

**HAGYARD'S
PECTORAL
BALSAM.**
No equal for the permanent cure of
Coughs, Colds, Sore Throat, Asthma, Croup,
Whooping Cough, Bronchitis and
all Lung Diseases.

KIDNEY-WORT

IS A SURE CURE
for all diseases of the Kidneys and
LIVER

It has specific action on this most important
organ, enabling it to throw off its load of
disease, purifying the body, and
restoring the body to its natural levels in
few months, effecting its regular discharge.

Malaria, from overwintering fevers,
malaria, miasma, rheumatism, etc., Kidney-Wort will surely relieve & quickly cure.

In this season to cleanse the system, every
one should take a thorough course of it.

SOLD BY DRUGGISTS. Price 50c.

KIDNEY-WORT

Factory at Stanstead, P.Q.—Norfolk & Lyman,
Toronto, general agents for Ontario.

Midland District Notes.

Sir Henry Tyler explained that the G.
T. R. held £100,000 of Midland Railway
bonds, upon which the company was re-
ceiving five per cent, and about £800,000
of its ordinary stock.

The Northbrook council has offered a re-
ward of \$20 for information that will lead
to the conviction of the parties who com-
mitted the late burglaries in Turner's &
Carrett's at that village.

Mr. Geo. Bates, of Cameron, had a bee-
to raise a new barn recently. Mr. John
J. Perrin was the contractor, and the
work was done in first-class style. Mr.
Beggs is also preparing to build.

Railway men say that on the Midland
Railway from Wick to within a short dis-
tance of Orillia—eight miles—engines need
no steam to run them, the grade on that
portion of the road being so steep as
to allow of a train going at a good
rate without needing to be drawn by the
engine.

Atkins & McLean, accused of mur-
dering Frank Little in the drunken spree
at Centreville, were arrested on Wednes-
day afternoon at their homes, South
Monaghan, and then taken direct to the
Colborne jail. They will have to remain
there for trial until the assizes next Octo-
ber.

Mr. Neil McLeod, of Woodville, who
departed for the North-west last week,
met with a severe accident on the road
causing him to return home. While tak-
ing some horses aboard ship at Colling-
wood one of them became unmanageable
and in some manner fell, knocking Mr.
McLeod down and killing him.

An Order-in-Council was passed on the
17th of April setting apart that portion of
the Otonabee river from Lock's bridge,
Peterboro, to its inlet at Rice lake and
its tributaries, with the River Trent to
the Bay of Quinte, in the Province of On-
tario, for the natural and artificial pro-
tection of fish for three years from Ap-
ril 1st.

Some weeks ago Mr. Donald Grant, of
2nd con., of Thorold, lost two valuable
horses. Having been to the lumber camps
of Muskoka, they came back infected with
the glanders, when Mr. Grant promptly
had them destroyed. His friends gener-
ously raised a subscription, which
amounted to \$100, and presented it to
him with a flattering address.

The average attendance at Balzeau
school has been very large this season,
ranging from forty to sixty. Miss M.
Mollins, assistant teacher, left last week,
so that the entire school is now devolving
upon Mr. Fairhurst. Mr. Rezin, J. P.
S. inspected the school on Friday, and
he expressed himself well satisfied with
the standing of the school on the whole.

Mr. Geo. C. Rogers, of the Otonabee
flour mill, Ashburnham, was drowned on
Friday last. He with two others was at-
tempting to cross a dam from a bar in the
Otonabee river, when the punt con-
taining them capsized and Mr. Rogers
was drowned. His companions escaped.
The sad accident created the greatest ex-
citement in Peterboro, where the de-
ceased was remarkably popular.

Another outbreak of typhoid fever has
occurred at the institution for the deaf
and dumb, Belleville, where four boys
and five girls are prostrated with the dis-
ease. The institution will be closed on
the 16th May, one month in advance of
the usual time, in order that the works
for improving the water supply, by ex-
tending the pipe further into the bay, and
sinking an artesian well, may be vigor-
ously prosecuted.

