Railway Notes. It is now given out that Mr. Hickson will not reduce the pay of the men on the Grand Trunk March 31st, provided they agree to listen to a compromise afterwards.

Mr. Henry Head, formerly secretary of the Midland, has, as a result of the leasing of the Midland by the Grand Trunk, been transferred to the secretary's office of the latter company, in Montreal, as he believes, the same salary.

An effort is to be made by the Cobourg and Peterborough Railway company to proceed with the construction of the great bridge across Rice Lake at an early date. As our readers know the road is gravelled and ready for the iron between Cobourg and Peterborough, and so far north as Channing Lake—also miles. The only difficulty is crossing Rice Lake, which will require a large expenditure of money.

Base Ball. The Lindsay base-ball club held their first meeting last Tuesday evening, when the following officers were elected:—President Jos. Daly; Vice President J. Petty; Captain W. Vetteh; Secretary, D. G. Scully; Treasurer, N. McCann; Managing Committee, R. Hangerford, A. McCrimmon and J. McAdams.

Another Plan. The latest plan for raising money at church societies has been discovered at Oudenburg. It is called a weight social, and is managed as follows: The ladies are placed on a scale, and their names and weights are put in sealed envelopes. Each gentleman draws an envelope, and on opening it he finds the name of the person whom he is expected to take to supper.

For Ladies Only. It appears from the gathered statistics of the world that women have a greater tenacity of life than men. Despite the intellectual and physical strength of the latter, the softer sex endures longer, and will bear pain to which a strong man succumbs.

The Hebrew woman is exceptionally long-lived; the colored man exceptionally short-lived. The married state is favorable to prolongation of life among women. Dr. Hough remarks that there are from 2 to 3 per cent. more males born than females, yet there are more than 6 per cent. excess of females in the living populations.

Lindsay High School. The following is the relative standing of the pupils of the high school for the term ending March 31st. Only those pupils who have attended one half of the term are ranked:

Stinson's Damages. The Fenelon Falls Gazette laments Mr. Stinson's suit for damages against the corporation as follows: We have but little doubt that Frank Stinson will get his \$500 and that the costs will swell the whole bill up to nearly or quite \$600.

The Daily House. The new Daily house, formerly the Globe hotel, is being rapidly transformed into a new place, and will open as building out as another 'only first-class hotel.'

Cow By-Law. The cow by-law is practically knocked to pieces as the cows can now run as they please from seven o'clock in the morning to seven o'clock in the evening.

Grace Charge. The Fenelon Falls Gazette furnishes the following particulars respecting the brutal occurrence at Fenelon Falls, the perpetrators of which are now awaiting trial in jail here: Sunday afternoon two Frenchmen, named respectively Joseph Jono and John Kingsmill, were arrested by Constable Harrison on a charge of breaking during the previous night broken into the house of Patrick Berry, south of the river in this village, and of having first outraged Mrs. Berry and then beaten and kicked her in so shocking a manner that she was unable to leave her bed.

Navigation Notes. The water in the mighty Sturgeon is high and is still getting higher. The ice in the lakes is reported about gone and the boats are expected to begin running next week.
