the senators of those names, left their camp on the south shore of Kempenfeldt bay to get supplies from Strathallen, Senator Allen's summer resort, opposite Batrie. Later on, though the wind was blowing a gale, they started to return in their skiff to their companions at the camping ground, only a mile or two distant but that is the last that has been heard of them. Both lads were excellent swimmers, but diligent search for the past three days has only resulted in the finding of an oar from the missing boat.

Mr. and Mr. Allen reached Strathallen on Saturday little aware of the news in on Saturday little aware of the news in store for them, and Senator McInnes, summoned by telegraph, joined them there from Hamilton. Selby Allen was the "hig boy" of Trinity college school, Port Hope, universally liked and respected. He had just passed his examination for the military college at Kingston. Donald McInnes was an undergraduate at Trinity college, Toronto, spending his vacation with the Allan family.

been accomplished, that it is a very semarkable one, and that every man who is hanged after his will allow the repe to be adjusted in the hope that after the interesting offermeny has been performed and justice satisfied, his neck may be straightened up again and himself made as good as new. The gallows will loss half its ferfore, and some other indee of inflicting capital punishment will have to be devised.

During the seven months of the present year nearly ten thousand persons lost their lives in various parts of the world by socidents of different kinds. One of the New York pupers has published a list showing the nature of the decidents, but only recluding such as were fats! to there or more persons at a time. Besiden the ten thousand more being instances in which less than three lives were lost at a time. This world large the number up to 28,000 persons in a year. Among the accidents which was been raised by worded and everyon man a Dumbary recoming a dark not be a decidents, but only recluding such as were fats! to the young man a palete, nor could it be removed without the sid of a doctor. The doctor could relieve its hold only by crushing the head of the ant with a part of the excellents, but only recluding such as were fats! to the result is enough. But I don't think the real danger is in the rocks; it is in the water itself. It's all very well to 140 feets which exhibit possible, and ebb and flow irregularly. The flow is accompanied by a draft of air down of the ten thousand more being instances in which less than three lives were lost at a time. This world brings the number up to 28,000 persons in a year. Among the accidents which were the steamship disasters, the burning of the steamship disasters, the capptions of bodiers,

"all the ills that fiesh is heir to," but for NEU-RALGIA, SCIATICA, RHEUMATISM, and complaints of Rheumatic nature.

IT IS A SURE CURE

From Mr. Percy Perdon, the oldest mail clerk now running on the G. W. railway between Suspension Bridge

About 18 months ago in conversation with your I mentioned that my son Arthur was a great suf-ferer from rheumatism, being so bad that for months he had not been able to put on his boots or walk. At your suggestion I purchased from you four bottles of your Rheumatine. Three bottles, however, I am happy to say, effected a permanent cure; as my son has never suffered from rheumatism since, although the past winter has been a most trying one. I may add that the medicine had the effect of improving his health

in every way.

Make what use you like of this testimonial. I can thoroughly recommend your Rheumatine to all suffering from rheumatic complaints.
