

Agricultural Implements!

LEARY & FINLEY

Desire to call the attention of the farmers of Victoria and surrounding counties to the following implements for which they are the agents:

Alliston Cord Binding Harvester, Alliston Queen Reaper, Alliston Queen Mower, Alliston Sulkey Rake, Gang Ploughs and Fanning Mills,

All of which we guarantee to give every satisfaction and to do first-class work.

WHEAT, PEAS, OATS AND CLOVER SEED FOR SALE.

LEARY & FINLEY.

An inspection solicited.

Millinery

OPENING!

NO CARDS.

The opening days of our Millinery, which took place on

Tuesday, 15th Inst.

Was never so great as it was this year. We have never shown so complete a stock.

French Pattern Bonnets and Hats, English and American Straw, Chip and Milan Braids,

The shapes of which are so different from former seasons that a new hat or bonnet will be nearly a necessity.

Thanking the ladies of Lindsay and Victoria County for their generous patronage in this department we give you a cordial invitation this week, and will not urge any to buy who do not wish to do so.

JAS. GRAHAM

Gold Alloy.

Mr. Neelands continues to have splendid success with his beautiful plate for artificial teeth. Teeth also inserted on English black or red rubber.—14-4

45th Batt.

A meeting of the 45th Batt. was held in the Beacon House, Lindsay, recently, for the purpose of discussing and arranging business of very great importance connected with the regiment. Present—Col. Cubitt, Major Deacon, Major Scott, Adjutant Hughes, Captain Hughes, Hunter, Evans and Greig and Lieut. Brown. It was decided to have new uniforms for the men of the latest pattern; the men will also wear a new style of forage cap, which looks very much neater and more comfortable than the old style. It was also decided that the officers are to furnish themselves with the new regulation undress and full dress uniforms. The band committee reported on the efficiency of the band, numbering twenty-four strong, having some of the best musicians in the county, and some 848 in the band fund. The regiment will go into brigade camp some time in June in a very efficient manner.

Railway Notes.

The importance of the Ontario & Quebec Railway is greater than is generally estimated. When the line is opened on May 1st to Perth there will be 600 miles of track in operation. When the entire road is completed from Montreal to Detroit it will be nearly 1,000 miles long. Belleville Intelligence.—The Grand Trunk authorities have given a pledge to the Government that they will expend a million of pounds sterling of the money raised under the act of payment session upon the work of double-tracking the line between the two cities. This ensures the early completion of this important movement, and at the same time avoids any necessity for changing the bill.

The attendance of the general manager of the Grand Trunk to make a reduction of five per cent. in the employees' wages has been communicated to the men, and has taken them by surprise, as the intention of doing so it was supposed had been abandoned. It is not expected that a general strike will take place, but the engineers and firemen are threatening that result, as they declare their societies to be so well organized that they can hold out for a lengthened struggle. The men in the eastern section assert they will act in concert with those in the west.

Local Brevities.

P. P. T. C.—Perrin's Pine Tar Cordial for coughs, colds, difficult breathing and sore throat.—13.

Care will kill a cat. The care must be exercised in taking aim. It is extremely difficult, however, to hit one in the dark with a bottle.

Spring rain falls alike on the man with the two-dollar silk umbrella and the man who has no umbrella to cover his new five dollar plug-hat.

A dead frog was found in a church organ in Georgia. It is supposed that the creature was frightened to death by a row at a choir rehearsal.

See Mr. Wetherup's new advt elsewhere. It is a sure sale as Mr. Wetherup will continue business no longer and desires to close out as soon as possible.

There is something heroic in silent suffering. Though a man with a layer of active and energetic mustard plaster on his chest rarely thinks of this.

There are numerous new styles of pencils displayed this spring, but all will be worn just high enough to take out the eye of reckless pedestrians.

The Toronto World, one of the best of the Toronto dailies, has suspended. The World was lively and well edited, and we regret the misfortune that has overtaken it.

If you want to get teeth out without pain or injury and not laid up for weeks after under doctors treatment go to Neelands' Pure Gas administered.—11-1f.

By the evening train from Belleville, on Saturday night, twelve young gentlemen from the old county arrived in Peterborough with the intention of taking up farming.

"I say, Jim; can you tell where I can get fresh fish?" "Yes, at Mark's; he will bring them right to your door on ice as soon as the lakes open and during all summer."—14-2.

Kent street has a much neater appearance since the clearing up of the street. If William street was cleaned up as well it would add to the appearance and general healthiness of the street.

B. B. B.—Meaning of these 4 be is that Brown's Botanic Blood Bitters is the best thing that can be taken this time of the year for impurities of the blood. You can get it at Perrin's.—13.

L. O'Connor has now on hand the best assortment of baby carriages, velocipedes, bicycles, etc., yet shown in Lindsay, and respectfully asks the favor of a call to any in want of such. Prices low.

