THE BRADBURN HOUSE, This popular house is new undergoing extensive im-

Fire. On Tuesday evening an incipient fire occurred at the rear of the Methedist church. A few pails of water extinguished the flames before any serious damage was done, and only a slight hole was burned in the porch which covers the back door of the church. The fire is said to have originated through the carelessness of the janitor throwing out hot

A FREAK OF NATURE. On Wednesday a very diminutive hen's egg was placed on our table by a young man who is so bashful that he does not want us to give his name. The egg weighs 2 drams one scruple, and is of peculiar shape, representing the bladder of a fish, the production of one of Mr. M. R. Mick's

IMPOTENCE, - I notice the Islay correspondent in his sad correction of an item from this place overstepped the mark a little in order to show his fancied knowledge of the secret affairs of some unknown of this vicinity. I think, though, after seeing it in print, he must have raked his wool a good many times, on finding out his miserable blunder in provoking a line of correspondence that must fall so harshly on his weak drum, and call to memory a laughing tale for many a fire-side of Victoria. He probably thought his own rayings in a stubble field in the his own rayings in a stubble field in the "wee sma' hours of night" after the upwhot of long cherished hopes would be forgotten by this time and he could talk
again like an innocent boy, but our memories are not so loose as to let slip so
amusing an event. He also spoke of
giving out of freshness, but surely he
must have been joking. Who has ever
heard the "old hundred" time gait of his
speech and could not decimber his scribspeech and could not decipher his scrib-bling in a ten-acre sheet of newspaper! But we will say no more on the subject this time, and those who wish to increase their knowledge in regard to this gentleman we would refer them to any of the old maids within a square of ten miles of shanty town and ask their experience with him, and if they don't fairly kick themselves—well, we'll treat.

### FENELON FALLS.

A LANGE CONSIGNMENT.—Last Wed-nesday morning Messrs, McDongall & Brandon shipped no less than two thouand dozon eggs to a purchaser in Hoston, from whom they received a cheque in advance in payment.

HAND -The Fenglon Falls brass band recorganized about a year ago, bids fair this time to be a permanent institution. There are now fourteen members, who were playing in public last Monday evening and acquitted themselves very well-indeed, especially as they have only had a teacher for a little over two months, and he has been sick the last three or four

BROKEN AGAIN Last Wednesday morning a nine ounce stone, thrown up by a blast in the canal, fell upon Mr. John Nugent's skylight and broke two panes of glass; but did not descend into the room, as it alighted upon a broad part of the sash, which it penetrated to a considerable depth. This is the second time the skylight has been broken by the same means, and the third or fourth time glass in some part of his premises has been smashed. He thinks the contractors ought to be satisfied with bombarding the Orits, and let good Tories like themselves escape.

market square considerable progress has been made in the preparations for the three houses to be built thereon, which three houses to be built thereon, which will be run up in a hurry as aoon as the ground is ready, and the creek, which at present measures in various directions, is to be run is a straight course from Welch's carding mill to the culvert on Francis street. The lime kiln will be 18 feet square and 18 feet high; but as the walls will be six feet thick, the interfor will measure 6218 feet. When completed, which will be in from one to two months, it will be kept going night and day, and will turn out about 250 bushels of time every twenty-four hours. Soon after the kiln is in operation work will be commenced on the pulp mill itself, which will probably be infished in about six months from now. The Pulp Co. have contracted for all the slabs turned out by McArthur & Thompson's mill, into which a new circular is about to be put, and the pulp mill (which is to run all the year round, except from 12 o'clock on Saturday nights until 1 o'clock on Monday morvings) will burn them at the rate of mornings) will burn them at the rate of over a cord an hour. - [Gazette.

### Midland District Notes.

A little boy arrived at Peterboro the other day with a statement on a collar which he wore, that he was to be taken to a certain hotel in that town. He had come from Liverpool, and since landing in Canada he had ridden on the cars under the charge of the conductors until he arrived there, when he was met at the hotel mentioned and was taken to were his brother was living.

The body of Mr. Geo. C. Rogers, pro-prietor of the Otonabee flouring mills, who was drowned on Friday, April 20th, while removing a bracket from his dam, was found on Monday by Mr. Robert Sheridan, one of the parties who was in the punt with him when the unfortunate accident happened. The body was found in about three feet of water, about 100 yards below Hunter street bridge, the head imbedded in sawdust and the body in a good state of of preservation. The funeral on Tuesday was the largest cortege ever seen at Peterboro'.

The last quarterly official meeting for the ecclesiastical year of the Methodist church on the Cannington circuit was held in the Zion church on Monday, 7th inst. A large attendance of the officials ; meeting very harmonious. All financial claims for the year fully met. A resolution of sympathy with Bro. W. D. King in his sad bereavement was passed. A review of the list of membership on the circuit presents an encouraging increase, as the result of the year's labors and the blessing of God thereon. The Rev. D. Balfeur, jr., minister of the circuit, was cordially and unanimously invited back for another year.

A horrible murder was committed at the Italian camp on the Ontario and Quebec Railway, on Wednesday morning between six and seven o'clock, about 7 miles from Norwood. An altercation took place between the cook, Angel Carminino, and Dominici Ottovinna, one of PERRIN.

Correspondence of The Warder.

Correspondence of the camp, in which there are about twenty Italians, when the former seized a heavy sharpened pole and with one blow drove it into the body of his victim in the vicinity of his heart. Ottovinna dropped dead instantly, and the murderer immediately took to the woods, and is yet at large. Telegrams have been sent to Port Hope, Belleville and other places, giving a description of the murderer, and efforts are here to secure his arrest.

The above is an old saw as savage as it is senseless. You can't "grunt out" dyspepsia nor liver complaint, nor nervousness if they once get a good hold. They don't remove themselves in that way. The taking a few doses of Burdock Blood Bitters is better than "grunting it out." What we can cure let's not enduse.

A Great Discovery.

That is daily bringing joy to the homes of thousands by saving many of their dear ones from an early grave. If your druggist does not keep the remedy send to headquarters and get the medicine by mail. Circulars and testimonials on application.

The Bad and Worthless New Waggons. Two new delivery waggons, gay with paint and varnish, have made their appearance on our streets within the past few days. One helongs to Mesers. Ellis & Whissile and the other to Mesers. Johnston & Field, and the names of the owners appear in fancy lettering on the panels below the ends of the seats. The vehicles, which appear to be first class of their kind, were built by Mr. F. Sandford, of this village, and cost \$110 each.
