

A few words about Watches and where to get your Watch Repaired.

Why does your watch stop or not keep good time? Either from some original defect or want of finish on the manufacturer or (much more likely) because you entrusted it for repairs into the hands of some person who has no honest right to be called a watchmaker, one probably who has had neither proper training nor long practical experience, and probably is entirely lacking in that natural mechanical ability necessary to be a good workman.

Scarcely a day passes that I have not watches brought in for repairs which had been brought in to me in the first place I could have repaired for a dollar or a dollar-and-a-half but now costs their owners perhaps five or six dollars, and sometimes even so shamefully treated as to be ruined altogether. There is no necessity for this. I am prepared to undertake the careful repairing and regulating of the most difficult watch, and make it run as well as it did when new. I can replace and finish any part of a watch that has been lost or injured equal to new. I have the most completely equipped watch repairing department in the county. I use only the best materials, and my tools and machinery the newest construction and best that can be had, some of my tools costing more than the entire equipment of many so-called watchmakers.

Having been engaged in the practical repairing of Watches and Clocks in this town for over fifteen years, and having studied with some of the best workmen in this country, I am prepared to undertake skillfully the repairing of the finest watches or the most difficult repairs, and at as low a price as good work can be done anywhere.

G. W. BEALL,

Practical Jeweller and Watchmaker.

N. B.—Satisfaction and good workmanship guaranteed or no pay.

1883.

THE VICTORIA WARDER

FRIDAY, MARCH 30, 1883.

LOCAL JOTTINGS.

URBAN AND SUBURBAN.

Go to Hickey's for fine cakes and pastry.

A GREAT supply of oranges, lemons, dates, nuts, etc., at Hickey's.

THE Palace Shoe House—country store-keepers can assort their stock cheaper than in the city.—87-2.

FOR RENT—A good dwelling house and lot for sale or to rent in the south ward. Terms reasonable. DIAMOND & DWYER.

Mr. McTavish and H. J. Keighley have some splendidly dressed windows—in fact they could not very well be made to look better.

A SPECIAL express passenger train will leave Lindsay for North-west points on Wednesday next, April 4th. A mixed train also carrying both passengers and freight will start the same day. For information apply to F. O. Taylor, agent, Lindsay.

PARLOR SOCIAL.—A parlor social is to be given by the young ladies of Mrs. Hudspeth's sewing class in connection with St. Paul's church on Friday evening next, April 6th. It will take place at the residence of Mrs. Hudspeth and consequently those attending may be sure of a pleasant evening. Proceeds to be in aid of the building fund of the church.

THE first Manitoba excursion train of the season left Lindsay on Wednesday. It comprised 12 stock cars and a passenger coach, there being a large number on from the neighborhood of Millbrook bound for the west. The following are the names of those who left Lindsay with their families in kindly furnished by Mr. F. O. Taylor—D. Corbett and family; D. McKeown and family; of Condon; J. McKinnon and family; of Bendon; J. Dixon and family; Bealey; and J. Sample, Gardiner. All the parties were bound for the North-west, mostly beyond Brandon.

THE Palace Shoe—new goods arriving every day.—87-2.

THE Palace Shoe House—five cases ladies gypso cut buttoned boots at \$1.60.

A case of best American coal oil direct from Buffalo to arrive in a few days at A. Campbell's.

FEATHERS, FEATHERS—Feathers for at the Auction Mart, Lindsay.

ROUSSEL & LENNON.

NOTICE BOUGHT, money lent on notes. Greenbacks exchanged. Mortgages negotiated. O. BROWL.—1077-ff.

EASTER SUNDAY was the most pleasant day this winter—just the right kind of a day to show off successfully the new spring hats and bonnets.

THE tax collector has turned into the assessor during the past few days. What with collecting the taxes from some and assessing the property of others he appears to have his hands full just now.

SAFE AMATEURS.—Mr. Gross, dentist, has extracted teeth without pain by the aid of liquified gas and electricity first used in Lindsay by Mr. Gross, and are perfectly safe and reliable.

FEMININE attention is attracted to the new fruit dresses which have just been introduced. They are profusely figured with pears and other fruit, single and in clusters, and are said to be exceedingly pretty.

ON Tuesday another large exodus, similar to the one of last year, took place from Millbrook. The party for the North-west was made up of parties in the surrounding vicinity, and the principal settlement will be in the Souris district.

BY-THE-WAY the board of education meets for the despatch of business next Wednesday evening, or rather that is the night it should meet if enough of it ever gets collected together. But perhaps this is the holiday season for school boards.

ELECTION COMTEE.—After mature consideration it has been decided that there is more money to be made by investing in the large stock of bankrupt dry-goods, millinery, etc., bought by Smyth last week at 25 to 30 per cent. of original price.—D. C. DREW, manager.

They are now telling a story about a Millbrook girl who insisted on throwing her shoe after a newly married couple. The marriage is a total wreck, a doctor has the bride and horse under treatment, and large numbers of men are searching the ruins for the groom.

