LOCAL JOTTINGS.

URBAN AND SUBURBAN.

UNDERSHIRT and drawers 40c. each at Graham's. Just arrived, salmon, white fish and herring; all A 1 at A. Campbell's.—88. A big run on Ferrin's Pine Tar Cordial. That will know remedy for coughs and colds, every body recommends it.—88-8. WINTER'S bill porter will run for aldermanic honors next year. Bob. Brown should take the hint.

The wet gloomy weather of the forepart of this week, has thrown a slight damper on business, but as the time for freezing up will soon arrive, a revival will be in order. Business everywhere, however, has not opened out as it should, and Lindsay is no exception.

Improvements and repairs on the Lindsay block on William street are now being actively prosecuted, and all work is to be finished if possible before the winter sets in. The buildings are to be made higher and are to have a mansard roof. When completed they will be an desirable residence as are to be in town.

Frozen candies made daily at Highgate. Six yards red flannel for \$1.50 at Graham's.

Coopers' meeting on Monday next. It is expected to be a busy one. Overseas, confectionery and all kinds of pastry constantly on hand at Soanes'.

A LARGE number of people from the country were noticed at the funeral of the late Mr. Rowell.

ANOTHER lot of that cheap glassware to arrive next week. Ask for 25c. bread plates at Campbell's.—88.

NOTES BOUGHT, money lent on notes. Greenbacks exchanged. Mortgages negotiated. O. Brough—1077-11

Soanes' sole agent for the Li-quo-r Tea, a handsome book given with every three cups.

Business here has been plentiful and destructive in North Vernon, of late that the farmers have to house their sheep at night.

QUAIL shooting has begun and sportsmen report the game plentiful in certain secluded spots the location of which none are familiar with but themselves.

Orders to the railway amongst the cloth factories, have succeeded in getting ten bales (ten thousand yards), which I can and will sell less than regular wholesale price. James Graham.

Mr. Soanes has opened a restaurant in connection with his fruit and confectionery store, and is prepared to sell oysters in bulk or by the plate. Those wishing a good plate of oysters any evening should give him a call.

NAVIGATION on the Senegal is about ended for the season, the only regular boat on the waters being the Beauvoisine, between Lindsay and Kobovogon. A good deal of freight is still going through to Kobovogon, but the passenger traffic is small compared with what it was during the summer months.

The Baptist church has been improved by a new foundation and other repairs, ready for the winter season. This church is not large, but the congregation is increasing under the pastoral care of Rev. Mr. Anderson, and we doubt if a newer or more comfortable little church is to be found anywhere, or one which the members thereof take greater pride in keeping up.

"Why does not a greater number of boys learn trades?" asks the Toronto Telegram. Because their parents want them to engage in what is idiotically thought to be more genteel employment. Why it should be considered more decent to starve at measuring tape than to live comfortably at making machinery or following a plow is past finding out.

The funeral of the late Geo. Bremner, traveller for Gordon & McKay, and well known to nearly all the business men of Lindsay, took place in Toronto, Friday, the 29th ult. A large number of his late friends from the country attended, and several from the district. He was one of the most popular travellers on the road.

The only case in the police court this week was that of John Green charged with acting disorderly on Sunday, and who was arraigned and fined Tuesday. The prisoner appears to have given considerable trouble to constable Bryant, who arrested him, and considerable difficulty occurred in taking him to the station house, owing to the interference of some acquaintances, but he was ultimately taken in charge by the constable and marched off. He will likely be more careful how he conducts himself on Sunday in future, especially when constable Bryant is around.

The Dominion Oddfellow, for the past two and a half years published at Napanea, and which has proved so very successful as a society paper, has been sold to Mr. J. C. Jamieson, of Belleville, (manager of the Intelligencer), and will be removed to the city about the first of December, where with a complete new outfit, the publication will be continued. Till then it will be issued from Napanea. Bro. W. C. Scott, will retain the editorial management, and will from time to time visit throughout the jurisdiction, as he has been in the habit of doing.

The steps at the entrance of the main hallway to the police court and town hall have been repaired and adorned with an elegant coat of paint. A new piece of sidewalk has also been laid to that on the street, all of which adds much to the appearance of the town. When a new window is put in the council chamber just back from the mayor's head the job will be complete. But then who will submit to so much extravagance as a new window pane, the re-hanging of the council door and the new steps to the police court? Our word for it there will be trouble next election time.

