Town Council.

The regular meeting of the town council was held Monday evening. Members all present. The minutes of the previous meeting read and approved.

COMMUNICATIONS.
From Messrs. O'Grady and O'Connor, stating that they do not intend asking a renewal of license for their bowling alley and asking that the money due them on such discontinuance be allowed.—Laid on the table.

From Mr. A. O'Leary, police magistrate, asking that the police room be painted and made larger.—Referred to town property committee.

From Mrs. C. Baldwin, stating that the tax collector had been around to them, and as they were unable to pay their taxes asked that they be thrown off. The request was granted.

From Mr. Jas. Hamilton, intimating that he had erected a large building for the manufacture of wagons, etc., and was employing twenty-five men. He asked exemption from taxation on the building for ten years.—The matter was referred to the finance committee to report at the next meeting.

From Messrs. C. Neads and M. Sanderson, auditors for the town, stating that a large number of police court fines are still unpaid, a number of them being due one and two years.

A PETITION
was presented from Mr. A. O'Leary and others, asking that the ditch on Colbourne street be deepened to Adelaide street, the depth of the ditch not being sufficient to properly drain a number of lots in the vicinity.—Referred to the street and bridge committee to report at the time they make their annual examination.

REBATEMENTS.
Mr. Deacon moved the council into committee of the whole on the re-charge of taxes, Mr. Crandell in the chair.

The taxes on the property of the following persons were thrown off:—Catherine Bishop, \$6.50; C. Baldwin, \$3.92; Widow Heenan, \$23.59; Widow Malley, 3 years' taxes, \$20.39; Mrs. M. Martin, \$9.73; Widow Burk, \$4.46; Lewis Beal, \$3.41; Widow Keeho, \$6.69; J. V. Sharpe, \$8.64; Widow Tobin, \$3.34; Widow John Bell, \$9.73; Peter Griffith, \$4.46. The council decided in the case of Lawrence Duke, \$13.38, to register against the land and allow him two months to pay. Mr. J. A. Rosell was allowed \$2.23, he having paid all his taxes except that amount.

The council rose, after which Mr. Deacon moved that the treasurer be instructed to credit the collector to the amount of taxes remitted.—Carried.

REPORTS.
Mr. Deacon, as a member of the special committee appointed to devise a better mode of taxing, stated that he would shortly bring in a scheme for getting a regulator. He was of opinion that the Toronto time would be most beneficial to us.

Mr. Deacon presented the abstract statement for the year ending December 31st, 1882, which will be found elsewhere. Also the finance report, recommending the payments of a few accounts and other incidentals.

Mr. Winters presented the report of the town property committee, which was as follows:—Your committee to whom was referred the repairing and alterations of the market building beg to report that they have carefully examined the sums for material and work used in making the necessary repairs, amounting in all to \$272.95, of which \$189.95 were spent in new additions, \$54 on the old butter market, and \$29 on council chamber. \$3 were derived from the sale of two old doors, leaving the total cost \$269.95. They had disposed of the old market scales condemned by the inspector of weights and measures for the sum of \$14.50, and have rented the old house in rear of the market square for \$25 per year. He moved the adoption of the report.

Mr. Crandell was in trouble because so much money was spent and no clear statement was given as to the cost of the material and workmanship. He maintained that the work should have been done for less, and not let certain parties make money out of the town in such cases as these.

Some discussion followed, when Mr. Crandell charged Mr. Ingle with being a party that was being benefitted by the work.
Mr. Ingle—You're another.
Mr. Crandell still maintained that he was.

Mr. Winters rose to a point of order. Mr. Weese did not think it was right to have the responsibility saddled on the new council, as only \$50 were spent by it. The old council spent the money.

Mr. Winters was sure the accounts were all right. They were referred to the committee to ascertain whether or not they were correct, and the committee had found they were correct, thus upsetting Mr. Crandell's contention to the contrary.

After some further discussion the report was adopted.

Mr. Winters stated that the committee appointed to procure the gas fixtures for the council chamber had arranged everything satisfactorily, but could not give the cost owing to the bills not having been presented.

