WAGONS.

Now that the season has arrived when farmers are about to treat themselves to a buggy or carriage, I would respectfully announce to the public in general that I have now on hand and in course of construction the best assortment of Carriages and Buggtes of every description that has ever been manufactured in this county. It cannot be desired that my work is taking the lead during the five years that I have been in husiness. I have made more solid improvements in the manufacture of four wheel rigs than has been made in this town in afficen years before. I was the first to adopt the method of

BOILING WHEELS IN OIL,

and I see by advertisement that some of my friends in the business have seen the great benefit of this, and have commenced even at this late hour to boit their wheels in oil. I have made several other great improvements this spring which space will not permit me to enumerate, but I will be glad to show all intending purchases on caliting at my thop. I have no trouble in making a sale to the man that visits all the shope is town and examines the work closely; he can see at once that my work is far in advance of all others. I sold a carriage last week to a machiness from one of our neighboring villages, and he mid atthough he could get carriages for less money that mine were the cheapent in the end, and so it turns out to be in every case. I am receiving orders from all parts of the country. We don't know what hard times are around our shop. Come in and give your orders—do not think of such a thing as huying a rig before ordering—you will save money by buying from me.

TOWN COUNCIL.

The meeting of the town council on Monday evening was well attended, and the proceedings were conducted with deam, and as though the councillors had some feeling for others as well as themsolved. A fair quantity of business was
got through with and in a comparatively
short space of time. There were present:

The bank question had not been touched owing to there not being a sufficient number of the committee present to make a quorum, and so has been compelled to remain as it is now. He would, however, say that a letter had been received from Mr. Durling saying that he was prepared to effer them discounts at 6 per cent. and allow 3 per cent. on balances, and the arrangement already made could be accompliahed. But what they must do was to perfect the system thay now had, not at this late day change to new ones.

Mr. Melville desired to know if the two large items for the hand engine were both from Mr. Makina', or was Mr. Sylvester's Col. Deacon read the items in detail and said they were both from Mr. Makins as

certified to by the committee. The report was passed.

Col. Deacen informed the council that
the \$8,000 debentures falling due on the market building had been retired satisactorily. The statement of expenditure for the previous three months was also read. In view of the many petitions presented to the council that night and much necessary expenditure he urged economy in all things for this year.

SLIGHT RECOGNITION.

On motion of Col. Deacon Mr. John Rogers, better known as Happy Jack, was awarded \$10 as a recognition of his services at the late fire at the convent, when he heroically mounted a high ladder and extinguished a fire already starting on the root of the church opposite, thereby saving the building.

QUEEN'S BIRTHDAY CELEBRATION. Mr. Melville drew attention to a subscription paper which had been started with a view of getting up a day of games and sports on the 24th of May, and asked and sports on the 24th of May, and asked if the council could not do something to aid it. He said they usually had these games on Dominion day, but this time the 24th of May was talked of, and he thought perhaps it would be as well, and could then in no way clash with the picaic usually held on Dominion day.

Mr. Connolly—You can't hurt that, so it makes no difference that way.

Col. Deacon considered that an effort should be made to meet the gentlemen desirons of getting up something of this

should be made to meet the gentlemen desirons of getting up something of this kind. It was far the best way to bring people into the town rather than send them out, and which ever they decided would be the better day could make little difference. By having these sports on the 26th of May and the picnuc on Dominion day both holidays would be provided tor so far as amassements were concerned. He would like therefore that this council grant the sam of \$100 for the purpose of speets, games, fireworks, etc., on the 26th of May if the citizens of the town subscribed and placed in the treasury the sum of \$200. This he thought would ensure a successful celebration.

Mr. Fee moved, seconded by Mr. Melville, that Mastra McTavish, Descoon, Sinclair and the mover and seconder be a committee to arrange for the due celebration of the day with an equal number of citizens.

Col. Deacon introduced by-law No. 410, being a by-law appointing a board of health under the act recently passed by the Ontario Legislature; also by-law No. 411, being a by-law to amend by-law No. 266 respecting public nuisances, and moved the council into committee there-

As Mr. Parkin for Correspondence of The Warder. wears had been an enterprising citizen and had employed many men he thought something should be done to keep him in Lindsay, so that employment might still be given these men. He would therefore move, seconded by Mr. Sinclair, that an offer be made Mr. Parkin to exempt his mill from taxes for a term of years if he could see his way to rebuild at the same capacity as the old mill. He did not know whether Mr. Parkin would accept the offer, but there certainly could be no loss, as under present circumstances there years had been an enterprising citizen and the offer, but there certainly could be no loss, as under present circumstances there would be no mill and accordingly no taxes derived therefrom. If rebuilt, while we would not get any taxes for some years, we would obtain more than would be equal to them by men employed by the mill, so that in fact the town would gain by it. He would not like to see a good and enterprising citizen like Mr. Parkin going away.
