Which are marked at the

LOWEST LIVING PROFIT.

Call and inspect.

G. A. GIBSON,

Third door west of McCormick's Hotel, Kent St., Lindsay.

Midland District Notes.

(Continued from sixth page.)

Col. Allen, in command of the 20th Battalion, Lorne Rifles, Aetion, a short time ago received from the Marquis of Lorne a photograph of himself, and another of Princess Louise.

Business at Port Arthur and all along the north shore of Lake Superior is reported booming. The whole coast is one busy line of contractors getting in supplies for the C. P. R.

Judge Gowan, of Barrie, was presented on Tuesday of last week with an address and a handsome piece of plate by the county officials, previous to his departure for France, where he will spend the winter.

A young lady named Stevens, residing at Delta, sued a man named Darling, of Lenoirville, for breach of promise, damages set down at \$5,000. At the Brockville assizes the case was settled by the payment of \$800 and the costs, which totalled nearly \$900.

Mr. W. H. Davis, of Midland, purchased from Mr. J. Freeborn, three-quarters of a pound of a new variety of potatoes, called the early rock, and planted them about the middle of May. They were taken out of the ground on Saturday, and fifty pounds of potatoes was the yield.

A meeting of the ratepayers of the north riding of York was held in the Newmarket town hall on Tuesday afternoon of last week, at which resolutions were passed in favor of separation from the city of Toronto, and the formation of the riding into a separate municipality for municipal and judicial purposes.

Hanlan has all but fully made up his mind to visit Australia this winter, starting the middle of next month. He has received gratifying assurances of the confidence of the people on the antipodean continent. Several gentlemen have offered to fund the money necessary to back him against all and every comer.

The Salvation Army troubles at Kingston ended Friday, Capt. Abbie making some of the concessions asked for. The books were thrown open for inspection of the disaffected sergeants. A new outbreak then occurred in consequence of the captain demanding a public repentance of the young men, to which they will not consent.

For some time the work of Midland parish has been too much for the Rev. Father Labouren and a division has been decided upon. Father Labouren will take charge of Penetang and Port Severn, and Father Lennie, of St. Peter's parish, Toronto, will have in his charge Midland, Victoria Harbor and Waukenahe.

The closing meeting of the Eastern District Association of Congregational ministers was held on Tuesday night of last week at Belleville, when addresses were delivered by Rev. H. Peasley, of Cobourg; Rev. S. N. Jackson, of Kingston; Rev. John Hurion, of Toronto; and Rev. D. Mitchell, of Belleville. The next annual meeting will be held in Kingston.

A short time ago the Ontario Bureau of Industries sent circulars to farmers throughout the province as to the condition of the crops, and from a partial examination of the replies received so far the damage from rust to the wheat crop has been much greater than anticipated, chiefly in Western Ontario. The crops on the whole are not up to the average of former years. The fruit crop is very poor in most sections. Full returns will be issued in a fortnight.

The town of Pembroke, Ont., is supposed to be much excited over an event which occurred there last June, and which was in connection with a motion before Chief Justice Wilson at Ottawa Hall last week. It appears that a band of sixteen musicians were "doing" the streets of Pembroke one night in June, and were marching four abreast in such a manner as to occupy the whole width of the street. They marched unopposed until they were met by a carriage belonging to Mr. Dunlop, a retired farmer, living near Pembroke, which carriage contained five young ladies, and was driven by Mr. Dunlop's man servant. The bandmen, it is said, when the carriage attempted to penetrate their ranks crowded about it, threatened to

have the occupants arrested and fined for opposing the march of the band, and were the length of seizing the horses' bridles. The bandmaster, one Meyer, and a musician named Meyer were fined \$10 and \$5 respectively for assault, and the motion was to quash this conviction on the ground that there was no evidence of an assault. Judgment was reserved.

At a late meeting of the Peterborough board of education it was proposed and carried that persons wishing to take certain classes without having passed the entrance examination should be allowed to do so. This is in the understanding that the rooms and classes should not be overcrowded. Such persons are to pay the usual fees, but their names will not be included in the reports to the Government.

The Reformers of Muskoka have decided to swap horses while crossing the stream. It has been decided to substitute Mr. Dill for Mr. Bettes as the candidate for the Legislature, which looks as though the last contest had shown Mr. Bettes to be a weak man. Certainly if his defeat was solely due to the corruption practiced by his opponents he ought to have been given a chance to redeem his laurels.

The law requires returning officers to transmit returns of elections to the clerk of the Crown in Chancery "within ten days after he has ascertained the result of the poll." The returning officer in Algoma has ascertained the result of the poll, but he refuses to transmit his return to the clerk of the Crown in Chancery. As every step in the Algoma election has been in defiance of law, the returning officer is determined to be consistent and to continue to defy the law to the end.

Rev. C. H. March, speaking at the Church of England Temperance Society's annual meeting, held at Orillia last week, observed that Canada would rise in her might against an invader who would kill fifty of her sons, and yet the liquor traffic, tolerated and nursed in our midst, sent to drunkard's graves seven thousand Canadians annually. The rev. gentleman might have added: and fills our prisons with criminals and our streets with destitution and want.

A careless passenger on the evening train going south on Tuesday of last week came near reaching the end of his mortal tether, and but for the timely assistance of the station agent, Mr. Adams, we believe would have certainly been killed. With the usual carelessness which familiarity breeds, the stranger stepped off to speak to some one on the platform, and on the train moving off ran to get on, and slipped and fell between the low platform and the train. Mr. Adams was fortunately near and pulled him out in time to escape, and to catch the last car. This should be a warning to those in the habit of doing the same. — Woodville Advocate.

