BUITORIAL NOTES.

And after all the abuse of the Me. Carthy Act Mr. Mawat and his col teagues have stolen the greater portions of it bolus bolus and have em-

a great International Electrical Ex- inform us that large numbers of deer kibition to be held in Philadelphia are being killed. Along the Monek next fall. The key and kite string of road hounds are allowed to run at large Monjamin Franklin will be the starting and are destroying deer almost every point of the exhibition, which will day. A perfectly reliable person asand with the electro-decomotive. In- sures us that he saw three deer carservening will be the telephone, the cases close by the road that had been phonograph, the telegraph key board and every other known appliance in the electrical world.

tr was formerly a frequent boast of the Reform party that Ontario was the most economically governed prowisce in the Dominion, and Quebec was pointed out as the most extravagent. We shall bear no more of these boasts; in the last twelve years the expenditure of Quebee has only in areased three hundred thousand dollars, as against an increased expenditure in Outario during the same period of over one million dollars.

A MEETING of the Toronto Auxiliary Cominion Probibitory Alliance has attendly condemned the Ontario @ vernment for the amendments introduced to the Crooks Act, characterising them as insulting to the temperance people. A deputation was appointed to wait on the Govern.

600,000 will be placed in our great takes in the next ten days. This is a Cornegie, the popular member for decidedly good move, and new the West Peterboro, because since the suggestion comes in, would it not be bunters, and thus protect the deposits

will not be by any means clear, as the life society have a great deal of power in such matters. In fact, unless the party interested can prevail upon a many thing of the wind work in party interested can prevail upon a many treat each other with a little courtage, how can they expect to complete the mysterious vertical courtage, how can they expect to complete the mysterious vertical mand the respect of others.

of the legal art, he can scarcely expect to succeed in entering the profession. However, interesting developments may be looked for.

Two Whitby Chronicle says that a profitable industry is carried on on a small scale at the harbor by an enter-prising Yankes who satches and preparee mudeate for the New York market, where epicures are willing to pay half a dollar a pound for the luccious excetness of this two-eyed beef steak which lives and thrives among the reeds in the muddy waters of our marehee and creeks.

It is stated that the Canada Pacific Railway authorities are making preparations for a large influx of immigration on the opening of navigation, and that they have arrangements with the leading steamship lines to land the passengers at Mentreal in place of at Quebec as formerly, so that they can enter the company's own care and be taken direct to their dectination in the North-weet. By this means the new comers will be prevented from crossing over into the States.

THE St. Catharines' Journal, discussing the license law, says :- "A doubt is expressed by some whether the Dominion Government have the power to deal with the subject. Those who are seeking licenses would do well to comply with the law, and let others settle the question at issue which may be involved therein. The Dominion Parliament has an undoubted right to regulate the manufacture of spirituous and fermented inquers, and ought certainly to have the right to regulate the sale of them. It is not likely at all events that the Dominion Parliament would have passed the act unless possessed of the power to enforce it, which it seems very evident it is the intention to do." Method

THE Kineardine Standard observes: -The model farm and college at (inelp during the past two years cost the province \$78,938 over and above what it produced. As the farm covers 800 acres this represents an expenditure of \$5,000 per year on an ordinary hundred aere farm. We fancy if practical farming cost one tenth of this amount for two years in succession the country would be bankrupt. but the Government are not going to It the people know in future how much is going to be squandered on this institution. They are going to ask the House to vote a bulk sum for "agriculture." Probably the " agrihodied it in a bill which they have in cultural" interests will need to be broduced in the Provincial Legisla- lostered in doubtful constituencies.

Mosr of our correspondents, says the obeaygeon Independent, in the north young wife had died but a few weeks PREFARATIONS are being made for Hobeaygeon Independent, in the north run down by dogs, in one day. Persons in the county of Haliburton desirous of having the deer protected should remember that in addition to the statute law the county council at itelast sitting passed a resolution that a reward of \$10 should be paid for procuring the conviction of any percon shooting between Jan. 1st and July 1st. As for hounds running at large during the close season they are liable to be shot, and the law should be strictly enforced. It would be better if hunting with dogs was entirely pro-hibited and made illegal. The deer would then become plentiful and tame and furnish a desirable and cheap supply of food for the settlers.

judges who try sontested election was appointed to wait on the Government in the matter, and also to urge
which there have been nearly fity,
only two judges sit. If they agree
theeness and to increase license tees
the matter is easily adjusted, but
there are so many nice points enterwhere for similar depredations. They
where for similar depredations. They

This would have the effect of lessening the costs in election cases and would save valuable time to all interested.

The Port Hope Times saye:—We notice that a number of our Reform contemporaries are trying to fasten a distanteful nick name on Mr. John Carnegie, the popular member for Weet Peterboro, because since the opening of the House that gentleman has taken a prominent part in the debates, and has shown himself possessed of a thorough knowledge of the affairs of the province. Mr. Carnegie

affairs of the province. Mr. Carnegie

it!

