As Mr. E. Flood is leaving Lindsay, he advertises his house for sale. See adv't elsewhere.

A fire run on Ferris's Pine Tar coal. That well known remedy for coughs and colds, every body recommends it.—35-3.

A summary of the directors of the Lindsay central agricultural association will be held to-morrow (Saturday), to wind up the season's business.

The correspondence from Little Britain and Lorneville got hopelessly mixed last week owing to the carelessness of the post office in making up the forms. It was no doubt a bore to our readers in these places.

The memorial convention of the united bodies forming the Methodist church, took place in the basement of the church Tuesday. The attendance was fair and the proceedings were both interesting and instructive. Several very happy addresses were given by the ministers and laymen present.

Excursion.—Miss Churchill, the famous elocutionist of Boston, will read the High School literary society, in the opera house on Tuesday evening, Nov. 13th. This will probably be the only opportunity offered to the people of Lindsay of hearing a first class elocutionist this season. It is intended to devote the proceeds to the purchase of an organ for the use of the society.

At the next regular meeting of the town council there will be great times. Part of the business to be transacted is the appointment of the town constable and as there will be undoubtedly be numerous applications this will be a matter of some difficulty. Among others Mr. S. Peck will be an applicant. Mr. S. Peck and others. Mr. Brantburn's cow by-law will also be up for discussion on its third and last reading.

AND now it appears Mr. Charles Veitch is the next one to join the grand army of beneficiaries and very quickly he did. He arrived home with Mrs. Veitch, nee Miss Slack, of Rochester, N.Y., Friday evening, and is now receiving congratulations. He will also please accept ours.

By-the-way, another wedding comes off somewhere round that corner very soon, judging from what we see and hear. It is to occur on Thanksgiving day and the young gentleman interested will please accept this intimation that we are fully posted although not bidden to the wedding.

THURSDAY night of last week the gas became subject to some freak or other, and after a slight flickering for some minutes every light suddenly disappeared.

The cause was unexplainable for some time as it was supposed an extra quantity had been put on especially for the benefit of the Salvation army and our very gassy contemporary the Post. We did not hear exactly what the trouble was, but it must have been either a leak somewhere or some one meanly let off the gas somewhere or in some manner that he should not have done, there being it is said about 12,000 feet of gas in the holder and on no occasion with the exception of Saturday night is the quantity used more than 7,000 feet.

CREDITABLY PASSED.—Our young friend Mr. Daniel J. Scully, last week presented himself for matriculation in medicine at McGill college, Montreal, and passed his examination very successfully. The subjects for examination were chemistry, Latin, mathematics, etc., and his average percentage of the whole was 88. Out of two hundred and seventy-eight candidates he had been put on especially for the benefit of the Salvation army and our very gassy contemporary the Post. We did not hear exactly what the trouble was, but it must have been either a leak somewhere or some one meanly let off the gas somewhere or in some manner that he should not have done, there being it is said about 12,000 feet of gas in the holder and on no occasion with the exception of Saturday night is the quantity used more than 7,000 feet.

NOVEL ADVERTISING.—Mr. Wm. Heaford, agent of the Chicago, Milwaukee and St. Paul railway, visited this town Monday, with his railway car of Dakota exhibits. These were composed of grain, cereals, pumpkins, etc., other products from Dakota farms arranged in the most approved manner to take the eye and tickle the fancy of all farmers who are thinking of making that bleak country their future home. But the "show" was a good one undoubtedly, and if all the exhibits from Dakota are as alleged there must be some fertile lands therein, as well as some sheltered nooks from the northern blizzards. Mr. S. S. Peck should have borrowed the car load for a short time to show his friends round the Minnie and estate the fertility of his own "estate" there. They then might have some hopes that at some time in the remote future there would be a possibility of his paying back to the county the amount of money he so heartily put in his pocket at the time he was most in need of the facilities of the county and develops the new parts of the district.

