Great haste is not always good speed. Yet you must not dilly-dally in caring for your health. Liver, kidneys and bowels must be kept healthy by the use of that prince of medicines, Kidney-Wort, which comes in liquid form or dry—both thoroughly efficacious. Have it always ready.

A dilapidated physique may be built up and fortified against disease by that incomparable promoter of digestion and fertilizer of the blood, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. It counteracts biliousness and kidney complaints, overcomes bodily ailments special with the feebler sex, causes the bowels to act like clockwork, and is a safeguard against malaria and rheumatism.

If you are a woman and would contribute your influence to redeem humanity from its numberless ills, make all things else subordinate to health. If you possess this inestimable treasure you will transmit the same and your offspring may rise up and call you blessed. To secure this it will be well to seek the motherly countenance of Mrs. Pinkham, Lynn, Mass.

Mr. John Day, Ontario Government Land agent at Bruce Mines, writes to the agent that farm hands can get employment in that locality at from \$20 to \$24 a month until harvest, and at \$22 to \$24 during harvest.

He calls attention also to the fact that there is abundance of excellent land to be had in the adjoining townships at 20 cents an acre, and that a man can actually purchase a good farm for what he makes by a month's labor in the harvest field. The land along the north shore of the Georgian Bay, to the rear of the broken coast line, is in many places of very superior quality, and the opening up of the Canadian Pacific Railway, coupled with the excellent facilities afforded by rival steamship lines, will in a few months bring it within easy reach of the best markets in the Dominion.

A tall young man went bathing in the Mohawk River at Schenectady last Sunday with several other Sabbath-breakers, in spite of previous protests against their selection of such a conspicuous place for their ablutions. While they were in the water Mr. Van Yost appeared upon the bank and carried off an armful of their clothing. All of the bathers, however, had enough apparel left to get home without undue exposure except the tall young man, whose only remaining raiment was a collar and a pair of shoes. But as luck would have it he found near the river an empty barrel, out of which he knocked the heads and into which he stepped, and thus appareled he made his way home across the fields, painfully holding up the barrel as he walked, but dropping and sinking into it whenever anyone appeared in sight. It is thought that Mr. Van Yost's method of abolishing Sunday bathing will be successful.
