All kinds of HARDWOOD LUMBER taken in exchange for Furniture. Remember the place, opposite the Midland Railway Station Lindsay.

Nuts to Him.

The American Journal of Forests records an instance of handsome profits received for ten acres purchased ten years ago in Logan Valley, in Nebraska, and planted with black walnuts, by Col. Van. He gave \$1.25 per acre for the land, and after it was handsomely covered with a dense growth of thrifty black walnuts, ten years old, he sold the ten acres for \$3,000. The time will certainly come when all this timber will be wanted at an advanced and handsome price, and there is nothing for which there will be a more extensive demand than the best large second growth selected timber, judging from the way in which our native forests are disappearing the market will not be glutted.

Disappointing Character of Holiday Gifts.

One thing that ought to discourage the holiday gift business is the fatality with which everybody gets exactly what they don't want. One doesn't score a bull's-eye once out of a possible hundred. Just as sure as a man's wife sets her heart upon a depot roof hat, or a velvet dress with keyhole trimmings, just so certain is he to come grinning home with some new kind of rosewood clothes-bringer, or a pair of nickel-plated parlor skates. A married woman over in Oakland worried for a long time to hit upon some acceptable gift for her husband. He was a great card player, so last week she presented him with three of a kind triples. She imagined that would about fill the bill, but the man lit out for Alaska in disguise. He left a note to the effect that he preferred a climate that didn't prevent a poor man from laying up a cent.

Smoker's Idiosyncrasies.

Inveterate smokers do funny things. Careful smokers do the chimney with a degree of thoughtfulness for the feelings of others not universal in his conduct, said the famous Bishop Burnet, who, like many another author, found composition facilitated by pullings of the seductive weed, disliking the interruption of removing his pipe constantly while he was writing, in order to compare the two operations with due concern to himself, bored a hole through the tread beam of his large bed, and putting his long pipe through it, puffed and wrote and puffed with the most philosophical calm. The increase in the sale of pipes within the last ten years is astounding. They are now manufactured in immense quantities in New York city. The polishing of meerschaum pipes affords profitable occupation for girls, who, after learning the business can realize eight or ten dollars a week with ease.

Taking All the Christmas Fun Out of His Wife.

It was coolly planned and deliberately executed in cold blood. They sat by the fire, and as he perused his paper she was busy with thoughts of Christmas. By and by he waked up and asked: "Did any parcels for me come up today?" "No, dear," she replied, as her face grew white as snow. "Have you been buying anything?" "No, nothing much. I happened in at Blank's this afternoon, and as he was selling out his slippers at cost, I bought me three pairs. Guess I'll be fixed for the next ten years to come." "You—bought—slippers?" she gasped as she pressed her hands upon her heart.

"Yes, and Dash came to the door as I was going past, and asked me in to look at his stock of dressing-gowns."

"And—"

"And I bought me a couple. Rather handy garments you know, and these are something extra nice."

"Do you mean to tell me that you went and—"

"Why, dear, how you tremble," he interrupted. "Yes, I bought two of 'em, and when Dash happened to mention that I ought to have a smoking cap, some new shirts and a smoking suit and a cane, I told him to go ahead and send 'em up. I'll order a new silk hat, wristlets, gloves, stove-buttons and neckties to-morrow, and then I guess I'll be provided for. Come and kiss your dear old hubby."

"This she didn't. She rose up and stared and gasped and rushed out of the room with fearful eyes and clenched teeth. All her Christmas surprise was handiessed.—Detroit Post.

Dear Teacher.

We, the pupils of Cobocook school, hearing of your departure as teacher from among us, embrace with sorrow this opportunity of expressing to you our sincere thanks for your past faithful and zealous labors among us. We cannot permit you to leave us without expressing our sincere respect for you as teacher, and as a slight mark of our esteem permit us to present you with this merry Xmas and a happy new year.

Carried. Moved by Mr. Broad, seconded by Mr. Lowm...

John F. Cunningham, Clerk.

Glennings.

Mother Graves Worm Exterminator is pleasant to take; sure and effectual in destroying worms.

Highly Appreciable.

One very valuable feature of Dr. Low's Pleasant Worm Syrup is, that it is highly agreeable to take, and all varieties of Worms, tape worm included, can be safely expelled by it, without recourse to harsh and sickening drugs.

Low Jack, Mo., Sept. 14, 1879.

I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.

The Best Proof.—The Globe.

"I sell more Burdock Blood Bitters than I do of any other preparation in stock," says B. Jackson, druggist, Toronto. If the reader will ask an druggist in the city he will get a similar answer to his query—a proof that it is the most popular medicine for the blood, liver and kidneys known.

Be Careful What You Eat.

The best medical authorities declare that worms in the human system are often induced by eating too freely of uncooked fruit and too much meat, cheese, etc. Whatever may be the cause, Free Man's Worm Powders are speedy and safe to cure they destroy the worms, and contain their own cathartic to expel them.

Geo. Andrews, overseer of the Lowell Carpet Corporation, writes for over twenty years, before his removal to Lowell, afflicted with salt rheum in its worst form. His ulcerations actually covered more than half the surface of his body and limbs.

Mr. T. C. Wells, Chemist and Druggist Port Colborne, Ont., writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure sells well, and gives the best of satisfaction for all diseases of the blood. It never fails to root out all disease from the system, cure Dyspepsia, Liver Complaint, etc., purifies the blood, and will make you look the picture of health and happiness."

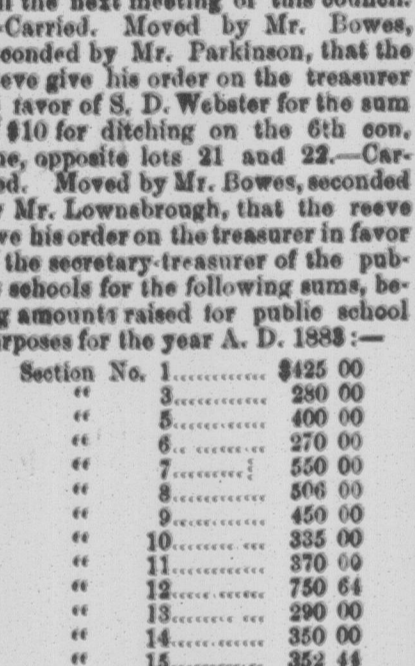

Fluid Lightning cures tooth-ache and neuralgia quick as a flash, relieves any pain instantly, the cheapest and quickest application known. Why suffer with tooth-ache, neuralgia, headache, rheumatism, lumbago, sciatica, sore throat, or acute pains of any kind when you can go to A. Higginbotham's drug store and get a perfect and instantaneous cure for twenty-five cents? Ask for Fluid Lightning.

Our Canadian Silk Industry.

The great difficulty to be contended with in the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silk. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Baking, Paul & Co. make three grades of good silk; of these three different qualities the poorest one has by far the largest sale, at the same time they constantly receive complaints of poor sewing silk. If ladies will take the trouble to ask for Baking, Paul & Co.'s own brand, and see that their name is