Notes and Comments.

Sparrows are eaten in England and Germany. Neither the Irish nor the Scotch will molest the pert little birds, and both in Ireland and Scotland they know no fear because they never knew any danger there. To harm a sparrow in either country would be considered an outrage.

Professor A. E. Blount, Colorado Agricultural College, mentions a Philadelphia firm who imposed upon farmers to the extent of \$3,000 a year by selling wheat, oats and corn and many other seeds under new and various names, with accompanying false claims of alleged remarkable merits.

Satisfaction is felt in the English shipping trade by the new decision of the Postmaster-General concerning the transit of mails to America. The existing contracts run out on the 31st of August next year, and in future, instead of renewing the existing contracts he will take up from month to month whatever vessels sail on the mail days best suited for the purposes of the post-office. The rate will be 3s. per lb. for letters and postcards, and 3d. per lb. for other matter, thus substantially contracting in the ordinary market for the transit of ordinary mail matter as if it were ordinary freight.

A disease pronounced to be cholera has broken out among the fowls in the vicinity of Rochester, and the greater per cent. of those attacked die. The Post-Express says enquiries show the disease to be epidemic. One woman lost over forty fowls in one day, and a number of farmers living near the city allege that they have lost most of their flocks by the disease. The worst feature of the case is that some of the farmers have been selling fowls in Rochester that were killed by the cholera, and the city physicians have had to advise citizens not to purchase chickens offered for sale at the stores or in wagons.

Mr. Arnold Foster advocates the extension of the penny postage to the colonies. There might be a loss of British revenue through this measure, but the imports received in the colonies from the United Kingdom are deemed to be conclusive as to the advisability of the step. A letter can be sent to France, whose imports from Great Britain are little more than an eighth of the whole of their imports, or to Italy, where the proportion is about a fifth, for a sevenpence-halfpenny, while to the Australian group who draw from Great Britain nine-tenths of their total imports, the charge is sixpence. If Mr. Foster can place the rate of postage between the colonies and the United Kingdom on the same level as between the different portions of the United Kingdom itself, he will have done as much to link the whole of this

LINDSAY.

Woollen Mills.

Having bought back the above property, and having made up my mind to try my best to get the custom trade of this and adjoining counties, I have determined to

REDUCE THE PRICE OF ALL FACTORY GOODS.

I WILL SELL—

Stocking Yarn, double and twisted..... 45c. per lb. Single Yarn..... 40c. per lb. Yard Wide Twill Flannel, white or grey..... 37c. per yd. Plain Yard Wide Twill Flannel..... 33c. per yd. Union White Blankets..... 55c. per lb. All Wool Grey Blankets..... 55c. per lb. Union Grey Blankets..... from 40 to 50c. per lb.

And everything else in proportion. I used to be able when in the business before to retail all the goods I could make, and I want to do it again, and farmers or others wanting whole pieces of goods will get a special discount. But I wish it to be understood that the credit business is played out. It costs too much to pay book-keepers and have to wait for a year for pay, and perhaps lose part, and it is not fair to make them that do pay suffer or pay more to make up what is lost by bad debts. So in future THERE WILL BE NO CREDIT GIVEN (retail) either at the store or at the factory. I did not buy any of the old goods that were in the factory, so that all will be this year's make. Roll Carding, Fulling and Custom Weaving done on shortest possible notice.

Parties who have wool in to manufacture can call and get it at any time.

I STILL CONTINUE THE STORE ON KENT STREET, and will sell factory goods there at mill prices.

Parties who wish to sell or trade their wool will oblige by bringing it to the factory direct. They can then get their goods either at the factory or at the store, but will save us the labor of handling and carting the wool.

As it takes money to buy woollen factories all parties indebted to me will confer a favor by calling and settling their accounts as soon as possible.

Hoping to see all my old customers and as many new ones, I am, yours truly,

J. W. WALLACE.

SUTHERLAND'S RHEUMATISM

THE GREAT CURE FOR RHEUMATISM

And all complaints of a Rheumatic nature, RHEUMATISM is not a sovereign remedy for all the ills that flesh is heir to, but for NEURALGIA, SCIATICA, RHEUMATISM, and complaints of Rheumatic nature.

IT IS A SURE CURE

Letter from E. Poole, the well-known Photographer of St. Catharines.

St. Catharines, Ont., Sept. 29, 1882.

Dear Sir,—It gives me great pleasure to say that my brother (for whom I procured two bottles of your Rheumatism) to my agreeable surprise, has totally recovered from his severe attack of Rheumatism.

He left Saginaw to visit Bradford. When getting off the train at St. George he found it impossible to proceed further for several days. I paid him a visit in Bradford and found him trying many so-called remedies—Galvanic Battery, etc.—all to no purpose, not even relief. He suffered intense pain continually, seldom sleeping during the whole night. About three weeks after receiving the Rheumatism he replied to my letter of enquiry that he was cured. Scarcely believing it, I wrote, asking, "Are you cured of Rheumatism?" His reply was "I am as well as I ever was."

Now, Sir, I am very much pleased, nay, delighted, with Rheumatism and should you need a testimonial for publication, only ask and I will gladly give it to you. Sincerely yours,

E. POOLE.

Niagara Falls, Ont.

RHEUMATISM acts directly on the Kidney; it is therefore an invaluable Medicine for those suffering from Kidney Complaints.
