Lindsay Sidewalks. (To the Editor of the Warder.) SIR,-Would you allow me to call attention to the condition of the sidewalk upon the east side of Cambridge street from Peel to Colbourne street, and also of that on Colbourne from Cambridge to Sussex street? Why the proper authorities have allowed these walks to remain for so long a time in a condition not simply disgraceful but positively dangerous to limb, if not life, is a mystery. The fact that there are three churches and the county shows the importance of this thoroughfare and the necessity for immediate im-provement. There are, doubtless, other streets in town the condition of which requires attention. The system of "patching up" our sidewalks as carried out hitherto in Lindsay well deserves the serious consideration of our city fathers. It has been carried out with a vast amount of ingenuity, corporation time and five inch nails, but the results have been neither lasting ner economical. This "putting a new piece to an old garment" has been condemned from time immemorial. Let it be abandoned here. Which of our city fathers will say "Yea"?