BILLIARD LICENSES.
Mr. Crandell moved, seconded by Mr. Winters, that by-law No. — being a by-law to amend the billiard license by-law be now received and read a first time.—Carried.

The council went into committee of the whole, Mr. McLennan in the chair.

The by-law was read by licensing eight billiard tables instead of four as heretofore; also that should the directors of the mechanics' institute wish to get billiard tables they may do so without paying license to the town.

Mr. Winters thought that the institute ought to pay the same as others.
Mr. Conolly did not think it fair to the hotelkeepers to put the institute on the free list, because young men would find it a cheap way to pay one dollar a year and become members of the institute so that they could go there and play whenever they desired.

Mr. Wallace was in favor of having the same all round—charge all. The idea of taking billiards into the mechanics' institute he thought was a good one, as it would lead young men away from the bar-room to the institute. He would move

the adoption of the by-law as filled in.

Mr. Crandell thought that it would not be fair to the hotelkeepers to give the institute free tables. He referred to the expenses in the way of tables, buildings, etc., that the hotelkeepers are put to.

Mr. Cahill thought it would be well to charge all a good price—say \$200 each.
Mr. Weese maintained that billiards in hotels were just as well as in mechanics' institutes, and if one paid the other should.

The by-law passed as drafted, and the committee rose.

Mr. McLennan being in the chair could do nothing while in committee, but he did not view the extension of billiard tables with favor. It was a game very injurious to the young men. He would move, seconded by Mr. Brady, that the by-law be referred back to the council and the number of tables be changed to five instead of eight.

Mr. Winters would support the motion providing Mr. Crandell would consent to his withdrawing his name as the seconder of the by-law on its introduction, as he thought on reconsideration it would be better to keep the number of licenses as low as possible.
Mr. Crandell would not consent.
The motion was put and lost.

MISCELLANEOUS.
Mr. Ingle moved, seconded by Mr. Graham, that Mr. Thos. Neenan be appointed foreman of the streets and bridges at a salary of \$360.—Carried.

Mr. Winters moved, seconded by Mr. Conolly, that no circus or anything else be permitted to erect bill-boards on the market square unless they pay \$15, and that such circus or otherwise be compelled to pull the same down within one week after the date expires.—Carried.

Mr. C. Neads was on motion again heard in reference to the taxes on his income. The matter had been referred to the finance committee by the council, but the committee had not taken any steps in the matter. He maintained that the council had no right to assess him on an income for 1882. On motion of Mr. Crandell, seconded by Mr. Winters, the taxes were remitted.

TIME EXTENDED.
Moved by Mr. McLennan, seconded by Mr. Cathro, that a by-law to extend the time for the collection of taxes and the appointment of a collector be now read a first time.—Carried.

The council went into committee of the whole, Mr. Ingle in the chair. The time was extended to the 17th May, and Mr. B. F. Jewett was re-appointed collector.

POLICE COURT FINES.
Moved by Mr. Crandell, seconded by Mr. Winters, that the \$900 of police court fines and fees set forth as being unpaid and may be collected by the chief constable be referred to a committee composed of Messrs. Deacon, Winters, McLennan and Brady, and that they report at the next regular meeting.—Carried.

TOWN PHYSICIAN.
Tenders were received from the following doctors for the physicianship for 1883:—Dr. Herriman, \$145; Dr. DeGrassi, \$175; Dr. Burrows, \$180; and Dr. Colter, \$190.

Mr. Cathro moved, seconded by Mr. Crandell, that Dr. Herriman's tender be the lowest that he be town physician.—Carried.

COUNCIL CHAMBER.
Mr. Winters stated that he had in compliance with the wishes of the town property committee asked for tenders for furnishing the new council chamber in a way similar to the county council chamber. Mr. Anderson asked \$12 for each desk and chair and Mr. Holtorf \$9. He would therefore move that as Mr. Holtorf's tender is the lowest the contract be awarded him.

After some discussion on the matter the council decided that they would "economize" and be content with the present fixtures.