A very handsome spring circular has been sent us by the Millinery Free Press printed by Messrs. Crompton & Ryan. Few country offices of even more pretensions than Milland can beat it.

Ferguson v. Ferguson.—This case was tried at the chancery sittings here last week and judgment was reserved. Judgment has since been given at O'goode hall dismissing the action with costs.

No. 6 company of the 45th batt. will parade for drill on the evening of the 29th inst. at 7.30 p. m., and the following Thursday at the same hour. These drills will be continued until further orders. J. C. Grace, Cap.

The spring show takes place to-morrow. From what the secretary tells us it will be a greatly improved affair both in the number of entries and all the attractions of a usual spring show. Stock farmers should not fail to attend this show.

The busy sewing time is on and but few farmers are found on the streets. The weather, though cold, is dry, and crops are getting in very rapidly. Merchants are comparatively idle except on Saturdays, when a rattling good trade is done.

The directors of the Industrial exhibition board are vigorously pushing forward the preparations for the September show. For the firemen's tournament forty brigades in Canada and the States have already signified their intention of competing.

Mr. Kyle's new advt. is received too late for this issue. But this should not hinder our friends from calling on him and securing their new vehicles or any repairs they may need on their old ones. He does good work and warrants it always.

An exchange considers it "the height of cheek" to say grace over meat for which the butcher has not been and never will be paid. Well, there may be something in that, and yet from another point of view it looks as if thanks were especially in order in a case like this.

The Peterboro Review in speaking of the sale of unclaimed goods by the express company in Peterboro says: Among the curiosities was one bid in by 'Syndicate No. 2.' It was a long love letter, written on thin boards with a copying lead pencil and addressed to a young lady in Lindsay. If the young lady wishes to have the letter, the syndicate will sell at a small advance on cost—apply at this office.

Milk Cans.

Patrons to the new cheese factory. Open will please note that the highest tender for their milk cans was given the contract, although it was actually 25¢ per cent. more on the 20 gallon cans and 25 per cent. more on the 25 gallon cans than my low tender. Any member now sending his order at once can have the very best iron clad milk cans at my low priced tender. Please see advertisement for price in another column. E. McFarley, stove, tinship and coal oil depot, east end Kent street, Lindsay.—14.

Fishery Fry.

Mr. C. Wilnot, officer in charge of the Newcastle fish hatchery, has recently visited many points on Lake Ontario, Simcoe, Sturgeon, Scugog and other lakes, where he has deposited a vast quantity of salmon trout fry. The fry are carried in tin tanks resembling those used for milk, being about the same height but four times the diameter. Mr. Wilnot says that this year a higher percentage of fish has hatched from the eggs deposited last fall than during any previous season. There are now eleven of these Government hatcheries throughout the country, and their benefit to the community is steadily increasing. Besides other places in the Midland district we learn that there has been 3,100,000 of fry deposited at various points on Lake Ontario; 100,000 at Barrie and Orillia respectively and 100,000 in Sturgeon Lake. Large quantities of white fish have also been deposited in many inland lakes and in Lake Ontario.

River Notes.

The new steam tug being built by Mr. Burke, of the shingle mill, above the paper mill is fast nearing completion. When finished it will be the fastest and most powerful steambust on the river of the fastest and most powerful.

The steamer Ontario has been taken out of dry dock and is ready for business. She begins her summer's work in a day or two. The Mary Ellen has already begun her season's towing for Messrs. Neeld & Soddler's mill and expects to have a busy season.

The steamer Beauvoage, whose new time card has just been published, has begun running her usual trips between Bobcaygeon and Lindsay. She has been very tastefully fitted up, is a good and fast boat and is commanded by a careful and efficient officer in the person of Capt. Lane.

The boats are now running, the steamer Eva arriving at Lindsay from Bobcaygeon on Wednesday bringing a fair load of freight and a number of passengers. She looks gay and has been well fitted up. She will be the route between Lindsay, Fenslon Falls and Bobcaygeon, provided over by her owner Capt. McCallum.

The Stranger, owned by Messrs. Bigelow & Troncoe, passed through yesterday on her way to Pigeon Lake to begin her season's towing. This vessel is commanded by Mr. Edward Smith, son of Mr. Thos. Smith of this town, and an old sailor on these lakes. In addition to all the log towing to be done 1000 cords of firewood are to be towed to Port Perry by this boat, so that it will not be able to complain for work.

Notice is given that the waters of Lake Scugog have been set apart for three years, from the 1st of April, for the natural and artificial propagation of fish. The waters are placed under the special charge of G. B. McDermott, fishery overseer, of Port Perry, to whom application for permission to fish must be made. No netting, seining, or spearing, of any kind without permission, will incur a fine not exceeding \$20.

Slippery Advertising.

