been decided that there is more money to be made by investing in the large stock of bankrupt dry-goods, millinery, etc. bought by R. Smyth last week at 25 to 50 per cent. off original price.—D. C. Taw, manager.
To Manitoba.—Mr. Jas. Hamilton having shipped during the winter a large quantity of sleighs and various farming implements is now preparing to send out a large consignment of light and heavy wagons to Brandon. We learn Mr. Hamilton's manufactures are meeting with great favor in Manitoba and the North-west.
LECTURE.—Commander Cheyne, the great arctic explorer, will lecture in Lindsay on Monday, Tuesday and Wednesday, April 2nd, 3rd and 4th in the Opera house, under the auspices of the Church of England. It will undoubtedly prove an interesting and instructive course of lectures, and they who are able should not fail to put in an appearance if possible to all three. The third lecture will deal with Egypt and the East.
D. M. FERRY & Co., seedmen, Windsor, Ont., and Detroit, Mich., have sent us a copy of their seed annual for 1883. It is more beautiful and valuable than ever. The hints on the formation and management of gardens, as well as the cultural directions it contains are evidently been prepared by careful hands and cannot fail to be of great service to all who garden, whether for profit or pleasure.
CORRECTION.—In the third paragraph of Mr. Thos. Beall's letter in this issue and in the 20th line read "quality" instead of "quantity." In the meteorological table the columns of mean maxim. and min. temperature have been omitted, and minus (-) signs should have been prefixed to the figures in column of lowest temperature opposite the months of November, January, February and March. The "records" sign should also have been inserted after 11 in the 13th line below this table.
THE March moon falls on the 23rd at 1:20 o'clock in the evening. The full moon plays an important part in the affairs of men. For as she falls three days after the vernal equinox, she determines in accordance with the law, that Easter shall fall on the following Sunday, the 25th, and Easter in turn determines the other moveable feasts and facts of the church. The short time intervening between the vernal equinox and the full of the moon brings Easter this year within three days of the earliest date the festival could occur. In 1818 Easter fell on the 22nd of March, the earliest date possible. Such will not be the case again either in this or the following century.
A LINDSAY PROPHECY.—It may not be generally known that we have a weather prophet in our midst, and that if he has not made as much noise as either Wiggins or Vennor he has at least in a general way been quite as reliable regarding the weather. It is needless to say the Lindsay weather prophet regrets exceedingly the continued tinkering of Wiggins and Vennor with the Canadian climate, and on Monday freely expressed his opinion to us of the consequences of such manipulation in this unnecessary manner. He informs us in future he will take the weather out of the hands of these gentlemen and will attend to it himself by sending us stormy weather to the first of April, and after that the spring break-up and warm weather all through the month. He is no doubt anxious to see the ice go in order to get a chance once more at the spring ducks.
RUNAWAY.—Rather an exciting runaway occurred on Kent street Saturday morning, it being the black team of Mr. Ounigle and generally used for the Benson house bus. From some cause they made a start up street in good style, coming in contact with Mr. Bartlett's mule sleigh and narrowly "cleaning out" several more rigs till they came to the new gas lamp post erected in the fall at the corner of Kent and William streets south, which they snapp'd off like a pipe stem. The damage done all round was considerable, but the horses miraculously escaped without serious harm. This is not the first time this team has taken the idea to have a run untrammelled by the services of the careful John, but no race was undertaken with the same vim displayed on Saturday. John should tie the gay creature up when he has occasion to leave them for a few minutes, and these little pleasantries would naturally come to an end.
MISSING.—Willie, a young son, aged 14 years, of Mr. D. S. Carmichael, of the Lindsay paper mill, has been missing since the 18th inst., and so far his parents have been unable to obtain any information of his whereabouts. He is described as being of a light complexion, bright and intelligent, and a boy who is likely to be able to make his way in the world. The latest information that could be obtained of him was that on the morning of the day referred to he was noticed at the Midland depot a few minutes before the Midland train left for Port Hope, but whether he left on the train or not cannot be determined. Any one who can give any information concerning his whereabouts will confer a favor by leaving it at this office or writing to Mr. Carmichael at the Lindsay post-office. Any of our exchanges who can also give any information regarding him will also confer a favor. A description of the lad will be found in our advertising columns. It is very probable he has gone east to Valleyfield or Kingston, where his parents resided, and will either seek work in the cotton mill or on some of the St. Lawrence steamers.

W. W. Logan has some good horses for sale.
The Palace Shoe House—special attention given to children's fine goods.—87-2.
The spring hat and summer suit are beginning to appear—in dry goods stores, and a good show they make.
New dress silks and spring millinery at half price—just peep into R. Smyth's corner window, and see samples and prices.—D. C. Taw, manager.
Rooms wanted at the Jewett house.
One large double room suitable for three or four boarders at greatly reduced prices. Other rooms accordingly.
