

LUMBER.

A large quantity of good Dry Lumber suitable for all kinds of building constantly on hand. Also a large quantity of SHINGLES AND LATHE, Of all grades. Lumber from \$5 upwards. Shingles from 90c upwards. Also a quantity of Dry Dressed and Matched Lumber, Suitable for all purposes, always on hand. ROBT. BRYANS, Lindsay, April 16th, 1883.

38th PROVINCIAL EXHIBITION - of the Agricultural Arts Association of Ontario TO BE HELD AT QUELPH 24th to 29th September, '83. Entries must be made with the Secretary at Toronto on or before the undermentioned dates.

The Victoria Warbler FRIDAY, AUGUST 17, 1883. Hot tea and coffee at all hours at Soanes & Son's. Fresh bread and buns made daily at Hickey's. Maple sugar by the pound at Soanes & Son's. COLORED tea sets at the right prices at A. Campbell's. HOUSE plants at cost at Mrs. Jewett's. Call and see them. Must be sold. MACHINE OILS, machine oils, all kinds, cheap, at Higginbotham's drug store, -76-3. If the man who got the barrel of sugar in mistake for a barrel of salt returns the same expenses will be paid. No names are given.

GAR.—Mr. Neelands guarantees to extract the worst cases of broken teeth and roots without pain or injury by gas. Electricity also used. The busiest part of the town during the past week has been around Sylvester's foundry, and reaping machines are drawn out as fast as they can be fitted up. Another week, however, will be the last, as we learn nearly all the present stock has been sold. The following paragraph leads the editorial in the majority of our rural exchanges this week:—"The indulgence of our readers is requested during the absence of the Editor, who is away with the press excursion enjoying a well-earned holiday." The readers will survive! MISDEMEANOR will be found a letter from a Mariposa farmer on a very important matter. It appears the by-laws in this district are in the habit of taking one percent for waste and this all farmers are agreed is a great deal too much, and that in fact they are entitled to no waste at all any more than any one else is when purchasing other commodities. Our friend wants the farmers to permit this reduction no longer, and if nothing else will stop them proposes to have a store-house built for their own use. We also see that the county council of Dufferin has been petitioned by the members of farmers' councils and ratepayers in the county to render all possible assistance in bringing about a reform in the present system of weighing grain and farm produce by the erection of suitable scales and the appointment of public weighers. Other petitions are also being numerously signed that action may be taken by the municipalities of Toronto, Ottawa, Nottawasaga, Stuyver and others in Ontario. Personal Paragraphs. Mr. John Dobson landed safely on the old sod last week. Mr. E. M. Woolhouse returned last week from Manitoba. Dr. Ryerson will be in Lindsay on Saturday for consultation. Rev. S. J. Hunter, of Toronto, occupied the pulpit of the Methodist church Sunday last. Mr. Adam Hudspeth and family and Mrs. Robt. Spier are sojourning at the Lodge, Pigeon Lake. A party of young men, amongst whom were Messrs. Jordan, Dickson, Jackson, J. B. Smith, J. Stewart and others started for Stoney Lake Monday. Mr. H. E. Neelands, brother to Mr. J. Neelands, was a few evenings ago made the recipient of a valuable diamond pin by his Winnipeg friends prior to his departure on a visit to Ontario and probably this town. Mr. R. Patterson, who for the past four months has been mechanical foreman at the Midland Railway shops in Port Hope, leaves on Saturday for Montreal, where he will take the position of locomotive foreman of the Grand Trunk Railway. He will be succeeded by Mr. Storor, formerly foreman of the Uzbridge shops. Mr. Geo. Bowes, formerly of Lindsay, now of Grand Forks, Dakota, we regret to learn from the Plainsdealer of that city a few days ago met with a severe accident by a horse which he was driving running away. It appears he and a friend were driving along the east side of the river, when the horse sidled and Mr. Bowes was thrown upon his face with such force as to fracture the lower jaw on both sides. His friend occupied him. Mr. Bowes is under the care of the doctor and will