JOHNSTON VS. MILLS.—This was an action brought by Thos. Johnston of Fenelon Falls, against Wm. Mills of same place, for alleged trespass of a portion of land which the said Johnston contended he had bought with other lands from Wm. Johnston. The defence was that the said land had been set apart for and used as a street for many years. The case was heard at last sittings of assize here and judgment was reserved. Full particulars appeared in these columns at that time. Judgment has since been given for the defendant with his costs in full. Messrs. Hudspeth & Jackson, for plaintiff; Messrs. Martin & Hopkins for defendant.

The committee appointed by the council to receive and report on the applications for chief constable met Tuesday and agreed to recommend the names of four candidates as suitable in their opinion—two applications from residents in town and two from outside. There were in all eighteen applications, the majority of whom were experienced men in the avocation. Of the four recommended we did not hear which was the more popular with the committee nor which one of the four will be likely to receive the appointment. The committee will lay the report on Monday evening, and is all probability the chief will be the individual most highly recommended by the committee.

The general opinion that Mr. Douglas, formerly chief constable here, but now of Port Hope, was an applicant, is incorrect.

"At Rest."—A somewhat amusing story comes from our neighboring town of Peterborough. A correspondent has written us that, "A newly married couple, who were enjoying themselves in seeing the various attractions of the town, strolled hand in hand down our principal streets, taking in the candy shops, and admiring the displays of goods in the different windows. Coming to a shop in which a couple of handsome gentlemen were exhibiting, they stood in wrapt admiration, and finally concluded that they would invest. Stepping inside, they blushing asked the polite and persuasive attendant the cost of the night-crowns shown in the window. The saleswoman was surprised, but took in the situation very readily, and named the price. The couple conversed in a whisper, smiled, blushed again, and finally the purchase was made and the two departed, happy in the possession of what they imagined were night-crowns, but which were shrouds, as the shop was an undertaker's. The wife's choice was decorated with the legend 'At Rest.'"

The low prices draw the crowd at Graham's.

Go to Hickey's for fine cakes and pastry.

Fishes on hand at Mrs. R. F. Jewett's.—81.

Frozen buns and pastry made every day at Soanes'.—82.

Come and try our 25c. Japan tea, the best value yet offered. At A. Campbell.

The Salvation army attended on mass the funeral of Mr. Robert Reynolds, Jr., who was buried Tuesday from his father's residence in Ops.

A GRAND international conference of Oddfellow-ship, at which will be settled many important questions concerning heads of cases, the best methods of dealing without ballots, and the latest modes in getting. It will be held at Lindsay, Nov. 10th.

The fairs are over, the pumpkins are being gathered into barns, and the apples in the bins, the nuts stored in the garrets, and the cider ripening in the barrels, and it would seem as if there was a round lot of prospective comfort amid the snows of winter.

The poultry season is evidently commencing and turkey heads are now in danger. Geese are selling at good prices but as the nights get darker the supply will likely be larger and consequently cheaper. The same may be said of chicken roosters.

Roads are bad and grain is slow coming in. Farmers are already beginning to wish for sleighing, or at all events cold and steadier weather. Fall ploughing is about completed and the potatoes and turnips are dug and stored away.

A serious collision occurred on the Grand Junction branch of the Midland, a few days ago. Three or four employees were more or less injured, and several cars with two locomotives were seriously used up. The pecuniary loss is also heavy. An investigation as to the cause of the accident is to be held.

The Sabbath school convention at Cobourg, just closed, was an important and interesting gathering and will do much to assist the Sabbath school work throughout the province. The delegates from Lindsay were Mrs. Tilley and Miss Zetta Bigelow. Mr. E. Gregory was also appointed but was unable to leave home.

Mrs. Jewett has sold out her business to Mrs. Church, formerly of Fort Hope, and retires once more into private life. Mrs. Church will, we trust, do a good business and meet with the same success as Mrs. Jewett has done. All the varied departments of the business will be kept up as efficiently as formerly and anything required by the public in this line will be obtainable.

The Lindsay central exhibition was a success financially and after meeting all liabilities it is said there will yet be a balance. This we are glad to hear, for it will encourage the directors to get up a still better exhibition for next season, and will induce many who had doubts to tender more assistance next year and so make it still more worthy the efforts of all exhibitors and those who attend agricultural fairs.

DURING the past week the bank of Montreal and the Federal bank declared half yearly dividends of 5 per cent; the bank of Commerce, 4 per cent; the Merchants', Ville Marie, Hamilton, Jacques Cartier, Quebec, 3 1/2 per cent; the Ontario one of 3 per cent. Concurrent with the declaration of dividends is a decline in every bank stock on the list, the two 10 per cents going off more than any the rest.

