REPORT OF 1881-2 

The above figures indicate the strength and popularity of the Canada Life. Claims paid immediately on proof of death. Polices indisputable after being 2 years in force. The Canada Life is the oldest home company. The profits to policy holders are the largest given by any company in Canada, while its business is far above that of any other company. Those insuring now are cetified to 3 years' profits at next division in 1886. For every information apply to

A LODAL genius named Sootheran has carved a very pretty group of deer in wood, and exhibited it in one of our store windows. It displays a really wonderful talent for sculpture. The group consists of a buck, a doe and two fawns. The positions are most natural and the carving admirable. It is the most artistic piece of work I have ever seen in Canada, and it should certainly be sent to the next Art exhibition in Ottawa. The artist is in my opinion quite competent to enter the arena of art, and contest the prize with any sculptor on this continent.

Our railway is conducted with great judgment and discretion, and its officers are distinguished for their ability and politeness. It occasionally happens that their tempers are severely tried, as was the case last week, when Mr. Scanlon the conductor of the passenger train, had, to defend himself and his charge from the attack of several drunken rowdies at Minden station. He resisted the attack with great courage and vigor, and two commercial travellers, who were passengers combeaten and taught a very useful lesson. Mr. Scanlon deserves well of the railway, and I now compliment him in the name of the public. Independent,

Polices Court.—On Thursday last Joseph Finley being slightly depressed by the wet season, aroused his drooping spirits with a little-more firewater than was good for him. He got into a sorimmage and Reeve Crabtree was called upon by the constable to administer a legal rebuke to the festive Joseph. The reeve did so to the tune of \$4 and costs, or thirty days. On Tuesday, S. Crabtree, J. P., and J. Junkin, J. P., held a court to adjudicate on a little neighborly difference in which Mr. Jas. Moffatt, Mrs. J. L. Read and Mrs. Muffatt, were concerned. He has now sufficiently experimented with this material that he can with confidence recommend it to persons getting artificial teeth as perhaps one of the best materials ever used. It is a compound of the Royal metals. No bismuth or antimory enters into its composition. The material is cast from a direct model of the mouth, therefore the finest lines of the mouth are accurately copied, thus securing a perfect fit. The Thernal conductively is such as to secure to the mucons ductively is such as to secure to the mucous membrane freedom from passive congestion so very common even with black rubber and other ommon plates. Persons who wear it claim that they do not experience that hot feverish feeling in the mouth so usual with rubber plates. A leading dentist of New York stated before the Dental Association that he had worn every kind of plate ever used and they had all felt more or less uncomfortable until he had worn this. There is but one other dentist in Canada at the present date besides Mr. Neelands who has secured the patent right to use this material.
