H. GLADMAN, P. M.

Lindsay, July 17th, 1883.

Midland District Notes.

The canoe meeting at Stony Lake is a grand success.

Mr. John Hall, of Buckhorn, one of the oldest settlers in the district, died on Sunday last, aged 96 years.

Mr. W. A. Sanderson, captain of the Peterborough Lacrosse Club, offers a handsome cup for competition among junior clubs.

The Orange Young Britons of the Midland district have decided on holding a monster picnic at Port Hope on the 20th September. Invitations to take part are being sent to those connected with the organization in the localities surrounding.

On Friday Judson Bucknam, aged about twenty-three, had the misfortune to have his right hand cut off while working at the edger in Mr. Bradshaw's saw mill, Goodwood. He was head sawyer and has been employed there about eighteen months.

The Rev. J. A. Campbell, for the past two years pastor of the M. E. Church at Port Perry, died at Frankford, on Monday last, of typhoid fever. The deceased leaves a wife and five small children to mourn their loss. The remains were interred at Port Hope on Wednesday last.

They have brave fishermen in Port Hope. One of them sauntered to the old harbor last week and succeeded in landing a large bull head. He had probably never seen one of those beautiful fish before, and in terror he cut his line and took to his heels, leaving his catch wriggling on the ground behind him.

Mr. Matthew Cooper, a retired and respectable farmer, some three years ago made his home in Barrie. Since then, however, he has been the victim of misplaced confidence to the extent of some fourteen hundred dollars, and this, it seems, has decided him to sell his residence, shake the dust of Barrie off his feet, and betake himself to Thornton.

A recent visitor to the country north of this says he knows of no better evidence in favor of prohibition than a trip to Gravenhurst, Bracebridge and Killarney, where liquor is sold, and to Byng Inlet and French River, where it is not. Another tourist says that in the Algoma district he saw an Indian attending bar, and two of Mr. Mowat's magistrates drinking at it.

A boy named John A. Patterson, twelve years of age, was drowned on Tuesday week while bathing in the Don. He and a number of companions went to favorite bathing above the Necropolis. He was unable to swim, and venturing beyond his depth he sank. An effort was made by his fellows to bring him to shore, but in vain. Assistance was at once sent for, but before the body could be rescued life was extinct.

The prisoner Andrews appeared again on remand at the Toronto police court Wednesday week to answer two charges, one for the murder of James Maroney, and the other with shooting at P. C. Cuddy with intent to kill. He was remanded on both charges till the 22nd, as his counsel, Mr. McNille, was absent. He appeared somewhat uneasy in the dock at first, but on the whole he acted composedly and quietly enough. Andrews appears to have expressed to several on Wednesday his sorrow at having killed an unoffending man.

The last Canada Gazette contains the announcement that the camp for the third military district will be held at Cobourg on the 11th of September next. There will be present the Third Regiment of Cavalry, Kingston and Durham Field Batteries of Artillery, and the following regiments of infantry :—40th, Northumberland ; 46th, Durham ; 47th, Frontenac ; 48th, North Hastings ; 57th, Peterboro, and possibly the 16th. The camp will be held on the old race track, back of the Agricultural park, an excellent piece of ground for the purpose. There will be in camp in the neighborhood of 1,200 men, under command of that popular officer, Lieut. Col. Villiers. The brigade staff has not yet been nominated.

While enforcing the cow by-law at Peterborough the curious fact was developed that a cow cannot be impounded on Sunday—that is legally.

The largest part of the barley in this county has been housed without receiving a drop of rain on it. The yield is large and the sample excellent.

In Norwood, on Monday night last, some person or persons broke into Mr. W. Nicoll's blacksmith shop, and after upsetting things generally, decamped with a number of valuable tools and a coat belonging to F. Nicoll.

The fruit crop is fairly good in the vicinity of Stirling, plums, cherries, and other small fruit being quite plentiful. The hay crop is extraordinarily large ; oats will turn out well ; rye fair ; barley slightly below the average.

The potato crop in this section of the country seems to be struck with a deadly blight. The vines rot completely away, and in many instances the rot extends to the potato itself. The protracted wet weather is supposed to be the cause.

A sportsman named Gibb, of Campbellford, attempted to shoot a rat at the back door of the Windsor hotel, in that village, one day last week. He not only succeeded in killing the rat, but also brought down one of the servant girls, a few stray shots taking effect, but which fortunately did not inflict any serious wounds.