The Ontario and Quebec Railway's bridge across the Don has been completed. This is the last and largest bridge, having a stretch of \$70 feet. It is 108 feet in height. The bridge was built to carry two times the weight of a train of Mogul locomotives crowded on it from one end to the other. It is made secure against the wind pressure by being anchored in the masonry by powerful iron bolts seven less long. Altogether it is one of the finest specimens of engineering skill and good workmanship to be found in Canada. The laying of rails between the Dan and Agincourt is being rapidly proceeded with. When this is done there will remain only thirty miles of the road to be completed between Toronto and Ottawa.

Another meeting to discuss the waterwell to strictly enteres the law against has taken a prominent part in the the gill not and sneak thief fishers. debates, and has shown himself posequally as stringent as against the pot seesed of a thorough knowledge of the seased of a thorough knowledge of the surface and thus protect the deposits made.

It is possible that before very least the Rar of Outario may boast of its first colored member. The private hills committee of the Outario legislating countery to an old conferer chould at least suggest more respectful treatment of hills committee of the Outario legislating of the source will not her by may be confidered as a solicitor. The reason that a special set became necessary in this case was that no larger in the country in the chair of many least the source of the final ways in the case was that no larger in the country of Kesca, to practice as noticitor. The reason that a special set became necessary in this case was that no larger in the country would allow the politioner to serve about the solition to have a composite of the country of the c

Provincial Estimates.

The printed estimates of the Province are issued, and the fellowing items are noticeable, as being of interest in this

district:

Guil and Burnt River Works—Re-construction of Oblong lake dam, and completion of repeirs to dame and slides at Crab lake, Norland and Elliot's Falls, revote, \$1,500; new vote, \$500.

To meet one-half the cost of re-constructions. etructing dam across the Burnt niver at Kinmount, such one-half not to exceed the sum of \$2,750 and on plans and conditions to be approved of by the Commissioner of Public Works, \$2,750.

The following are the road appropriations:

tions:

Bobcaygeon Road—Repairs north and south of Kinmount and rebuilding Gull river bridge near Mindon, \$1,500.

Cavendish Road, \$400.

Meore's Falls bridge—On Cameron road, \$1,000.

Burleigh Road—Repairs, \$400.

Menck Road—Repairs east of Gooder-ham, \$500.

iam, \$500. Victoria Road—Repairs, north Mench,

August next.

The extraordinary popularity of Ayer's Cherry Pecteral is the natural result of its use by intelligent people for over forty years. It has indisputably proven itself the very best known specific for all colds, coughs, and pulmonary complaints.

FACT STRANGER THAN FICTION. It is a fact that Alonzo Howe, of Tweed, had a fever sore that afflicated him for thirty fire years. Six bottles of Bardock Blood Bitters cured him, which he con-siders almost a miracle. It was but the natural result of the remedy restoring pure blood and perfect secretion.

Hovel, At LEAST.—St. Catharines
Journal: The following is a copy of a
hand-bill now posted in Grimsby village:—"I will thankfully pay one hundred dollars (and law costs, if any should accrue) to any two or more men finding my son Charles, in any tavern or billiard room in Gramsby (he not having been forcibly taken there) who will smear him all over with rotten eggs and tar and feathers, and then gently ride him on a rail through the village. Hoping it may prove a blessing to him and his family, I remain his affectionate father, W. W.

P. M. Markell, West Jeddore, N. S. writes : - I wish to inform you of the wonderful qualities of Dr. Thomas Electric Oil. I had a horse so lame that he ould scarcely walk; the trouble was in Lemuel Whisten, near Enterprise, tied | the knee; and two or three applications completely cured him.

Our Canadian Silk Industry Is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small arti-cle of sewing silk. The great demand in Brown, quarrelled, embraced, and rolled cle of sewing silk. The great demand in round in about six inches of dirty water. Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequent-ly a weak one. Messrs. Belding, Paul & Co. make three grades of spool silk; of interest in the butchering business in these different qualities the poorest one woodville to Mr. John McKinness, of Argyle. Mr. McCorquodale has leased the hotel of Mr. Donald Mclatyre of Lorne-of poor sewing silk. If ladies will take the trouble to ask for Belding, Paul & Co's own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

A BUSINESS MELODY.-There was a man in our town, and he was wonderous wise, for when he marked his prices down he then did advertise. And when he saw his trade increase, with all his might and main he marked still lower every price and advertised again. And when he advertised again his rivals loudly swore, to see folks rush with might and main to patronize his store. And while they sat in solitude and saw him custom win, the men behind his counter stood and raked the shekels in. And while he raked the shekels in and saw his fortune rising, he took a goodly lot of tin and kept on advertising. Each day a generous sum he'd sink, and demonstrate full plain, the more one pays for printer's ink the greater is his gain.

A Remarkable Escape.

Mrs. Mary A. Dailey, of Tunkhannock,
Pa., was afflicated for six years with
asthma and bronchitis, during which asthma and bronchitis, during which time the best physicians could give no relief. Her life was despaired of, until in last October she procured a bottle of Dr. King's New Discovery, when immediate relief was felt, and by continueing its use for a short time she was completely cured, gaining in flesh 50 lbs, in a few months.