PRESENTATION OF COLORS.—Lindsay had a visit last week from several of the most distinguished officers in the Salvation army. They arrived by the train from Toronto on Thursday, where a portion of the local regiment met on hand to welcome them. The visiting party included Major Moore, of Brooklyn, N.Y., Captain Wess of Toronto, chief officer in Canada; Captain Happy Bill Cooper, of London and Captain Laidgate of Hamilton. The following female officers also accompanied them: Captain Hall, of Toronto; Captain Abbie Thompson, of Kingston; Captain Nellie Ryerson, of Belleville, and Miss Annie Moore, daughter of the gallant major. As soon as all had alighted, the regiment formed and marched down to the barracks on William street, the host singing meanwhile and the major performing certain evolutions with his lower extremities round the staff-ward form of another officer, whose arm he was holding. What this practicing round was intended for we did not learn, but it was doubtless either for the purpose of heating time for the singers or of attracting the attention of wayward sinners while the army was on route. In the afternoon a grand reunion took place, after which with banners flying, the whole army marched through the streets led by the major and the local captain, followed by a large concourse of people and a fair sprinkling of the small boy in advance. When these courses had been given through with a march was made again to the barracks, where the "rations" were served out and a general time of feasting indulged in. The "big meeting" as it was called was held in the Methodist church building, where various addresses were delivered by the major, captain and other officers, of a more or less pleasing nature. The "step against the devil" it was promised should never be withdrawn till they had him once more captured and presented against all the sins of the flesh. At 10 o'clock the procession reformed and a march was made to the barracks, where the devotional exercises were kept up till the following morning. Bell's has now very tastefully decorated in honor of the visitors, both with evergreens and bunting, and all arrangements for the comfort of the public were well carried out.

Fresh bread and buns made daily at Hickey's.

A large supply of oranges, lemons, dates, nuts, etc., at Hickey's.

200 trimmed hats and bonnets at 25c. on the dollar, at Weese's clearing sale.

The shute question will soon begin to be an important one in the eyes of the small boys.

The season has arrived when the careful householder thinks about "banking up" his house.

It is expected that the Ontario and Quebec track will be completed to the bridge over the Midland near Bethany this week.

STOCKS to rent—Weese's stand—apply on the premises. As Mr. giving the rent will rent as soon as he can clear out his stock.

Mr. Lyness preached very acceptably in the little Methodist church in the east ward Sunday evening. This gentleman is always found where earnest assistance is wanted.

The literary sittings did not amount to much this time, there being only two cases of an unimportant nature. The court adjourned in less than two hours after commencement.

Two elegant cats with a fiddle between them, is the latest acquisition to Messrs. Dyer & Dyer's window. The expression of each while listening to the supposed music is sublime.

Mrs. Jewett has decided to give up business and therefore offers her stock and store fixtures at a bargain. This is a good opportunity for anyone thinking of starting into business, especially as a lease of the building can also be obtained.

Mr. S. Byrne has his new boot and shoe store in good trim and it is as neat a looking store as to be found on Kent St. The arrangement of the window could not be better. Since beginning business here Mr. Byrne has lastly improved his business connections, till now he has a good trade.

136,613.—One hundred and thirty-six thousand six hundred and thirteen, Dr. Colton of New York the inventor of gas for extracting teeth without pain writes, Oct. 18th, 1883, to J. Neelands, dentist, that he has given the gas to the above number of persons without an accident.

Mr. Neelands gives the same kind of gas and made a study of it under Dr. Colton.

Ms. W. W. Logan is meeting with great success in the sale of his organs and other musical instruments. His Dominion organs from Bowmanville and the Doherty of Clinton are special favorites and are always found the full value paid for them. Both these organs were on exhibition at the fair and as all who heard them can testify no others could equal them. Those intending to purchase an organ should call or send in their address to Mr. Logan.

On Monday evening a football club was organized in connection with the provincial football association by the high school. Following are the officers: President, Mr. Tiley; vice, Mr. Irwin; secretary, Mr. Dunn; captain, Mr. Lees. The managing committee consists of Messrs. Hallett, A. S. Tiley and S. Smith. Practising is to commence at once, and it is to be hoped the record will be as good as the cricket and base ball clubs have been.