A movement is on foot to establish a post-office at Stone Mills, to be known as Glenora. The improvements at the new flouring mill, and the Spring Horse Shoe Company's works, now in course of construction gives the place the appearance of a veritable hum of industry. It is expected the company will commence the manufacture of horse shoes next week.

The case of Burton Bros. against the Midland railway company will come off at Barrie about the first of October. The company it appears entered into $10,000 bonds to erect a new station at the intersection of Midland Avenue and the railway within a specified time. The Messrs Burton claim that they lost heavily by the station not being put up, and have sued to recover the amount of the bond.

Harvest prospects in the neighborhood of Barrie and district are excellent. Oats will be a heavy crop, and beyond the average. One farmer stated that oats will be so plentiful as to only realize about 15 cents a bushel. Barley will also be a heavy crop, and spring wheat will turn out well. In some places fall wheat has the rust, but the yield will not be so bad as expected. Hay is in abundance everywhere.

It is with regret that we learn of the death of Mr. G. S. Climie, formerly editor and proprietor of the West Durham News, Bowmanville. Mr. Climie had been a sufferer from inflammatory rheumatism for years, having been confined at times for weeks to his room, and death at last ended his intense sufferings on Monday evening of last week. The funeral was a very large one, the printers of the town marching in front. Deceased leaves a wife and infant son.

A very severe thunder storm passed over Belleville Saturday morning. In Ameliasburg the barn of Nicholas Paterson was struck by lightning and burned, with the greater part of the season's crop ; loss about $2,000 insured for $300. The shed at the Centre church was also struck, but the damage was light. Mr. Jacob Wilson's house, near Rednorsville, was struck and slightly damaged, and an old lady in the house was prostrated. In the city Wm. Knight's house was struck and the shingles torn off the roof. The rain was very heavy.

Whatever little hope there may have been entertained as to the safe return of the young men McInnes and Allen, not a shred of it now remains. Cut off in the very flower of their youth, when life was brightest and the future full of fair promise to each of them, their fate is indeed a melancholy one. Public sympathy goes out to the bereaved parents and friends and grief-stricken kindred of the lost ones. Nothing remains to be done but to continue the sorrowful search for the bodies, and this is prosecuted regularly day by day, but up to the present time with nothing to reward the efforts of those engaged in it.

In referring to the benefits that will accrue from the construction of the Murray canal, the Oswego Times-Express says :—"No place, perhaps, has a more direct interest in the Murray canal, now in course of construction, than Oswego. The large trade this port has with the Bay of Quinte, gives the new work a local interest, shortening and facilitating as it will transportation between here and all ports located on the western end of the bay—Deseronto, Shannonville, Belleville and Trenton. It will also save a long stretch of dangerous navigation in the fall to vessels running up and down the lake between the Welland canal and St. Lawrence river."

A destructive fire broke out in Peterboro Friday morning in the pump factory of Messrs. Wright & Payton. When first seen, the flames were bursting from the roof, and before the fire could be subdued the building, which was a wooden one, was with its contents completely destroyed. Loss about $800 or $900, covered by insurance of $600. Thos. Desantel's blacksmith shop adjoining on the west was completely destroyed, loss $1,500, no insurance. The fire then extended to Moore & Son's marble works, and these were also destroyed, with a large share of their contents ; loss $1,800, insurance $600. M. A. A. Comstock's cabinet shop next to this was completely gutted ; loss $2,500, insured for $1,000. The buildings were owned by Mr. Geo. Taylor, and his loss is about $3,000 covered by insurance of $1,500. Materials are already laid down for the construction of the buildings.

Most people want to begin at the top. Instead of taking hold of the first piece of work that comes to hand, and driving it through as if it were the grandest thing they ever expected to do, they either decline it because it does not meet their tastes, or take no real interest in it. Their thoughts are so far in advance of what they are doing that the thing in hand is only half done. It is the use of the first opportunity that makes a second opportunity that makes the second opportunity, but thousands are waiting for the second to come first ; they are expecting miracles when they ought to be working along the normal line of success. It is the boy who takes a place in a country store and puts brains, strength and heart into the weighing of sugar and the measuring of potatoes, who finally sits down in his office in a great warehouse and telegraphs his orders to the ends of the earth ; the other boy, who wanted to be a great merchant, by omitting the sugar and potatoes continues in the obscurity of his native village. These small duties, these meagre opportunities, are training schools of success.