have to remain quiet for some little time. Mr. Neelands, a few days ago, favored us with some of his experiences in the Northwest on his recent visit, as well as samples of Manitoba mud and earth from his Dakota farm. In his travels he met Mr. Fred Jones and wife, formerly of Lindsay, now living at Watertown, Da., where they are doing splendidly. Mr. Jones in a store and Mrs. Jones running the farm. Some wheat and oats of this year were shown us given by Mr. Jones to Mr. Neelands, and a finer sample we have scarcely ever seen. Mr. Geo. Cluxton, formerly of Lindsay, is also living at Watertown. In Winnipeg Mr. Neelands met L. McLean, and several others well known here. Dr. Benson is residing in a \$50,000 house and all the Bensons appear to be making money. Amongst other mementoes brought home is a piece of Manitoba mud, and some prairie grass and a piece of "Peck's mud" straight from his Dakota farm, and a very good sample of mud in it. Mr. S.S. Peck is doing well in Dakota, having a very extensive farm, some nine or ten homes and a great quantity of reaping machinery. A sample of Peck's wheat was also shown us and is a fine sample of what may be grown there. During his stay there Mr. Neelands was driven round and shown all that was to be seen by Mr. Peck or some member of his family and enjoyed himself greatly. On his return he visited Rat Portage and was introduced to the great Ontario Mogul, G. R. Pattullo.

Midland District Notes. Mr. John Brady, of Brooklin, has sold his farm of 100 acres for \$5,000. Somebody at Uptergrove is trying to find out who is the best binder in Mar. The line of the Victoria railway from Kilmount to Haliburton is one huge berry garden. In a row in a saloon at Baltimore James Carr was stabbed to the heart by McNully, the owner of the saloon. Whitty dealers have imported great quantities of coal this season, with the intention of supplying the towns and villages to the north. A son of Mr. Chas. McCarthy, township of Brooklin, aged 14, died the other day from blood poisoning caused by a felon on one of his fingers. A. P. Church left his home in Uzbridge Thursday night and has not since been heard of. He had been ill for some days and it is feared his reason became dethroned. A match game was played at Beaverton on Monday, between the Dominions, of Toronto, and the Checkers of Beaverton the Checkers winning in three straight games in 41 minutes. A son of Mr. John Rogers, of Yonge at near Newmarket, killed a snake recently, which was four feet long and eight inches in circumference. Sixty-nine young snakes were found inside of it. A portion of the Central Ontario railway, extending northward from Trenton on the Grand Trunk, has been finished, and the local government have been notified that it is ready for inspection. The checkers of Beaverton have won a \$50 silver cup which was given by the Olympic lacrosse club, of Port Perry, to be contested for by the several clubs at Port Perry, on the 6th inst., for the championship of the county. The Longford Lumber Company have already disposed of about half of the entire cut of the season to parties in Oswego and will have no difficulty in disposing of the balance, as lumber is in demand and prices remain firm. Samuel Whitney, alias Clarke, alias Grant, the man who left his wife and picked up two beauties from Uzbridge and sloped to Queenstown last week, was arrested and brought back, but on promising his relatives to lead a good life and go home to his wife, was released, we are sorry to say, if report is correct.

EMILY. OMITTED.—The following motion was left out of our report of the Emily council last week.—Moved by Mr. Guiry, seconded by Mr. Scully, and resolved, that whereas complaints have been made to this council that the employees of the Midland Railway Company have obstructed certain highways in this municipality, viz., by filling the whole of the road allowance and ditches in front of lot 19 in the 3rd concession of the township of Emily, with clay, which prevents the water from running and causes other inconveniences to public travel. Also large stones have been moved from the adjacent out and left on the road allowance in the same place; and further, that large stones have been drawn from the lands of the aforesaid railway company and left on the road allowance between lots 18 & 19 in the third concession of the aforesaid township of Emily, and this council of the municipality of Emily hereby notifies the above named company to build a crossing on the last named place, and put all crossings in this municipality in proper shape, and Robert Grandy, township clerk, is hereby instructed to notify the company to have these obstructions removed immediately and to put the road in front of lot 19, in the 3rd concession of Emily, in as good order as it was before said company interfered with it, or legal proceedings will be resorted to by this council.—Carried.

