HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to the natural color, prowth, and youthful beauty, it has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp, it all the RENEWER has steadily grown in layor, and spread he fame and needshoose to every quarter of the globe. He unparalleied success can be attributed to but one causes the entire fulfilment of the promises.

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for

The use for a short time of HALL'S HAIR have the for a short time or Italia a Halla Reverse wonderfully improves the perconsist appearance. It eleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes

BUCKINGHAM'S DYE

WHISKERS

Will change the beard to a natural brown, or black, as desired. It produces a permanent color that will not wash away. Consisting of a single preparation, to is applied without

the best remedy, because the most searching and thorough blood purifier, is Ayer's Sarsaparilla. Sold by all Drugghts; \$1, six bottles, \$5:

News of the Week.

A cat nearly strangled a sleeping infant of Alex. Kerr's, of Wiarton, by inhaling the chill's breath. When the mother discovered the animal oozing out id the month and nostrile of the little one.

on Saturday served by Mr. Oscar Willie, father of the child killed last week by a fall of les from the roof of the hetel, with notice of an action for

but living form of Louis Anderson. A stack fell on and buried him on November 17. He had been entombed there ever since, through some very severe weather, without food or water. He is a mere skeleton but able to speak. It he believed he

Mr. W. J. Beattle, of the township of Westminister, is the father of a remarkable three months old child. When it was three weeks old its leg began to turn black at the knee, and it was examined by the femily doctor and he said the child could not live, but just two weeks after the leg drop-ped off at the knee, and strange to say the leg has healed up and the child is doing well without the aid of a doc-

A man named George C. Wood, a mail contractor on the C. P. R., but at one time collector in connection with the municipality at Cornwall, has lately become heir to a large fortune through the death of a rich relative in the vicinity of Philadelphia. The lucky gentleman has got a family of three, a son and two marriageable daughters, the latter receiving \$10,000 each in addition to that which has fallen due to their father.

In June last a man named George In June last a man named George Mitchell working at the cotton mills, Hamilton, quarrelled with a girl named Rachel Haboock and the girl struck him on the head with a file. He has been very ill ever since and was lately taken to the hospital, where he laid unconscious till Saturday morning, when he died, The girl was committed for trial for assault on Nov. 28, and has been in is lever since. She and has been in jail ever since. She will now in all probability have to stand her trial for murder.

Two weeks ago Capt Zeneas Quick, of Peleo Island, opposite Kingsville, Ont., together with his son and a young man named Crane, left the east side of the island in a sail boat for the purpose of taking a boat to the opposite side of the island. Nothing more was seen or heard of them until Saturday, when the boat which held the bodies of Capt. Quick and son was found drifting near New Glasgow, Ont. Crane's body is not yet found. The two bodies found have been sent to Kingsville.

An Oneida Indian named Dentater, while drunk, wandered in to the C. P. H. yard at St. Thomas the other evening, and endeavored to clamber on the top of a row of freight care which were standing on a siding in the com pany's lumber yards north of the locomotive shops. In climbing up between the care his foot caught in the drawhead, and he over-balanced himself, falling with his head across the rail and his body suspended by one leg from the buffers. He was released from his perilous position the part morning.

eaced from his perilous position the next morning.

The disposition to strike is growing among all classes. The immates of an alms-house at licading, Pennsylvania, recently struck against the rule that the bodies of unclaimed paupers were to be given over to the doctors for dissection, threatening to leave the institution in a body. Mr. Alford, principal of the Pembroke public school, read a paper lately before a teachers' association, in which he arged that the teachers wanted hamans treatment, steady employment, and payment according to the amount and importance of the work done. Trackers, he taid, should be placed on the same footing as mem-

bere of the Civil Service, "We can readily," said Mr. Alford, "form a grand union of teachere, and plan and carry out a well organized strike—a strike that will close every school door in the Dominion." About the only class who never strike or dream of striking are the newspaper men, though there is sometimes ample provocation.

At a meeting of the Agricultural and Arte Association it was decided to hold the next provincial exhibition next year. An attempt was made to have it a purely tarmers' show but failed. The place has not yet been fixed upon. Prof. Brown, of the model farm, (inclph, suggested that a recommendation be made to the Gov. ernment to make the farm even better than at precent. Several breeds of eattle have not yet been represented there for experiments, such as the Holsteins and Jerseys. A committee was appointed to consider the mat-

Fannie Zimmerman, daughter of a prominent contractor of Baltimore, retently engaged herself to two young men—Frank Hellen, of Uniontown, Fa., and Henry Hammond, of Petereburg, Va. The marriage ceremony was to be performed on Monday. The Penney lyangian arrived first and in-Pennsylvanian arrived first and in-duced Miss Zimmerman to accom-pany him to a clercyman. As they were leaving the house Hammond arrived, and an exciting shace ensued. Hammond threatened to kill Hellen, who dreve to the police station and awore out a warrant against Hammond. The police detained the latter, and Hellen succeeded in having the knot tied. Hammond was held in bail on the charge of threatening to

The suggestion is again being made that the fortieth anniversary next year, of Sir John Macdonald'sentrance upon political life should be celebrated by some national testimonial to the Premier. It may be interesting to know that Sir John has in all served under no less than seven Covernors and Covernors General of the Dominion, viz: Lord Elgin of the Dominion, viz: Lord Elgin Sir Edmund Head, Lords Monk, Lisgar, Dufferin, Lorne and Lans-

Private advices from Gravel Bay on the north shore of lake Superior, about one hundred miles east of Port Arthur gives some idea of the immense natural difficulties to be sitting on the child's breast, blood was surmounted before a railway can be run through that country. Gravel Bay itself is nothing but a railway camp, but a fine new pier has been built, and workshops and offices erected give it quite a permanent character. It is to be the head quarters of the most difficult of all Mr. Henry Hogan, proprietor of camp, but a fine new pier has been the St. Lawrence Hall Montreal, was built, and workshops and offices \$10,000 damages.