Mr. Justice Armour, at the Picton as-
sizes, spoke very eloquently of the
work of bringing up walls from the
crowded cities of Europe, engaged in by
Miss Hyde and Miss M. Johnson. He had,
while practising at the Bar to prosecute,
and in his capacity as judge to sentence,
a large number of these. It has gen-
erally been claimed that those pauper
children turned out will, and Mr. Justice
Armour's frank admission may surprise
many.

Mr. Ad. Lawr, druggist of the Midland
express train, T. & N. Division, has been
offered a very lucrative position in the far
off country of Australia, to take the
management of a lumber manufacturing es-
tablishment for a Canadian firm, at a very
large salary. If Mr. Lawr accepts, and
we believe it his intention so to do, the
person engaging him will have a good
man, as Mr. Lawr has had very extensive
experience in some of the best mills in
Canada and the States.

The president of the Grand Trunk rail-
way, at the last annual meeting of the
company, stated his mileage as fol-
lows:

Grand Trunk prop..... 1,611
Great Western prop..... 512
Wellington Grey & Bruce..... 165
Chicago and Grand Trunk..... 886
Detroit and Milwaukee..... 180
Midland Railway of Canada..... 471
North Shore Railway..... 220

The Peterboro Examiner, last week,
had an editorial on the Midland Rail-
way and Peterboro, in which the follow-
ing very significant reference is made to
Mr. Geo. A. Cox:—Mr. Cox has shown
a most substantial faith in the future of
the town, a confidence that shows no sign
of becoming weakened. He has invested
in a very large extent in real estate in
Peterborough, and, with recent invest-
ments, he stands on the assessment roll or
the proprietary representative of over
\$100,000 of marketable real estate—per-
haps the largest real estate holder in the
town. We merely mention these—in one
sense—purely personal matters, to show
that one of the most far seeing and

shrewdest business men in Canada, erred
in the most practical and convincing way
by the investment of a large portion of
his worldly all in Peterborough, his be-
lief that the town is destined to grow and
flourish; and that he is bound, by every
tie of interest, by every pecuniary con-
sideration, by every kind of moral sym-
pathy, and by every personal predilection,
to do everything in his power to
maintain the present high commercial
and industrial standing of the town, and
to make every medium subject to his con-
rol, tributary to its progress."

News of the Week.
The telegraph operator at station master at a newly railroaded station on the International (Vicks) Railroad last week sent a letter to his mother, telling her that he was coming home to see her next summer, and was saving up money for the purpose, and that he had his clothes put by in his trunk. He never wrote again. A tramp, or ruffian of some sort, looked over his shoulders at this point, and brain-
ed him as he sat there. The officers of a train, which came along soon after, found him in this condition, and, although life was not yet extinct, he did not become sufficiently conscious to tell anything about his assailant. The trunk, which contained his money, was found broken open and hidden in a thick quarter of a mile from the station, all the money, with the exception of a dollar or two, gone.

When the new electric lights in the Big Mountain colliery, near Shandor, were first put in operation last week, seven dazed and dizzied mules, which for five years had seen no brighter lum-
in than a Davy lantern, turned tail and fled into the depths of the mine. The workmen tell interesting stories about the habits of colliery mules, their toughness, their contentment and their total depravity.

Several months ago the lower levels in the largest colliery of St. Clair were flooded, work was stopped, and all the mules were hoisted to the surface. More than a dozen of them had passed eleven continuous years in the mine and had apparently forgotten that there was a world of grass and sunshine, for when they were turned out to pasture they huddled together in evident alarm, and for a whole day did nothing but gaze at earth and sky. The probability is that they were first blinded by the glare—a common experience with the blindfold under similar circumstances.

Diamond Dyes are so perfect and so
beautiful that it is a pleasure to use them.
Equally good for dark or light
colors. 10c.

