### The Victoria Warder

FRIDAY, MAY 25, 1888.

#### New Public Huildings

On Monday evening an informal meeting of the town council took place to conaider a communication received by the mayor from Mr. J. R. Dundas, M. P. to Mayor Wallace, regarding a desired grant from the Dominion Government to taild a suitable edifice to be used as a post-office and a customs house. The following gentlemen were present :- Mesers. Graham, Cahill, Connolly, Cathro, Ingle, Sinclair, Weese and Winters. The mayor accupied the chair.

Mayor Wallace briefly referred to the object for which he had called the counoil together and the reply which had been received from Mr. J. R. Dundas in regard to his letter, asking him to use his endeavors to secure an appropriation for a new post-office and customs house combined. It had long been felt that samething of the kind had been much needed in Lindsay and as Peterboro', Cabang and other towns were receiving grants for the purpose he believed an effort should be made to do the same for Lindsay. He then read the following

J. W. Wallace, Esq. Mayors DRAR Sin. I have your favor of the 17th inst. and note what you say about an appropriation for a post-office for Lind-

year, but we must put in a strong claim

most year, and there is no use in shutting our eyes to the fact that things of this

If you and others of your friends will form a deputation and come down on Tuesday with a memorial from the town I will be glad to arrange an interview with the Minister of Public Works, and thus open the ball, or if you think it not practicable to do this in so short notice get up a memorial from the town and aced it to me at once and I will present and press it, but it will only be with a

view for action next year, I am going to Montreal to merrow on hasiness, but will be here on Tuesday. We hope the session will close here on Wedmeday, but it may not till the 26th and medal

Faithfully yours,

(9thawa, May 18th, 1888.

The Mayor would like to hear the risws of the gentlemen in regard to the question, and also what they consider had lipat he dance

Mr. Winters, Mr. Weese, Mr. Ingle and other gentlemen spoke in very favcrable terms respecting the proposed buildings. There was no question in the minds of each that the accommodations at either the landsay post effice or the customs house were not adequate to the amount of business done, especially the post-office, which was almost as revenue producing as a band. They believed that it was the duty of the Government to the prople as well as a duty to themselves to provide all appliances and all accommodations for the transaction of the public business. In their opinion a memorial from the town should be forwarded at once to Mr. Dundas so that he might lay it before the Minister of Public Works and press the necessity of the erection of outtable buildings at as early a date as

Mr. Connelly and Mr. Cabill could not ups that buildings of the kind were neceseary at all and would in no way assist in the project. Mr. Connolly was excep-tionally opposed to it and was very much inclined to leave the board, so as to leave no quorum of the council present.

After some further discussion and Mr. Canadly had had an opportunity to cool down somewhat the following resolution

was put and carried Mr. J. L. Winters moved, seconded by Mr. Ingle, that the mayor and town clerk forward a memorial from this couneff to the Pominion Covernment asking a grant for a post-office and customs house to be spected in the town of Lindsay.

Mr. Graham, therefore moved, seconded

by Mr. Winters, that the mayor wire Mr. J. R. Dundas Tuesday morning asking if a deputation is necessary and advisable, and in event of a reply in the affirmative that the mayor, reeve and Mr. J. Dobson be a deputation to go to Ottawa and press the claims of the town on the Dominion

Covernment. This motion was also put and carried, and after some further consideration the council adjourned.

A GALA DAY FOR LINDSAY.

FULLY 7,000 PROPER PRESENT SPLENDID SPORT AND BIG PRIZES-THE BEST DAY'S SPORT IN LINDSAY.

Although the heavy rains of the first three days of the week were such as to frighten every lover of sports as to the probable weather on the 24th May it turned out to be the finest day of the season overhead. The ground was of course rather wet in the morning, but dried up considerably during the day and the grounds were after all not so bad as expected for the many contestants, a very large number of whom, professional and amateur, took part.

From early morning till noon each train brought in car loads of people from all points to witness the tournament and see the various sights, till at 12 o'clock fully 7,000 strangers must have arrived in town. Flags were flying from almost At this late time of the season it would every building and nearly every dry goods be quite useless to hope for anything this store displayed its decorations of bunting and union tacks, giving the town the make them equally enjoyable as they are I think, however, it might be well to usual holiday appearance of the 14th of make some move in that direction even may. The Lindsay brass band was also now, for it would be opening the ball for to the front and did splendid service by their choice music on the streets and in the grounds. The praise they received kind are only got through great press from every one was well merited, and it is to be hoped will net be forgotten in the future if the band ever asks Lindsay

for any prouniary assistance. At one o'clock the games opened for the championship of the Midland district and the \$20 gold medal between the lacrosse club of of Lindsay and the Independents of Bowmanville. Only one game was played owing to the length of time taken and as arranged before hand as soon as the one game was up the play storyed.

first of which was the boys' race of 12 years and under for 100 yards, for which there were 12 entries. Master II. Woods, son of Mr. S. C. Woods, won the first prize; Jas. Shannon second.