TAXING SHOWS.
Moved by Mr. Weese, seconded by Mr. Brady, that a by-law to impose a tax on all travelling shows and other shows exhibiting in the town be now read the first time.—Carried.

The council went into committee of the whole on the by-law, Mr. Ingle in the chair. The discussion as to the right to impose a tax under the existing lease with Mr. Bradburn was again brought up. Mr. Weese argued that the original lease had no such stipulation, but that Mr. Bradburn was determined to have a clause in the new lease against taxing shows. Being nearly midnight it was decided to leave the second reading of the by-law over until next meeting, and that definite legal opinion be obtained as to whether or not such tax can be imposed. The council then adjourned.

FENELON FALLS.

HORSE SHOT.—On Monday one of Mr. R. C. Smith's team of gray horses had a leg broken by an accident in the stable, and was at once shot. The carcass was drawn to a spot on the south side of the river, where it was skinned, and the crows are now busy reducing it to a skeleton.

PARTNERSHIP.—Mr. Samuel Johnson, merchant, of this village, has recently taken Mr. George Fielder into partnership, and the new sign, bearing the inscription "Johnson & Fielder," has already been put up in front of their store. In addition to the business hitherto carried on by Mr. Johnson, they intend to start a bakery, and have already drawn the bricks for their oven, which Mr. Inkipin is to commence building at an early date.

IMPROVING.—There has lately been an improvement—though not a very marked one,—in both Mr. Greene and Mr. Keith. During the first half of last week Mr. Greene kept fluctuating from worse to better, and from better to worse; but he has since Sunday, and during Thursday night he slept well. Mr. Keith's rheumatic pains have ceased and his worst symptoms have disappeared; but his stomach has lately become somewhat disordered, and he is consequently weaker than he would otherwise have been.

ACCIDENT AT THE FOUNDRY.—At the Cameron Lake Foundry, Tuesday evening, as Mr. Thomas Robson, one of the proprietors, and Mr. John Louden, the moulder, were engaged in drawing molten iron from the smelting furnace in the ladle used to the moulds, some of the metal spilted up into their faces, and Mr. Louden's eyes were so badly burned as to cause almost intolerable pain. Mr. Robson escaped with a comparatively trifling burn on one of his eyebrows.

CAMERON LAKE.

Correspondence of The Warbler.
Mr. S. SHARPE, of this place, had two of his horses kicked very badly on Wednesday last by one of his brother's horses, which had got loose in the same stable. He stitched the deepest of the wounds, and at present they are doing as well as can be expected.

ROSEDALE.

Correspondence of the Warbler.
AMUSING.—A rather amusing scene occurred a few nights ago at Mr. A. Dundas'. A man starting for his home from Fenelon Falls having a cross Cameron lake his horses took the wrong track and came to Rosedale, and when about a mile from the village he began to realize his situation, and upon seeing the light in Mr. Dundas' he made for it as best he could. Mr. Dundas hearing the noise ran to the window, and seeing the man thought him a burglar, and reaching out to catch hold of him, but catching nothing but his hat, he fell back, and on appearing on the scene against the man was still there, but showing a bald head. The man was no burglar, but got too much cold tea or something stronger.

TEA-MEETING.—A tea was held in the Grange hall here on Friday evening. Quite a large number were present and all seemed to enjoy themselves well, particularly when they sat down to the tables, where the good things were in readiness for them. After all were satisfied the tables were cleaned off and speeches were delivered by the Rev. Messrs. Lockhead and Metheral. A social was given on the following evening. The amount made at the tea and social amounted to \$53. The proceeds go to Mr. Lockhead.

LIPFORD.

Correspondence of the Warbler.
Our village is very quiet. We have no tar gang.

Mr. Howden, butcher, of Peterboro', has paid this part of the country another visit, buying fat cattle.

The farmers here are anxiously waiting for Vennor's early spring, it has not come yet. When will it come? Ask Vennor. The wages for farm laborers are very high in this part owing to the scarcity of men, as high as \$20, \$22 and \$25 per month is being paid.
