Rev. Father Wilds EXPERIENCE.

The Rev. Z. F. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Vassachusetts Supreme Court, writes

Assochusets Supreme Court, writes as follows:

"In K. 54th St., New York, May 16, 1882.

"Instance of Co. Aven & Co., Gentlemen:
Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of Aven's Sarsaranitha, by observation of many other cases, and from personal use in former years, I began taking it for the above named disorders. My appetite improved aimost from the first dose. After a short time the fever and tehing were allayed, and all signs of tritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the Sarsaranitha, which I recommend with all confidence as the heat blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. Wilds."

After tea we proceeded to the Methodist church on the hill overlooking the rapid running stream, the outlet of several lakes lying to the north and east. So accordingly we were ready bright and early, and took passage in a big sleigh drawn by a fine pair of horses, driven by a fine, intelligent

However, we made 20 miles in about three hours, when we halted at a good friend's hours, when we halted at a good friend's house for dinner and were hospitably entertained. About 2 o'clock we started again for the balance of the journey, 15 miles, which we accomplished in about three hours, took tea with a kind friend and proceeded to the school house where the hist missionary meeting for that section of country was held. Next day about 12 o'clock, amid a tremendous snow storm, we took sleigh for Monmouth, for which we had to have two fresh teams and occupying six mortal hours. Arriving at the place of our second missionary meeting we found that the storm was so great that the people could not get out, so we put up at friend Ritchie's for the night, intending to start next morning for Haliburton, but when the morning came the roads were so blockaded that no teams could be got to turn out, so we were doomed to lie over, and the active young missionary, Rev. Mr. Carbutt, notified the people as best he could that the missionary meeting would be held that night in the school house. So at