Boys' race, 16 years and under, came next, for 200 yards, for which there were 8 entries. Mr. W. Woods led easily the whole distance, coming in several feet ahead of any, Johnny Chisholm coming in second, which he maintained the total

Mr. W. Hurst, a well known athlete of Torento, favored the large concourse with an exhibition of dumb bells, which he handled very dexterously indeed, beating time to the band. The sun appeared to somewhat bother him, shining full into his face, but he did splendidly, and at the close was much applauded.

Sect. 2000, on which Mr. Parker is said to have had no insurance.

Next came the quarter mile race open only to the athletic club, but for this there were only two entries, Messrs. R. Lyons and J. Kennedy, who took first and second prizes respectively.

The vaulting with the pole open to the athletic club of Lindsay was taken part in by R. Lyons, J. Way and John Dunsford. Mr. John Dunsford was ruled out

first. Mr. J. Way took first prize for jumping easily over the highest notch—6 feet high; R. Lyons took second prize.

The exhibition of high jumping between Messrs. E. W. Johnston and Harrison was exceptionally good, and the contestants were very evenly balanced. The jumping was certainly excellent, the height at the close being considerably over 8 feet.

The one mile walk was the next on the programme, for which there were two entries, Mr. W. Haslett and Mr. Jas. Grace. Haslett was evidently able to walk away from Grace, and was an elegant walker. In fact he played with his competitor, putting a quarter of a mile bet seen them at the end.

The one mile amateur race was run by W. Fogg and A. Downs, of Bowmanville; R. Lyons and J. Hallasey, Lindsay. J. Hallasey came first and A. Downs second. The race was a very spirited one, and on the length of endurance depended apparently more than the fleetness of foot. Time, 7

Mesers. Hurst Bros. horizontal bar exhibition followed the race, and was a circus in itself, especially the performances of

the younger man.

Throwing the heavy shot came next,

third throw Harrison was the winner of first prize, Hudson coming in second.

But it was in tossing the cabre, or a long heavy cedar log, which caused the greatest amusement. The same contestants who took part in the throwing took hold of the cabre-a most difficult matter to throw any distance-and dangerous with all. The contestants were close, but subsequently E. W. Johnston was declared winner, throwing 38 feet 2 inches, Harrison coming second with 37 feet 2

After this followed the throwing of 56 lbs. weight, tumbling performance, running, high leaps, high kicking, jumping, etc., etc., the particulars of which we are reluctantly compelled to leave over for want of space till next issue. The wrestling contest took place in the hall in the evening, there not being time on the grounds owing to the long programme, but the particulars we did not learn at the hour of going to press.

One thing we must say the celebration of this 24th of May in Lindsay has been the most successful ever held here and the manager, Mr. E. W. Johnston, is certainly deserving of credit for so carefully carrying out everything he advertised. The attendance on the grounds was very large indeed, and we are glad to learn that he and others connected with the celebration met with such success, although the weather up to the day wore such a gloomy aspect. Johnston evidently knows how to work up athletic tournaments and

SCRAPS.—Mr. Jas. Lawrence, of East Mara, is starting for the North-west territory. He intends to go to Maple Creek, some six-hundred miles west of Winnipeg, where his elder brother has been about a year and has made lots of money. about a year and has made lots of money.
Our young friend has great hopes and we hope they may be realized. Mr. Joseph Nicholson, of Sebright, has also east his lot in that direction. Also a great many farmers are losing cows this spring from weakness. Rev. Mr. Lloyd, of Victoria Road, is to preach the quarterly sermon of the C. M. church here next Sunday. Mr. Geo. Jarrelt has received the contract to build the new C: M. church here. The boys have given up poetry now that The boys have given up poetry now that the nights are warm, and have taken to serenading within close range of the water jugs. There is quite a maple tree boom here.

From Emsdale.—I notice that we have a bran new Emsdale correspondent. He opens out as do all greenhorns by taking a dash at every one within his ken, and amongst others your humble servant comes in for a fling. I don't see any point in his attempted joke concerning my conduct in the late election; but if he wants a subject to get a slap at in that line I can tell him some one that dare not for the life of him say his seul was his own. It must have been a novel was his own. It must have been a novel sight to see the Emsdale fellows sober during an entire election day, and it is likely when the Grits find this out they will attribute Mr. Fauquier's success to this wonder and withdraw their protest at once. I would rather have a saw-mill in my hat than have it empty.