DALRYMPLE. Correspondence of The Warbler. PERSONAL.—Miss Louisa Irwin, late of Lindsay high school, has commenced teaching the West Mud Lake school, Her genial manner and high scholastic attainments cannot fail to win for her the greatest regard from all. Rev. Geo. Calvert is here preaching at present. I cannot say how long his engagement will last. WHERE, where O, where is the spicy Balsamor correspondent of last year? He was almost the life of Balsamor, giving encouragement to everything, and when the summer season came round and the local editor was in pressing need of local items to make enough matter in dull times our Balsamor friend was wont to manufacture some great story of a successful shooting expedition made by the mighty heroes of Balsamor wherein fabulous quantities of game were bagged. Where is he? ACCIDENT.—Mr. Dan A. Macdonnell, head master of Sebright public school, had the misfortune to nearly ruin his left hand the other day. It seems that he was erecting a kennel for his retriever "Bite" to be prepared for cold weather, when it comes, and in driving nails he missed a stroke, striking and completely mashing his left thumb. The dignity of friend Mac's profession prevented a proper expression of his feelings on the occasion, and I believe Bite is to lodge in a neighboring sheepfold in hopes that his house will still be finished.

SONYA. Correspondence of The Warbler. ONIL.—Mr. W. Rea's oldest child has passed to that bourne from whence none can return. HAYSTACKING.—The farmers have commenced harvesting and fall wheat and barley is mostly out. The fall wheat is slightly damaged with rust. MINOR NOTES.—A number of farmers have purchased self-binding reapers, all of which give satisfaction. Mr. A. Gilson is building an addition to his barn. BETHANY. THE harvesting is being rapidly pushed forward. The wheat is cut long exceedingly well, all over the township. DEATH.—On Monday evening a navy of the Italian camp died. The impression of sorrow that pervaded the scene was very lamentable. Shortly before expiring his comrades gathered around him; placing his arms across his breast, then wrapping them round and round with beads—both hands and feet—and holding over his face a little crucifix, whispering words of consolation, all kneeling around him. GARDEN PARTY.—Dr. Brereton M. P. F., and Mrs. Brereton gave a splendid garden party on Thursday evening. The garden was brilliantly illuminated, and several times during the evening the Doctor, assisted by Lieutenant Benson and Miss Brereton, added to the festivities by tabling illuminations, ice cream, &c., and the joyous smile on every face betokened the happiness of the occasion. The Bethany brass band honored the scene with their presence, discoursing really excellent music. FENELON FALLS. PERSONAL.—Mr. Geo. Bescock, who was in the harness making business here several years and was the crank shot of our volunteer co., visited the Falls on Wednesday last. Since he left this village he has resided at Brockville. REDUCED TAXES.—At the council meeting last Monday night a rate of 20 mills on the dollar was struck for this year, being four mills less than last year. The assessment this year is \$215,000 against \$210,000 last year; but the rate in this respect is so much less than the fall in the rate that there will be an appreciable and gratifying reduction in the amount to be paid as taxes. THE RED MILL.—Mr. R. C. Smith's mill, (known as the "red mill" from its color) on the south side of the river, has been undergoing repairs and alterations during fully six months and is at last in full operation. By degrees all the old machinery has been taken out and replaced by new. THE PULP MILL.—The walls of the pulp mill buildings are in some places fully ten feet above ground, and present a spectacle of immensity and solidity not often to be seen. LAPIDIST CHIEF.—Tuesday afternoon Mr. John Simpson, of this village, left for Toronto with his well known stallion Lapidist Chief, which he intends to leave for some time in the hands of an experienced trainer, for the purpose of having his trotting abilities cultivated to the utmost. The Chief has a great local reputation, both as a sire and on the track, and his owner thinks that it is now time to try what he can do amongst rivals, a good deal speedier than he has hitherto met. RUNAWAY.—Last Sunday as the wife of Mr. Thomas Oliver, of the 6th concession of Verulam, was driving alone in a buggy the horse took fright at something and ran away. Mrs. Oliver was thrown out, but fortunately escaped with a few bruises. One wheel of the buggy was smashed all to pieces, and the shafts becoming detached from the axle the horse left the demoralized vehicle at the roadside and continued his career. BURGLARY.—A few nights ago some person unknown got into Ellis & Whittle's store through the back window and stole about nine dollars from the till, the best piece in the show-case and a few plugs of tobacco. Usually a very little silver is left in the till to make change if it is needed before Mr. Ellis arrives in the morning, but the night before the robbery a few dollars were taken in after he had left with the key of the safe, and the burglar consequently made a bigger haul in cash than he probably expected. ON the 16th of April the grist mill in this village was shut down, in consequence of a sudden collapse at the south-west corner, so much of which fell down that had the machinery been kept in operation the rest of the building would probably have followed. Since that date, now nearly four months ago, not a pound of flour or a single grist has been ground in Fenelon Falls, and no information could be got as to when the old mill would probably be repaired or the new one fitted up and put in operation. Such a state of affairs of course could not be allowed to continue indefinitely, as it was a great injury to the village as well as to the neighboring farmers, and on Saturday last steps were taken to obtain redress. Copies of a petition to the Governor-General in council, setting forth our grievance and praying that a mill-race be cut around the locks were printed and circulated, and soon obtained a large number of signatures. Almost simultaneously with the appearance of the petition—but whether in consequence of it or not we cannot say—it was made known that the new mill, which was erected two years ago, was to be furnished with machinery and got ready for work as soon as possible, and we have since learned that operations are to be commenced next week. It is to have two runs of chopping stones, a run of chopping stones, and a set of patent rollers, to make flour by the new and improved process; but as the building is 46x30 feet and four stories high, there will be plenty of room for other machinery, which will be put in as soon as it is felt. The fact that the want of a grist mill is to be supplied at the earliest possible moment will not, however, prevent the presentation of the petition above mentioned; as, even should Mr. Smith's mill prove able to do the work of the country tributary to it, water power is wanted for other purposes, and should it be obtained, various desirable industries will soon be established in the village.—[Gazette.]

