Toronto Telegram :—"What the upshot of the trials of contested elections will be nobody can tell, but the Reformers profess to believe that it will not be to their disadvantage, as they had very little money to spend either legitimately or illegitimately, whereas they say the Conservatives had all they wanted. It is hinted that signs of a weakening of the party vertebre of one or two of Mr. Mowat's supporters is becoming apparent, and that a carefully worded resolution would afford them the opportunity of going over to the enemy. Mr. Mowat had better give up his proposed trip to the old country, and his proposed trip to the old country, and stay at home and look after his weakbroked followers?

There was an affecting scene in the United States court in Milwaukee, Monday. George H. Daubner, of Brookfield, Waukesha county, who was recently con-victed of obtaining a pension by fraud, was arraigned for sentence. He is a wellto do farmer, worth \$40,000 or \$50,000, and has held a number of important positions during the past dozen years. He is tions during the past dozen years. He is a rugged-looking man, 48 years old. It was proved that he obtained pension arrears amounting to \$3,500, and \$20 a month for catalepsy, which he alleged he contracted by exposure in the army, while, in fact, he was only in the army a few months and never saw any service. His his were feigned. He was accompanied by his wife, and both wept bitterly when the court pronounced the sentence when the court pronounced the sentence a term of three years at hard labor in the Chester, Ill., prison. The case, owing to the prominence of the prisoner, has attracted considerable attention.

The main tent of Barpum's circus was burned in Chicago at 2 o'clock Tuesday morning. The loss is estimated at \$15,-000. The flames ran up the canvas to the center poles in a twinkling, and a gorgeous scene was presented for a few moments, Michigan avenue for blocks being as light as day, while the shipping lying in the harbor was clearly outlined. The tags in the harbor added to the uproar by the incessant screaming of their whistles. The canvas and guy rope being destroyed, the center poles were precipi- TIN. tated to the ground, crushing the private boxes and carrying the fire in among the reserved seats, entailing their almost complete destruction. The night watchman in charge of the stable tents was apprised in time to enable the hostler to lead out all the horses quietly. The wild animals had all been locked up for the night, and as they could not see the flames, were in no sense panic stricken, although the smell of smoke appeared to excite pickings, Cotton and Woollen Bags, Old Metal, &c.