The telephone poles between Lindsay and Port Hope have all been erected, and the work of extending the wire is now in progress. When this has been done the company will begin the task of connecting Peterboro', making the connection at Downeyville.

Mr. John Buchanan met with a serious accident on the Ontario & Quebec railway. He was working on Roddy & Craig's contract and fell off a load of gravel in front of the cart, the wheels of which passed over his leg, causing a compound fracture below the knee.

During the absence of Mr. Joseph Symons, of Bethany, to market at Port Hope on Saturday, a couple of his children were out playing, when a boy of about five years of age chopped off two fingers of his little brother—a child about a year and a half old—one finger was completely severed and the other nearly so. Dr. Power was called who attended to the wounded child. It is thought one finger will be saved.

The children of Mr. Hector McNeil, of Woodville, came near meeting their death by poisoning on Monday last. The children while playing in the garden gathered the seeds of some poisonous plant and eating them were poisoned. By prompt attention, however, the little ones were saved. This should be a warning not to allow dangerous weeds to find a place in the garden and within the reach of the children.

The Brighton Ensign is responsible for the following :—"Mr. J. G. A. Wallace, one of our Brighton beekeepers, took the trouble to have the Lord's Prayer written on a piece of plain beeswax previous to its being put through his comb foundation machine, and a favorite motto on the other side. In twenty-four hours the bees had drawn out the cells, and now the words are distinctly visible on one side, while "God bless our home" may be seen as plainly on the other."

A melancholy accident occurred last Sunday in the township of Mara. It appears that Mr. Neil McKinnon's little son aged about two years, was playing around a well at a neighbor's house, Mr. Neil Morrison, when he accidentally fell in. When taken out life was extinct. The bereaved parents have the sympathy of the whole community, in their sad affliction. We understand this is the fourth in their family in a little over a year, three having died within a few days of each other with diptheria.

Irish Emigration.

For some time past the question of Government assisted Irish emigration to Canada, has occupied the serious consideration of the powers that be in the old country. Nothing definite, however, was done in the matter until last week, when, it is learned by late cable despatches, a special conference of the Government was held at the Mansion House. After a long discussion an elaborate scheme of assisted emigration was resolved upon, based upon the principles of the United States homestead laws. The details of the scheme are not yet ready to be placed before the public, but it has been decided to move from Ireland and settle in Canada 200,000 poor Irish in families, ten thousand families to average five persons each, aggregating 50,000 people. They will be moved next spring, and the transport will be continued as rapidly as the territory to be occupied can be got ready. Those to be moved next spring will, it is understood, be placed upon the lands offered by Chairman Stephens which the Government will accept. These lands will be divided into sections of 100 acres each, every section to be provided with buildings, equipments, animals, seed, and food necessary for beginning farming upon unbroken land. Each settler will be given his homestead free for the first three years ; after that he will be required to pay as rent three per cent. upon $500, but he may at any time get an absolute title upon payment of the latter sum. It has not yet been decided where the second fifty thousand emigrants will be located. It is stated that in order to overcome the certain opposition of the Parnelites the Government will hold out all possible inducements to the poor in the congested districts to freely enter into the Government's plans.

A Bigamist.

[From the Kingston News.]

Many citizens will remember George Newbold, who kept a boarding-house in Kingston on Bagot street, near the corner of Brock. He had a good reputation at that time and was a great revivalist and class leader in connection with one of the city churches. Since then, according to the Syracuse Herald, he has earned a different reputation. George Perry (alias Newbold) was arrested in Patterson, N. J., for bigamy, but escaped from the officers. Perry had been a travelling agent for the Prudential Insurance company of Newark, and clandestinely married a Miss Rolle, daughter of another employee of the company. After their marriage a postal card from Schenectady, directed to Perry, came into the hands of Mr. Rolle and led to an investigation. At Schenectady was found a lady, who it appears was married to Perry, who then went under the name of George H. Percy, of Watertown, N. Y., on the 5th of July, 1881. Her maiden name was Annie Henry, and she belongs to a highly respectable family, her father, who is now dead, having been a well known architect of that place. Miss Henry became acquainted with Perry or Percy, while both of them were engaged as solicitors for a publishing company. Miss Henry's friends objected to her marriage with Percy, but his persuasions carried the day, and she went to Watertown with him and was married.

