ARE STILL GOING AT HALF THEIR VALUE, AND WILL CONTINUE COING AT RUINOUS FIGURES UNTIL THEY ARE GONE AT ANY SACRIFICE.

When the announcement was made 30 days ago that I was retiring from business there were many who were inclined to doubt the truth of the statement, and their doubt is not to be wondered at when we take into consideration the number of so-called "Clearing Sales" which have been announced from time to time during the past few years for the purpose of catching a little stray trade and working off a little surplus stock, but which proved on investigation to be only catch-penny frauds. However, a portion of the public with a keen lookout for their own interests, have found by glad experience that they have at last found a Genuine Clearing Sale, not one where the object is to clear off a few surplus goods, but to

## Clear out the whole "Caboodle" from stem to stern.

Goods have been selling during the last 30 days at prices which they who have not seen would never dream of, and DURING THE NEXT 30 DAYS they will Sell at Prices which will Knock the Cobwebs Off the Eyes of the Skeptics and Open the Shells of the Clams, revealing the fact that they have been standing in their own light and missing golden opportunities of securing bargains.

READER, this concerns you as much as it concerns me, and a single visit will save you money, and convince you that the goods have got to go.