That Husband of Mine
is three times the man he was before he
began using Well's Health Renewer. Dr.
Druggists.

My Mother
Has been using your Burdock Blood Bit-
ters as a liver remedy, and finds them
very efficacious. Chas. L. Ainsworth, El-
vane block, Indianapolis, Ind.—62-2.

John Hogies, 82 Wilton Avenue, To-
ronto, says:—"I have been able to dis-
continue tobacco by using Fountain of
Health, and feel much better every way.
It has also cured my daughter of dyspepsia.—62-2.

*** Five Bits.**
When the proprietors of Burdock Blood Bit-
ters put this renowned medicine on the
market, they hit it exactly. They hit dyspepsia, indigestion, and
liver and kidney complaint a hard blow,
from which they will never recover.—62-2.

\$100 reward! If one bottle of Fountain of
Health does not relieve ordinary
asthma, any dealer is authorized to re-
fund the money it costs you; and \$100
will be paid for a case that 5 bottles will
not cure.—62-2.

Mr. Wm. Boyd Hill, Cobourg, writes:
Having used Dr. Thomas' Electric Oil
for some years, I have much pleasure in
testifying to its efficacy in relieving
pains in the back and shoulders. I have
also used it in case of cramp in children,
and have found it to be all that you
claim it to be."

**Neglect old friends for the sake of new,
and lose both.** But remember that Kid-
ney-Wort is a friend you cannot afford
to neglect. Plasters may relieve, but
they can't cure the lame back, for the
kidneys are the trouble and you want a
remedy to act directly on their sections,
to purify and restore their healthy con-
dition. Kidney-Wort has that specific
action.

For one victim of zymotic disease a
honeocyst per se from failure of their
digestive processes. From one infant or
adult in the last sleep from the germs
of fever poison a thousand have wasted
from improper food and imperfect digestion.

The central idea in devising
Wheeler's Phosphate and Calomela was
to secure digestion and assimilation by
furnishing those elements of brain and
nerve nutrition, without which nervous
energy is impossible, in an easily assimil-
able form, when the digestive apparatus
is too feeble to eliminate them from
food.

Why should a man whose blood is warm
within sit like his grandfathers in alabaster?
Or let his hair grow rusty, scant and thin?

When "Cingalese Renewer" will make it
grow the faster.

For sale by all druggists.—56.

Buckler's Arms Sarsaparilla.

The best sarsaparilla in the world for cuts,
hives, sores, ulcers, salt rheum, fever
sores, tetter, chapped hands, chilblains,
corns, and all skin eruptions, and positively
cures piles. It is guaranteed to
give perfect satisfaction, or money re-
funded. Price, 25 cents per box. For
sale by A. Higinbotham.—ly.

Says Dryden:
"She knows her man, and when you rant
and swear,
Can draw you to her with a single hair."

But it must be beautiful hair, to have
such power, and beautiful hair can be en-
sured by the use of Cingalese Hair Re-
newer. Sold at 50 cents by all drug-
gists.—56.

Starting Discovery.

Physicians are often startled by re-
markable discoveries. The fact that Dr.
King's New Discovery for consumption
and all throat and lung disease is daily
curing patients that they have given up
to die, is startling them to realize their
sense of duty, and examine into the merits
of this wonderful discovery; resulting in
hundreds of our best physicians using it
in their practice. Trial bottles free at A.
Higinbotham's drug store. Regular size
51.

These are Solid Facts.

The best blood purifier and system re-
gulator ever placed within the reach of
suffering humanity, truly is Electric Bit-
ters. Inactivity of the liver, biliousness,
constipation, weak kidneys, or
any disease of the urinary organs, or
whatever requires an appetizer, tonic or
mild stimulant, will always find Electric
Bitters the best and only certain cure

known. They act surely and quickly,
every bottle guaranteed to give entire satis-
faction, or money refunded. Sold at
50 cents a bottle by A. Higinbotham.

PRICE, ONE DOLLAR PER BOTTLE.