THREE dwelling houses and one painter's shop are now in course of erection in the south ward. Considering the early season and the backward state of the weather this is a pretty good showing. Building operations in Lindsay are going to be brisk this year from present appearances.

AN observing party who keeps tally of the length and severity of the winters during the last ten years, states that the winter of 1882-3 is the longest for many years. Ice was formed on October 3rd, the first snow fell October 10th, and good sleighing was the rule by October 20th, 1882. There has been uninterrupted sleighing since that date, and it will possibly hold out for two weeks longer.

THE more we learn of Commander Cheyne and his interesting lectures on arctic explorations the more are we convinced that they will prove most acceptable to the people of Lindsay. His lectures are to be delivered on Monday, Tuesday and Wednesday evenings next, under the auspices of St. Paul's church, and will be strikingly illustrated by electric lights, etc. His lectures everywhere are highly spoken of.

THE river craft are now in readiness to begin their summer's work. The shipping trade is likely to be much improved this year to what it has been for some years past, a great quantity of timber and stone being required both for the Trent Valley canal to the north, and the new railway now building to the south of us. Both these will require a good deal of carrying and floating in one way and another. There will also be considerable material wanted by Messrs. McNeley & Walters, the contractors for the new bridge over the Scungo here for the Midland Railway, the wood and stone of which will all be brought from the northern lakes.

THE season for the planting of shade trees—a matter so ably discussed by our contemporary during last July—will be upon us now in a short time, and those who desire to beautify their homes or the appearance of the streets should begin to make preparations therefor. The sooner the trees are planted after the frost is out of the ground the better, so that they may be able to take firm hold of the new ground before the sun becomes too strong and before the dry season sets in. Nothing adds so much to the appearance of a town as beautiful and healthy young trees round the houses or along the streets, and those who plant them confer a favor upon more people than they have any idea of by the cool and pleasant walks afforded. It is to be hoped so many of our citizens who can will plant as many shade trees as possible, and if the council can see their way to assist their efforts it will certainly be appreciated.

ST. PATRICK'S BALL.—The St. Patrick's ball under the auspices of the young men of Lindsay on Monday night in the Opera house was most successful, and from nine in the evening till nearly three in the morning the dance was kept up. The music was of course furnished by the Daly-Hates orchestra, and the 150 couples thoroughly enjoyed themselves in the cotillions, quadrilles, lancers, etc., till about 12 o'clock, when a retirement was made for the splendid supper prepared and furnished in the splendid style Mr. Thos. Hickey knows how to prepare. The supper was taken in the hall down stairs and in every way reflected credit on Mr. Hickey as a caterer and the efficiency of his staff of assistants. The ball was in every way most successful. The committee of management expressed great satisfaction at the pleasing results and generous assistance rendered them in their efforts to honor St. Patrick's day.

EASTER DISPLAY.—The display of Easter goods on Saturday by our butchers was exceedingly good and we doubt if a better or larger display could have been made in any other section. Mr. Calvert's shop presented a splendid appearance, and Mr. Bartlett's large beaver could not be beat, either for size and good meat by any one. Mr. M. O'Halloran had a very large assortment of everything but the splendid beaver purchased from Mr. Rainey captivated all lovers of good roast beef and of course he sold it off like "hot cakes." Mr. Tully was also to the front and his choice meats and good display took the eye and pocket of every one; while Messrs. J. & M. Saway had their shop so full of all that was good and rich in their line that it was difficult to make a choice, so many juicy cuts appearing at every point. These gentlemen did a large business, and in fact did all the butchers business, and we trust their profits were also as good as their business.

W. W. LOANER has some good lotuses for sale.

LARGE new stock of teas and general groceries just received at A. Campbell's.

THE Palace Shoe House—special attention given to children's fine goods.—87-2.

New dress silks and spring millinery at half price—just received R. Smyth's corner window and see samples and prices.—D. C. DREW, manager.

BOARDING wanted at the Jewett house. One large double room suitable for three or four boarders at unusually reduced prices. Other rooms accordingly.

MRS. N. M. KEITH.—Lunching—hot tea and coffee at all hours. Luncheon 15 cents. William street, four doors from the corner of Kent street.

JAS. LAURIE'S teas—price given away with each package—the best tea in the market to be obtained at Mrs. E. F. Jewett's, sole agent. Call and see prices.

GAS—Mr. Neelands guarantees to extract the worst cases of broken teeth and roots without pain or injury by gas. Electricity also used.

SUNDAY was the warmest and most pleasant day so far this spring. Thank heaven the winter is at last over for sure.

ON Monday evening our town fathers will again make themselves heard in the new legislative hall and settle the destinies of the town for another month.

AN eastern merchant who never advertises was found lying dead on the counter in his store the other day. It is thought the body had lain there for several days before being discovered.

PROTEST, PROTEST.—We protest that we have the largest and cheapest stock of furniture in Lindsay. Call and be convinced. RUSSELL & LENNON. Auction Mart, Lindsay.

A MEETING of the building committee of St. Paul's church is to be held shortly, and it is expected plans and specifications and other arrangements made for the erection of the new church during the present season.