Mrs. N. M. KERR.—Lunching—hot tea and coffee at all hours. Lunches 15 cents. William street, four doors from the corner of Kent street.
Jas. Latt's teas—a prize given away with each package—the best tea in the market is to be obtained at Mrs. E. F. Jewett's, sole agent. Call and see prices.
Gas.—Mr. Neelands guarantees to extract the worst cases of broken teeth and roots without pain or injury by gas. Electricity also used.
Wood is coming in plentifully, but the prices are away up and will be. Farmers who have much woodland within an easy distance of the town are beginning to realize the full value of their remaining wood.
The Lindsay paper mill, which has been compelled to close down owing to a broken shaft, is expected to begin work again in a few days. This mill somehow has had rather a rough experience since it began operations.
B. B. B.
Old and young, everybody should use it this time of year. Use what? Why Brown's Botanic Bitters, the greatest blood purifier known. 25 cts. a bottle at Perri's.—87-1.
HO! FOR THE NORTH-WEST.—A special train with first-class passenger coaches will leave Lindsay on Monday next, the 27th inst., for the North-west. For tickets apply to F. C. Taylor, ticket agent, Lindsay.
BALL.—A grand St. Patrick's ball is to be held in the opera house on Monday evening next under the auspices of the Young Irishmen of Lindsay. From what we have learned of the arrangements and the committee, who are managing the affair, there is no doubt it will be of a most successful and pleasing character. Dancing will commence at nine o'clock.
ST. PATRICK'S DAY.—St. Patrick's day passed off here without any celebration other than services in St. Mary's church, at which there was a large attendance. The morning was fine, as every St. Patrick's day is, but towards night it became soft and to some extent disagreeable. There were a great many people in town during the day.
EASTER.—Next Sunday being Easter the butchers of Lindsay have been busy getting in their fine cattle from the country, several of whom have paid the owners for specially preparing them for this occasion. The number brought in has been very large, and the doubt as to whether any town in Canada can show as good beef as our butchers will be able to do in their Easter display.
THE Sylvester Works are now very busy indeed manufacturing farmers' machinery for the coming summer. Several hundreds of horse rakes of the latest and most improved makes are now nearly complete, and the large numbers of mowers and reapers are well under construction. The out-put of the present year in all implements will be very large indeed, the Sylvester works are justly coming more in favor every day.
LANDS FOR SALE.—Mr. R. Lang has advertised a lot of land for sale along the river bank, near the Midland railway depot, which he has put up by tender. This may be a good chance for any one requiring land along the river-side. The desperate fight over the ownership which once took place between Mr. Thos. Fee and the Midland Railway Co. will never occur again, as since then Mr. Lang has got matters duly arranged with the Government, and he informs us he now holds as clear a title to the land as is to be obtained to any land in Ontario.
It is scarcely necessary for us to say that the fore part of the week has not been characterized with an exceptional good run of business among the dry goods and grocery merchants. In fact, owing to the heavy storm and the almost complete blockade of the roads general business has been very dull, and when the merchants are quiet of course everything else is the same. But times are going to improve as soon as the roads are in a fit condition for travel, for there is a great quantity of grain of all kinds that has not yet been marketed and this must come in before long.
ANOTHER STORM.—We hoped that last week was the last storm we were to have this season, but it appears we were much mistaken. On Sunday a snow storm of great severity set in, which last that day and nearly all day Monday, and almost completely blocking the railways once more. The Victoria division was the one that suffered most severely this time, and a great deal of time and labor with the snow-plough was required to again open up communication with Haliburton, and which had only been opened a short time before owing to the heavy storm of last week. Everything is, however, in working order once more on the main division of the road, and all trains are again able to make their trips very little behind schedule time.
JUVENILE CONCERT.—On Tuesday evening a juvenile concert was given by Miss Colbreath and her sister, Mrs. A. Jackson. All the performers in the musical department were pupils of Miss Colbreath and far exceeded the anticipations of our friends; a large number of whom were in attendance. Every one did well and their proficiency speaks much for Miss Colbreath as an instructor. Of course where all did so well we do not like to particularize, but all did splendidly. Two readings were also given during the evening by Mr. D. Dunn, classical master in the high school, and by Mr. D. C. Steele, which gave much amusement and satisfaction. The proceeds are generously given by the two ladies in charge to the funds of St. Andrew's church.
EVIDENCE our cricket club has a good future ahead of it. Already its reputation for last year's cricket has created a favorable notice for itself and the town. On enquiry we learn that Mr. G. Hall, of Fort Hope, one of the best all-round men in the province has proposed allying himself with Lindsay. Mr. G. T. Logan likewise, who by the way proposes a match on the 15th of July in our ground with this year's T. C. B. team. We hope this match can be arranged for, as some of the best cricket in the province is to be found among the pupils of Trinity College school. The school is fast becoming the nursery of cricket in our province, having lately engaged the services of a professional, who will accompany them to Lindsay should the match speak of being played. We trust our ground will be well in order by that time.