WEDNESDAY evening was hallow'en and as usual the boys indulged in sundry pranks of a more or less harmless nature. The amount of hard work a boy will go through on hallow'en night for the sake of mischief is almost incredible, and especially considering the delicate nature of his constitution when confronted with his mother's wood pile or any slight manual labor his father desires done. But still boys like fun no matter what labor may be connected with it, and so long as they do not neglect their studies, and avoid vicious tricks will no doubt be tolerated.

The testing of the new Midland railway bridge over the Senogog was made Tuesday in the presence of the engineer, contractors and others. It was found satisfactory in all respects, and carried the heavy engines and cars without a quiver. Messrs. McNeill's Works have in this connection made a good piece of work both in bridge building and the branch track, whatever difficulties they may have had to contend with, by reason of unseasonable weather and the many little annoyances which always fall to the lot of railway contractors and bridge builders.

FROM the Mail we see that Mr. R. Wilkinson, gardener, of Lindsay, and his wife are witnesses in a case between the Montreal Witness and the Allan line of steamships. They do not point the steamer accommodation of an ocean steamer in very glowing colors, and from what we could see by the report their evidence should not be shaken much by opposing counsel. If this libel case is the means of making steamship owners more careful in their accommodations to steerage passengers, the Witness will have done good service, as for many years complaints from emigrants have been more or less frequent, not only by one line of boats, but nearly all of them.

FIRE.—Two fires occurred Thursday night last week. The first one was the residence of Mr. Conroy, near the swing bridge. The fire broke out about nine o'clock in the evening and quickly demolished the building and destroying the larger part of the contents in town. The loss is estimated at \$1000. The furniture \$100. Soon after midnight an unoccupied house belonging to the Midland railway company, and formerly occupied by some one named Rogers, was discovered to be on fire and was soon burned to the ground. This looked very much like an incendiary fire, as no one had been seen near the premises for some days before. We did not hear if there was any insurance on the building.

The funeral of the late Mr. David Rowan, the postmaster at Bethany, and a prominent member of the Lindsay lodge of Oddfellows, took place Tuesday, with the imposing ceremonies of Oddfellowship and Orange honors, of which order he was also a member. The funeral took place at 10 o'clock and was accompanied by the Independent band, and was held at Bethany in the Orange lodge of Massey. The funeral obsequies were first conducted by the Rev. Mr. Hickey minister, followed by the Rev. of Oddfellowship and conducted by Mr. Giles and Mr. Dunca Ray, then by the grand master and chaplain of the Orange societies. The funeral was the largest and most imposing that ever took place in Bethany, and the sorrowful demeanor of those taking part in the ceremonies told only too plainly the pain they felt at the departure of their late brother.

Mr. Rowan was only 35 years of age, but was one of the best known and most popular gentlemen in his district. For several years he had been postmaster of Bethany and took an active interest in all matters likely to benefit his village or fellow-men. He will be much missed for some time.

Frozen bread and buns made daily at Hickey's.

A GREAT supply of oranges, lemons, dates, nuts, etc., at Hickey's.

Invited mention, the finest stock at 25 per cent. discount at Graham's.

REMEMBER the entertainment by the Fisk Jubilee singers Tuesday evening, in the opera house. They are well worth hearing for no better counter singers ever visited Lindsay. R. S. Porter will reserve seats upon application.

Mr. Jno. Morrison not having disposed of his cows, sheep, new sulkey horse rack, plough, etc., offers them by private sale on terms to suit purchasers. He offers seven cows, five new giving milk. Those interested, good cows or sheep should see Mr. Morrison.

THE Fendall Falls Gazette says that Mr. J. Sandford recently purchased a grain crusher from the Sylvester works and which works admirably. It will crush or chop any kind of coarse grain at the rate of from thirty to forty bushels per hour, and farmers can now get their big and cattle feed prepared without having to go to Cobocook or Lindsay.

At the annual meeting of the Executive of the Y. M. C. A. for Canada arrangements were made for holding three conferences, Lindsay, for the Province of Quebec, at Sherbrooke, from the 15th to the 18th of November; second, for Eastern Ontario, at Perth, from the 30th of November to the 2nd of December. The place and date for the third has not been fixed.

FROM several huge and suspicious looking barrels arriving at Messrs. Campbell's, Keghley's and other grocery merchants, there is little doubt that preparations are already being made for the Christmas trade, and another couple of weeks will witness a grand display in the stores, and farmers can now get their big and cattle feed prepared without having to go to Cobocook or Lindsay.

FREDAY morning the youngest child of Mr. Sam, late chief constable, accidentally swallowed a cent, and for a time became nearly choked. Dr. Kemp was called in, but in the meantime the cent had passed farther down and although every effort was made, it has so far not been removed from the stomach. The child appears to be passably well under it, but has to be fed continuously on soft food. The doctor appears to think that no serious results are likely to follow and that before long he may be enabled to relieve the little sufferer of the undesirable mouthful.