On Saturday morning a sad case of death by drowning occurred at Fenelon Falls. The victim of the accident was William Douglas, a resident of Peterborough, who was employed on Mr. Smith's drive. The men were engaged in running timber over the slide at Fenelon Falls. Mr. Douglas was on a crib, beneath the falls, in the eddy. The crib swung around in the water, and came close to the slide as some sticks of boom timber passed over it. The timber struck the crib, partially sinking it, and knocking Mr. Douglas off. Attempts to rescue him were unavailing. The eddy held him for some time, and he was seen to sink in the water, and his rescue was impossible. The body had not been recovered on Monday evening. Mr. Douglas leaves a wife and one child to mourn his sudden death. He has also a brother and other relatives living in Peterboro. ANOTHER ACCIDENT.—Another sad and fatal accident occurred Tuesday in Messrs. McArthur & Thomson's mill by which a young man named H. McDermaid, aged 12 years, came to a violent death. His foot somehow got caught in a loose belt used for turning a grindstone and which, revolving around, kept striking his head on the floor until his brains were battered out. The poor little fellow was of course killed instantaneously.

STILL THE BARGAINS LAST.

And how well they are appreciated can be told by the large quantities that are sold every day. Those who have not secured their supply of

GLASSWARE, CROCKERY AND CHINA

Will find it very much to their advantage to give us a call and find out prices and inspect the goods. They are decidedly the cheapest ever offered in the county. You will find it in GROCERIES the same. Three Carloads of RAW AND REFINED SUGARS to be sold at Lowest Living Prices. While the preserving season lasts we are offering special inducements. Teas, Sugars, Raisins, Currants, Rice, etc., etc., we buy at sufficiently low prices to compete with city quotations. Canned goods which are now in season we are making a specialty of. A call and inspection will convince the public that our prices are right.

A. CAMPBELL.