THE Fort Hope Daily Guide very appropriately headed its local column on Saturday with "a little nonsense now and then is relished by the wisest men." The Times thinks that the Guide should "keep that item standing."

THE cars which came to grief last week near Cameron on the Victoria Railway were got out of the ditch on Sunday and the road opened again to Haliburton. The Victoria division has experienced a rough time of it this winter, but now it is to be hoped a change for the better will take place and trains be able to make time.

A SHARP BOY.—A lady on Cambridge street taking tea at a small company, being very fond of hot rolls was asked to have another. "Really, I cannot," she modestly replied. "I don't know how many I have eaten already." "I do," unexpectedly cried a juvenile upstart, whose mother had allowed him a seat at the table. "You've eaten eight, I've been a countin'."

NOISY.—Monday afternoon an oldish man and who appeared to be considerably excited—or enraged—at an acquaintance began holding forth in a rather oppressive manner. His flow of oratory was not checked for some little time, and as no policeman put in an appearance the younger man kindly took hold of the irascible old gentleman and partly by force led him out of harm's way and from the gaze of amused spectators.

ANOTHER SWINDLER.—Some exchangers have swindled another swindler, and a farmer is the victim. This time a fellow comes along driving a shining rig, and sells carpet by the sample. He offers three-ply ingrain at 30¢ cents per yard, and genuine Brussels at 43¢ cents. The farmer selects the pattern he wants, the agent writes out the number of yards, and the price; the farmer signs the order (?) and the next week he has his note in the bank to pay; and he never sees or hears of the carpet man any more.

THE editor of a neighboring paper, in speaking of the yearly visit of the assessors there, speaks correctly when he gives publicity to the following in regard to the publishers of papers.—It does a body good to have his pride flattered once in a while. We realize the benefit of it once a year, when the assessors come round and asks us how much money we have at interest; how much stock we have in public funds or in banks, and various other questions that are supposed to belong only to the "solid man." If there is anybody round we straighten up slightly, expand our corporosity, and, in as heavy a chest tone as we can command, we answer, "About the same as last year." He knows well enough what that is. So do we.

RUSSIAN SEED BARLEY.—A Toronto merchant advertises a species of barley which has been grown for the past few years in the vicinity of that city. A small quantity of the seed was obtained from seven bushels of seed sent by a Russian emigrant on his way to Manitoba, and from this modest beginning great results promise to ensue. It has been thoroughly tested by a number of farmers who concur in the statements that it grows with tall and stiff straw, that it is practically proof against rust and smut, that it stands longer after becoming ripe than the ordinary varieties without breaking down, that it produces from a four to a third more than common barley on the same area, and that it is more easily threshed. It is described as having a six-rowed head, with uniform berry. It is largely imported into England from Russia, and in view of the threatened curtailment of the American market for Canadian barley, the advertiser recommends the Russian variety as most likely to secure a market in England.

AMERICAN NEWSPAPERS IN 1883.—From the new edition of Messrs. Geo. P. Rowell & Co.'s American Newspaper Directory, which is now in press, it appears that the total number of newspapers and periodicals of all kinds issued in Canada in 1882. There are no less than 74 daily papers, while the monthlies number 57. The weekly papers number 422. This is an excellent showing for the Dominion, though it cannot be compared with the United States and Territories, in which the journals and periodicals of all kinds now reach the imposing total of 11,193. This is an increase of 356 in twelve months. Telling the stories are by one, the newspaper growth is some in very New York State, for instance, is 1,309—a gain of 80 in the past year. The most remarkable change has occurred in the Territories, in which the daily papers have grown from 48 to 49, and the weeklies from 100 to 140—Dakota being the chief area of activity. The number of monthlies throughout the United States grew from 976 to 1,084, while the dailies grew from 995 to 1,093. Referring to our own journals, it is interesting to note that the newly-settled sections of our Canadian North-west are productive of newspapers as well as of wheat, for the number of journals issued in Manitoba was nearly doubled during the year.

The City Store CITY TAILORING HOUSE OF LINDSAY.

Grand Inauguration of the spring 1883 Season.

We have pleasure in announcing that in anticipation of an early and pleasant spring that we are daily opening novelties in every department. With the same persistency that has characterized all our previous efforts we still continue to offer new goods at our popular low prices. We are more determined than ever to give our customers and the public generally the best goods to choose from at the closest prices. Spot ducaats is our motto. OUR SYSTEM we have but "one price," and that the lowest, and marked in plain figures. Our dress goods and new novelties are beautifully grand. To arrive on Monday next five cases new dress goods bought in bond, which we will guarantee are the best value we have ever shown in Lindsay. Our customers will know what that means, and those who are not our customers should call and learn the secret. You will save money by it, and it will cost you nothing to come and see. We will make the largest display this season we have ever made of all qualities of Staple and Fancy Dry Goods and at close prices. OUR MILLINERY DEPARTMENT will be conducted in first-class style, under the management of MISS KENNY, who has been in charge of the same department with George Ritchie & Co., of the city of Belleville, for upwards of ten years.