EDITOR WARDER—SIR,—In your paper of last week appears an article or letter from the firm of Neelands & Welch, dentists, fish and apple dealers, etc., relating to artificial teeth, and I ask a short space in your columns for the purpose of correcting all that I care to correct, of the irregularities and misstatements therein contained. In the first place, if your readers will bear in mind that it was not the junior (Welsh) but the senior member of the above firm who wrote the article in last week's WARDER signed John Welsh they will be enabled the better to fully realize by what malignant and revengeful feelings this man is actuated, and to what lengths he would go to injure or ruin himself of his successful opposition. In the conversation between Mrs. S— and myself, published two weeks ago, there was nothing personal or intended as a reflection upon any one, why then, if the cap was not a perfect fit did a competing dentist put it on? Nine years ago the past October, as a prelude probably, to the course he intended to pursue, he fired the first shot by going to the party who was then about vacating the rooms now occupied by me, and after he knew I had engaged them, and offered the said party a sum of money if he would use his influence with the owner to keep me from gaining possession of the rooms, and he stated to me on a decidedly hostile, more perhaps, to his own disadvantage than mine. Such tactics are calculated more to annoy than to injure. Still, no man who is disposed to stand on his own feet and to carry on his business without encroaching upon the rights of others, wants to be constantly barked at by designing and less scrupulous people. Two years ago John Welsh, of fish and apple notoriety, came to me for a set of artificial teeth. I made them for him, using as I agreed to do, good material, and months after he commenced using them, he expressed himself to me as perfectly satisfied with his teeth, saying they were much better and worked much better than anything he had expected to get, and that he considered it his duty to do me all the good he could, etc., etc. As a matter of fact I will state that his only grievance or cause of complaint finally, was not that the plate was loose and came down in his mouth or that it was cracked as claimed—the plate being as perfect the last time I saw it as the day it was made—but that I would not replace it without extra charge, teeth that had been knocked off the plate by falling from his hand to the floor and other violence which no teeth would stand: This is John Welsh, and about what he will foot up for truthfulness and reliability. This also the man who, when he could not get my services for nothing, lent his name to assist in carrying out the questionable schemes of another. If I was driven to the extremity of advertising over the same firm another person to prep up my business, I should endeavor to find out whose reputation for veracity and square dealing would bear investigation.

W. H. GROSS, Lindsay, April 22nd, 1884.

PRE-EMINENT

It is a very strong word, and yet we feel sure not too strong for the facts as displayed during the week in our Millinery, Mantle and Silk Departments.

Very beautiful new designs for Spring in

MILLINERY & MANTLES,

Everything Superior except the prices, which are Delightfully Inferior.

CARPETS.

Our display of Carpets, etc., etc., is admitted by all to be the largest, handsomest, newest and choicest designs ever put on exhibit outside of the large cities, and by etc., etc., we mean

Oil Cloths, Mattings, Rugs, Mats, Fancy Quilts, Lace Curtains, Cretonnes and Damasks.

Boys' Ready-Made Clothing

Our Boys' Ready-Made Clothing is the admiration and latest chic—such suits so tastefully made and designed, and the very low price is the most attractive feature.

Remember what we told you last week about BLACK SILKS, that none are genuine without the maker's name. If the manufacturer of Silks is not willing to recognize it with his own endorsement, it is an admission that the quality is inferior. When buying Black Silks ask your merchant to show you the maker's name stamped upon the goods, and unless he can do so reject it at once.

MERCHANT TAILORING

Department complete in every detail. Suits for the poor and rich; quality the best, style the latest, fit the most perfect, and the workmanship is gilt-edged.

Every person invited to inspect our immense stock.

SOOTHERAN, CATHRO & MARK

CITY DRAPERS AND CLOTHIERS,

J. WETHERUP,

Lindsay, April 24th, 1884.

THE FISH will be here for a few weeks to show you what competition in dry goods means. Come and get the bargains.

R. SMYTH. MESSRS.—Ladies will please remember Mrs. Peterson, the American milliner, a young and experienced in the leading millinery house in Philadelphia.

R. SMYTH. THE CUT.—Gents, just see the style and finish our new cutter gives.

The Victoria Warder

FRIDAY, APRIL 25, 1884.

LOCAL JOTTINGS.

URBAN AND SUBURBAN.

FRUIT CANDIES made daily at Hickey's. A settler's excursion train for Dakota and the North West will leave Lindsay every Wednesday during April. Apply to F. C. Taylor, ticket agent, for rates, etc.—3

PERSECUTION. Mr. Riese Bigelow, who has been ill with pleurisy, we are pleased to say is recovering.

Mr. Edward Smith, son of Mr. Thos. Smith of this town passed his examination as captain in Toronto last week. He commands the Stranger, owned by Messrs. Bigelow & Troncoe, of Port Perry.

Mr. R. K. McCaw, the well known and obliging conductor of the Whiteby division Midland road, is about enter upon an engagement with the Ontario & Quebec. Mr. Roper, late station master at Seagrave, is on a visit here from Olive Hill, Kentucky where he holds an important railway position. When he returns he takes Mrs. Roper to her new home.
