The Victoria Warder

FRIDAY, APRIL 4, 1884.

Local Settings.

Success! success! success! D. M. Ferry & Co's, at Highholtham's—11-3. Goggles—extra value—under 65 cts. to 75 cts. per dozen at A. Campbell's.

Without Pain.—If you want teeth out without a particle of pain go to Needham's. Pure gold, platinum, or silver. Leave your orders for hot cross buns for Good Friday at Soane's. Orders must be sent in not later than Thursday evening.

The young lad Sanderson, accidentally shot last week, had a hard time of it and finally gave up yesterday, dying in the forenoon. He will be buried in Peterborough today.

Leaves.—A young man named Dunning, from Dundas, was brought before and ordered to be tried summarily by Judge Dean on Wednesday, charged with larceny of a watch. He pleaded guilty and was sentenced to two months in jail at hard labor.

Health Returns.—The official report of the health of Ontario for the past week shows that the excessive humidity, cloudiness and rise of temperature have not only affected the district in which Lindsay is included, but also in the following: Simcoe, Huron, Kent, Lincoln, Hamilton, and the western part of the province.

The junior conductors of the G. T. R. have been notified to be ready to receive notice from the train master this week, in order that the old conductors might make better time. In consequence of this arrangement a number of the newly employed brakemen have been dismissed. This is believed by the men to be a good idea, as the older employees of the road will be given more encouragement to work. The same policy is followed by American railways when traffic is slack.

We regret to note this week the death of Miss Clara B. Finney, a young but accomplished music teacher, and much admired for her amiable and kindly qualities. The deceased young lady was quite well apparently Thursday evening at the Baptist church social, when she took a leading part in the singing, and on Friday morning during Friday she took ill and died on Sunday morning, in spite of all that medical assistance and loving hands could do. Her age was only 18 years.

Moved by Mr. Robertson, seconded by Mr. Petrie, that a resolution be passed appointing petrie, pond-keeper, road-keepers, etc.—Carried. By-law passed. Mr. Duck entered and took his seat. Moved by Mr. Robertson, seconded by Mr. Hopkins, that the amount of road-work charged against lots 5, 6, 8, 9, 10, Block J, for the statute labor of 1878 and 1879, and against lot 11 in J, for 1881, and also the statute labor for 1881 and 1882 on lots 8, 9, in Block K, be remitted and charged to the township of Ops—Carried. Moved by Mr. Duck, seconded by Mr. Petrie, that the following amounts be paid: Caldwell, blacksmith, for road scrapers 60 cts.; also account of Jas. Powers for ditching on 9th con. south of Shaw's mill—Carried. Moved by Mr. Hopkins, seconded by Mr. Robertson, that the council will assist in building about 60 rods of wire fence on each of the leading roads in Ops, as an experiment—Carried. The reeve having left, the deputy reeve took the chair. Moved by Mr. Robertson, seconded by Mr. Petrie, that all wire fences erected by the council shall be subject to the following conditions (except when fence-reveers are called in):—to be constructed of the best material, with a wire with a board or scuffling on top and the posts to be not more than thirteen ft. apart with a clear space or scuffling in the center to support the fence, the fence to be approved of by the commissioner in whose jurisdiction it is built—Carried. Moved by Mr. Robertson, seconded by Mr. Petrie, that an order for \$250 be granted to J. R. Dixon for surveying and gravel taken from a pit by township contractors—Carried. The council then adjourned until Monday, 9th April.