Some boys playing about a hay factor boys pl known how many tunnels will be necessary. On the 14th of Nov. last work was begun upon a tunnel 420 feet in length, and others will have to be started as soon as pos-

> At the next meeting of the United States Congress an attempt will be made to make new land laws. Three bills have already been introduced in the Cenate on this subject. The first provides for the repeal of the pre-emption laws, but authorizes a second homestead entry by persons who, having made one entry have for any reason failed to perfeet their title, and who at the same time have never made a filing under the pre-emption act. The second repeals the timber culture law, but permits title to be rejected in accordance with the provisions of that law all claims entered before the passage of the repealing act.
> The third and last of the series preposes to amend the homestead act by prohibiting the commutation thereunder until two years have elapsed from the date of settlement, one year of which must be of record

Another victim has come to grief at the hands of the bogue lightning rod agent, and will likely have to bleed to the tune of \$150 or so for his simplicity. The Blyth Review gives the following particulars: An agent mamed Waters called at Mr. W. J. Fenwick's farm in East Wawanosh, and after a three hours talk induced Fenwick to sign an agreement to sell barb wire fencing, at the same time agreeing to allow Fenwick tour cents on every pound of barb wire which he could sell at nine cents per pound. As the victim of the swindle has just recently purchased his farm and made many improvements upon it this summer he thought he would require some barb wire fencing, and when Waters, the sneak, assured him of the bargain he was offering Fenwick wrongly placed his signature to the supposed agreement, which was in reality an order for \$150 worth of useless lightning rods. In the

For cramps, pain in the stomach, bowel complaint or chills use Perry Davis' Pain Killer. See advertisement in another

RAILWAY ACCIDENT. Frank Spink, Wilton Avenue, Toronto, some time ago received a bad injury by an accident on the G. T. R. The severe contusions were quickly healed by the use of Hagyard's Yellow Oit.

Orion Catlin, 49 Pearl street, Buffalo, N. Y., says; "I tried various remedies for the piles, but found no relief until I used Dr. Thomas' Eclectric Oil, which entirely cured me after a few applications." Since Dr. Thomas' Eclectric Oil has become celebrated, unprincipled persons are imitating it. Get the genuine.

THE BEST PROOF.—THE GLOBE.
"I sell more Burdock Blood Bitters than I do of any other preparation in stock," says B. Jackes, druggist, Toronto. If the reader will ask any druggiet in the city he will get a similar answer to his query—a proof that it is the most popular medicine for the blood, liver and kidneys

It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by S. Perrin.

Fluid Lightning. Wife-What's the matter now John. Husband-Oh, that neuralgia and toothiche near kills me.

Wife-Why don't you go to A. Higin-

Mr. Alex. Robertson, of Exeter in writing about one of the most popular articles and one that has done more good to the afflicted than any other medicine has during the short time it has been in existence says: "I have used four bottles of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and have been cured of dyspepsia that troubled me for over ten years. Part of that time I had it very bad, and was at considerable expense trying to get relief; but this excellent remedy was the first and only relief I received.

MRS. BALL,

574, King street, Toronto. Our Canadian Silk Industry Is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small arti-cle of sewing silk. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Belding, Paul & Co. make three grades of spool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for Belding, Paul & Co's own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

Dr. Wheeler's compound elixir of Phosphates and Calisaya promotes the healthy development of delicate children, repairs the worn-out frame of the aged, imparts tone to the brain and nerves, restores constitutional vigor when exhausted by excesses and bad habits by furnishing maexcesses and bad habits by furnishing material to build up the tissue, and augment the vital powers, acting as a full to generate the steam for operating the machinery of the body. It is reliable in every form of debility, and will sustain the wearing system under great trials of mental or manual labor. It is the best nutritive tonic and blood purifier ever invented, and incurables have been maintained in fair health for many years by its use.

The Editor and the Burglar. Once upon a time a country editor awoke in the night to find a burglar hunting through the pockets of all his clothes,

"What means this unseemly intrusion?" asked the editor, rising

"I am in search of money," re plied the burglar as he turned the last pocket inside out, " but alas! I fear I have got into the wrong house. I have found nothing but a bit of lead pencil and a ticket to a magical gift show. With your per-mission I will retire as I came."

"One moment" said the editor, I do not think you are a subscriber to my paper. Allow me to call your attention to its superior features. All the local news-a carefully selected miscellany—impartial editorial discussion of all the leading questions-a household department that will delight your wifea religious department that will direct the steps of the wicked into the straight and narrow path—no objectionable advertisements inserted, and only \$2 a year strictly in advance. I shall be glad to enter your name on my list. You doubt-

"I am glad you have called my attention to this matter," said the burglar, "and I will subscite.

Here are \$2 and my address on the barean. You are a man of business. "Yes," replied the other; "I never miss an opportunity to push

"Nor I either," said the burglar, "and therefore I will ateal the \$2 I have just paid you for subscrip