The Jubilee Singers who appear here Tuesday, under the auspices of St. Andrew's church, promise to give even a better programme than usual, judging from the one we have seen. They are from the one we have seen. They are from the one we have seen. They are from the one we have seen.

A few days ago a very severe accident happened to a niece of Mr. Geo. Coombes. It appears that she and Minnie McHugh, while on their way home from school thought they would have a ride. A farmer was passing, and Minnie McHugh succeeded in getting into his wagon, but her less fortunate companion fell and her leg was caught and crushed between the hub of the wheels and the bolster of the wagon, almost tearing away the calf of the leg. The poor child was carried into Mr. Frank Curran's and Dr. Coulter immediately sent for who dressed the wounds. It will probably be a long time before she recovers the use of the limb.

In reviewing the different agricultural fairs held in this district and the almost total failure of the west Peterborough fair to the Lindsay exhibition: "When it comes to be compared to the central exhibition recently held at Lindsay the contrast becomes painfully and humiliatingly distinct. The Lindsay exhibition was a signal success, and was an agricultural exposition in a great credit to the enterprise of Lindsay and Victoria county. Now, if a town like Lindsay can successfully promote and manage to a successful issue an exhibition like that, what could be done in Peterborough, a town with nearly twice the population and a large area of magnificent agricultural country within the county? The reason is they have not as live men in Peterborough as we have in Victoria.

THE METHODIST CHURCH.—The following notice appears in the Canada Gazette of Saturday last: "Notice is hereby given that an application will be made to the Parliament of Canada, at the next sitting thereof, for an Act to incorporate the Methodist Church of Canada, the Methodist Episcopal Church in Canada, the Primitive Methodist Church in Canada, and the Bible Christians, under the name of 'The Methodist Church,' on the basis of union adopted by the said four denominations and the rules, regulations and discipline also adopted by the said four denominations in a general convention or conference assembled at the town of Belleville on the fifth day of September, 1883, and to ratify the said union and confer on the said Church such further powers as may be necessary to complete and carry into effect the said union."

THE BISHOP OF TORONTO while discharging his ecclesiastical duties in the north this week appears to have met some what serious mishaps. In leaving Peterborough on Monday, where he had been holding confirmation services the day previous, he started out with the intention to proceed to Head Lake in Laxton. In the afternoon he left the latter place in company with the missionary to drive to a meeting at Head Lake, a distance of 47 miles. Night came on while they were in a wild country district, some miles from their destination, and the trail not being a good one the travellers raised great rocks and fallen trees, the horses plunged, and to add to the misfortunes of the bishop and his companion the only lamp which they had with them persistently refused to burn after it had been lit a quarter of an hour. They had only one candle in their possession, but this did not avail them much in the predicament. After wandering round two or three hours, and it began to appear as if the night would have to be spent in the woods, the track in the morning struck upon a road and the journey resumed. Bexley was reached about half-past nine o'clock, fully two hours after the meeting there should have commenced.

Again the City Store

TO THE FRONT.

Nobody knows how we do it. Wet or dry we have the customers, but then we have the goods and prices to suit. We make a specialty of our business, and ladies who buy for cash will find it greatly to their advantage to buy from the City Store, which for good value and choice goods is a bye word throughout the county. Our Millinery Rooms are well worth inspecting, as we introduce both elegance, style, economy and novelty in our productions. We show a stock of Mantles which for style, value and richness is second to none. We also offer the finest and largest assortment of Ladies' Fur Mantles—every mantle guaranteed to be the best of its respective kind and the workmanship thorough in every respect. Every mantle we sold last year is giving perfect satisfaction and turning out exactly as they were represented. We also insure every Astrachan, Persian or Seal Mantle from destruction by moths for 5 years. Ladies' Fur Sets in all the popular furs at very low prices. Referring to Dress Goods—To our patrons who bought from us last autumn we beg to say that we have secured a repeat of the same line which was so popular, and proved to be so durable. Everybody who had a chance then bought, and will be doubly so this season, as the same customers have been inquiring again. What better recommendation can we offer for your patronage.