BOARD OF EDUCATION.—The regular meeting took place Wednesday evening. Present—Dr. DeGrassi, and Messrs. Hepp, Wray, McNeillie, Walters, Pitkie, Irwin, Col. Dacon and the chairman. Minutes read and approved. A petition from G. Devitt and about 80 other pupils of the high school was read, asking that the Easter holidays be extended from two days to one week to enable them to go home without losing time in their studies. The petition was not granted owing to the belief that the statute holidays were now long enough. Thereport of the high school showed an average attendance of 100 for the past month; that of the public schools showed 472. The report of the visit of Dr. McNeillie in October was also read. Col. Dacon expressed his pleasure at being present at the reunion of high school scholars on Friday last, but was sorry to see and hear so depressed an organ. He would move, seconded by Mr. McNeillie, that Messrs. Irwin and Walters and the mover be a committee to dispose of the old organ now in the central school building and purchase a new one for the entertainments in connection with the schools—Carried. Mr. Pitkie moved that the managing committee be empowered to purchase and plant a number of trees for the purpose of beautifying the grounds of the different ward schools, and also the cricket ground leased from Messrs. Hallett and Hopp. He also moved, seconded by Mr. McNeillie, that the managing committee be empowered to purchase and procure desks and seats sufficient for the vacancies in the different school rooms—Carried. Mr. McNeillie, in reference to Mr. Tilley's report, moved that the managing committee be requested to purchase a globe for the use of the high school—Carried. The report of Mr. J. H. Knight respecting the alleged case of youth severity in punishing a son of Dr. Hartman was next taken up. The charge was that Mr. Hallett and Miss Peplow did unmercifully beat him on and about the hands, whereby they swelled and became quite black and blue. Mr. Knight in his report, summarized the evidence as compiled by himself and subsequently the whole evidence in detail. The most important part of the evidence was that of Dr. DeGrassi, whose testimony when read by Mr. Knight was that the back of the hands were ecchymosed (a deep green from the Colonel), and from a bruise of this kind peritonitis (Mr. Wray gasped decisively) might result, but he did not anticipate necrosis, although it might possibly follow. At this the court appeared much relieved, and Mr. Hallett did not exceed his duty in chastising the boy, nor was the severity of Miss Peplow at all more than the case warranted. Col. Dacon presented the report of the special committee on the footlocker's report, fully agreeing with the inspector regarding the drawing and writing, and noted that the matter be referred to the Minister of Education. He further recommended that afternoon intermissions be allowed, as it conduces to the vigor of the minds of the scholars. They further acknowledged the want of school accommodation, although this want could not be urged in extenuation this time more than in former times. Just as soon as it was considered the finances of the town would warrant them in doing so some improvement in this way would be attempted. The Salvation Army question was also touched upon, and the committee pointed out that while the students on these meetings and professions might have a tendency to hinder proper time given to studies and the preparation of lessons, as it always occurred after school hours neither the schools nor the teachers had any control over it, but it was solely a question for parents and guardians to deal with. They would, however, urge upon parents and others to be watchful of their children's future interests by seeing that proper time was given to their studies. The committee stated further they had now a scheme in preparation which they considered would make the school efficiency considerably better. A supplementary report from the headmaster, Mr. Hallett, was also read. A few accounts were passed by Mr. Hepp, as chairman of the finance committee; Mr. Dunn's salary was increased by the sum of \$100, after the protests of Messrs. Walters and Pitkie that their public school teachers' salaries should be improved first, and the board adjourned.

CAIN V. WILLIAM JURRIK.—Some kind of suit as last, except that it referred to the south part of the lot. Judgment for plaintiff except as to a small piece of land that the defendant had title to by possession. Fossesette and J. A. Barron for the plaintiff, and Hudspeth & Jackson for defendants.

QUEEN V. MATTHEWS.—The prisoner was indicted as having stolen some \$275 from one Stephen O'Connor at Victoria Road on Saturday night last. The evidence went to show that O'Connor being on his return from Michigan with a check for \$300 made the acquaintance of the prisoner at Lindsay, who is a boy of some fifteen or sixteen years of age. O'Connor went the evening train to Victoria Road, accompanied by the prisoner, and slept in same bed. In the morning O'Connor missed his money, and suspecting prisoner left information and the prisoner was arrested. The prisoner, after being searched gave up the money, saying, "This is Connor's money just as he gave it to me." The jury after an hour's absence returned a verdict of "not guilty." His lordship discharged the prisoner, remarking that it was a very lucky circumstance his present escape from penitentiary, and that he had better be very careful how he got drunk and took other people's money in future. Mr. Kerr appeared for the crown; Mr. J. M. McSwain for the defense.

BANK OF MONTREAL V. WOOD.—Action on promissory note in favor of A. McAlpine and endorsed to plaintiff. When the case was called the defendant had not arrived, and judgment was given for the plaintiff by default. Hudspeth & Jackson for plaintiffs; Martin & Hopkins for defendants.

BANK OF MONTREAL V. H. O'LEARY.—Action on a promissory note for \$1,150 held by the plaintiff under real estate assigned to them by A. McAlpine. Defendant resisted payment, claiming that the note should be for \$130 only. Verdict for plaintiff for full amount. A. Hudspeth, Q. C., for plaintiff; H. O'Leary for defendant.

QUEEN V. H. O'LEARY.—The defendant was charged with the crime of perjury in an examination held before His Honor Judge Dean in the above suit. Verdict, not guilty. Mr. Kerr, Q. C., for counsel; G. T. Blackstock and H. O'Leary for defendant.

QUEEN V. ALLAN PAINEBURY.—Accused of forgery. No bill.

MCDUGALL V. MARIN.—An interpleader. The defendants, the execution creditors of the Lindsay Paper Mill Co., and under their executions seized a rotary boiler and wheel lying outside of the company's mill at Lindsay. The plaintiff is a mortgagee of the company's mill and property under real estate mortgage and claimed the boiler and wheel under his mortgage. His lordship held that the articles were chattels, and did not pass to the plaintiff under his mortgage. Verdict for defendants. Hudspeth & Jackson, for plaintiff; McIntyre & Stewart for defendants.