THE death of Mr. A. Wilson, son of Mr. Jno. Wilson, of Massey, occurred last week from typhoid fever. The deceased young man was a member of the Oddfellow's lodge of this town and was well known to many in Lindsay. For some years he had been a teacher, but at his death was just finishing his course in the Toronto school of medicine. He was very fond of athletic sports and sometimes won several prizes as a sprinter. The interment took place at Graham's cemetery, near Bethany, followed by a long procession of friends and acquaintances, as well as many members of the Lindsay lodge of Oddfellows.

A DUBLIN barber supplies liquid refreshment to the victim in the chair without charge. With it goes a glass of whiskey, and with the more delicate and complex operation of hair cutting a full bottle of stout. The first effect of this novel experiment in trade was the promotion of habits of cleanliness among his regular customers. These have been shaved twice a week now dropped into the chair twice a day and hair that had once been allowed to grow in tangled luxuriance was trimmed as often as once a week. Here is an opportunity for our local barbers to learn the trade. They would have plenty of customers if not the profits.

HIS NAME.—The full name and title of the marquis of Lansdowne, in addition to his official title as governor-general of Canada and vice-admiral of the same, is his Excellency the most honorable Henry Charles Keith Petty-Fitzmaurice, marquis of Lansdowne, in the county of Somerset, earl of Wycombe, of Chipping Wycombe, in the county of Bucks, viscount Cain and Clanstone in the county of Wilt, and comes in the county of Bucks, in the peerage of Great Britain; earl of Kerry and earl Shelburne, viscount Clannamurra, and Fitzmaurice, baron of Kerry, Lixnaw, and Dunkerron, in the peerage of Ireland. Our readers desiring to write to the noble marquis will remember this in addressing their letters, otherwise they might go astray.

THE saw mill of Mr. S. Parkin shut down for the season Tuesday, having done a large amount of work. That evening Mr. Parkin treated all his employees in the mill to a well prepared supper at Haslam's hotel in honor of the event and as a recognition of the faithful service by each and every man and boy round the mill. As he informed them each one had faithfully performed his duties and been steady and reliable throughout, and it was only by this means so good a summer's work had been done. He further said no staidier lot of men could be found anywhere than those who were with him then, and he wished them good luck and all prosperity wherever they might go. Songs and songs followed, and after a very pleasant evening all separated in the best of humor. Most of Mr. Parkin's men are going to the woods, where they will get out the timber for next season's operations, of which there will be a heavy cut if the winter proves favorable.

LINDSAY CENTRAL.—A meeting of the Directors of the Lindsay Central was held in the town hall, Saturday. Members present: Messrs. Jno. Connolly, President; Col. Deacon, D. Scully, R. Willock, W. E. Swain, Wm. McBurney, Donald Grant, I. W. Ray, W. M. Robinson, and E. Shine. Minutes of former meeting read and approved. Mr. Grant moved, seconded by Mr. McBurney, that the protest of Mr. E. Edgerton respecting a prize for a colt be not entertained.—Carried. Mr. D. Scully moved, seconded by Mr. Willock, that the decision of the judges be sustained in the matter of Mr. W. B. Feir.—Carried. Col. Deacon moved, seconded by Mr. W. M. Robinson, that Mr. W. E. Swain receive the second prize for crab apples.—Carried. On motion of Col. Deacon, seconded by Mr. Reid, the treasurer was instructed to place in deposit in one of the banks at interest such surplus money as he may have in hand.—Carried. Also in connection with the extra services of the Secretary-treasurer, Col. Deacon moved, seconded by Mr. Grant, that the salary for the current year be fixed at \$100.—Carried. On motion of Col. Deacon, seconded by Mr. W. M. Robinson, one cent over stock collections made in the town of Lindsay be paid to Mr. Reid in consideration of his services in collecting.—Carried. Mr. Grant moved, seconded by Mr. Reid, that the directors of this society be to place on record a cordial expression of thanks to the merchants of Lindsay for their contributions to the exhibit at the recent exhibition; and that the thanks of the society be and is hereby tendered to the gentlemen who have contributed so handsomely to the fund of the society.—Carried. The meeting then adjourned.

THE CITY STORE Dry Goods & Clothing Syndicate, Lindsay

LADIES,

To dress neatly and tastefully ought to be part of every person's education. This habit acquired in early youth is apt to accompany one through life. Every one who is interested in the beautiful can surely spare a fragment of time and look in on us. The longer the stay the better assurance you will have that we are in advance, and that your interests, whether it be as regards ultimate good taste in dressing or the truest economy, will be subserved by favoring us with your patronage.