Perry was arrested in Schenectady, Aug. 14, 1882, for forgery on a promissory note, and sent to the penitentiary in this city to await the action of the grand jury, and was released on the sheriff's order on Sept. 6, 1882. Perry is also said to have travelled under the aliases of Charles Perry, George Newbold, Charles Stewart, Henry Howard, George Benton and Charles Spencer. He has served two years and six months in Kingston prison for bigamy ; six months in the Central prison for horse stealing ; six months in Belleville goal for obtaining goods falsely, whence he ran away with the gaolor's wife after his time expired. Perry seduced and eloped with a respectable girl and left her at a boarding-house, where he played a desperate game to get her money, and concludes her brief sketch by charging Perry with being a "forger, robber, bigamist, horsethief, counterfeiter and everything bad," and declaring that he has seven wives, and will even marry the girl he has seduced, rather than lose her money.

Perry is of fine personal appearance. He is about five feet ten inches tall, weighs about 200 pounds and has a jet black moustache, with gracefully curved ends. He walks erect, and his whole appearance, style and carriage are such as would captivate the heart of almost any young lady.

Hotel Cards.

BENSON HOUSE,
The only first-class House in town, Kent street, Lindsay. Charges moderate. E. BENSON, Proprietor.

VEITCH'S HOTEL.
The only second class house in Lindsay. Corner of Kent and Cambridge streets. A first-class Veterinary Surgeon always in attendance. E. VEITCH, Proprietor.

Dentistry.

Something New in Dentistry.

ARTIFICIAL TEETH WITHOUT PLATES.

Gold Alloy Tooth Crowns equal to the Celebrated Richmond Crown at one half the cost.

Call at NEELANDS' DENTAL ROOMS and see the beautiful specimens of the *Patent Royal Compound Gold Alloy.* Nothing to equal it in Canada.

Teeth inserted on English Black, Red or Pink Rubber for those who desire it.

GAS.—Teeth positively extracted without a particle of pain. Mr. Neelands made a special study of this gas under Dr. Colton, of New York, the inventor of gas for extracting teeth without pain, who has given it to over 130,000 persons without an accident. Electricity and somnoline also used. Artificial teeth inserted from $10 to $60 for upper or under set.

OFFICE next door to R. Smyth's store. May be found at private residence after hours, Mill street, near Kent.

Persons from a distance will please send postal card before coming.

W. H. GROSS
DENTIST.
Nearly 23 years experience.
ENGLISH BLACK RUBBER PLATES.

Mr. Gross is using for his best dental plates Gold, Platina and Black Rubber, three of the most reliable materials now in use for the purpose. Mr. Gross uses the purest English Black Rubber, and never, during his experience of nearly twenty-three years, has he been so uniformly successful with any material. Black Rubber is non-irritant and non-conducting, and can not therefore produce congestion or any other disease of the mucous membrane of the mouth. Thousands of people who have been not only annoyed but actually tortured by the attempted use of red rubber and other poisonous plates are today wearing Black Rubber plates with pleasure, never before known in their experience with artificial teeth. An attempt is being made by a certain non-plussed dentist to force upon his patrons a humbug, called a "gold alloy plate." Do not be deceived by it. It is nothing new, but an old thing revived, and does not contain an atom of gold. Mr. Gross has a sample of the genuine article from which gold alloy plates are made, and any one can see it by calling at his office. He will make plates of what is called gold alloy or of red rubber for persons who want such plates after their poisonous nature has been fully explained. If you are about getting artificial teeth and want something that is good, and that will stand the test, get them made on Gold, Platina or Black Rubber, and you will have no cause for regret. In some respects the Black Rubber is superior to either of the metals named and can be furnished at about one-fourth their price. A full upper or under set of teeth from $9 to $66. Mr. Gross is using *Liquified Nitrous Oxide Gas*, the purest, safest and most reliable form of gas in use. Electricity successfully used. The natural teeth preserved by filling and fillings guaranteed for five years. Mr. Gross will take pleasure in explaining everything to persons who call for information. His rooms are over Kennedy's store, Kent street. Residence, Russell street.

Professional Cards.
