The Victoria Warder

FRIDAY, MAY 16, 1884.

Local Brevities.

Fresh candies made daily at Hickey's.
Tay Saxe's home made bread, 12c per 4 lb. loaf.
"May Dew" sold at Higginbotham's drug store.—17c.
A GREAT supply of oranges, lemons, dates, nuts, etc., at Hickey's.
Fresnel Falls is discussing the question of a steam fire engine. No steps so far have been taken, however.

"Can you give me ten cents for a drink?" asked a seedy-looking chap of a reporter.
"Certainly," replied the reporter, "bring in your drink."
As the Lindsay merchants all desire to keep open on the 24th the Mayor has proclaimed Monday, the 26th, as a holiday for the townspeople.

The Salvation Army was out in full force Sunday, notwithstanding the recent and "unmusical" success. But perhaps the Salvation Army drums are not "unmusical."

Three ladies have graduated in medicine from the Queen's University, Kingston—Miss McGillivray, Miss Smith and Miss Deaity. They are the first female doctors of medicine to graduate from a Canadian institution. It is to be hoped they will find a good field for practice in Canada. There is no valid reason why women should be excluded from the practice of a profession when their tastes run in that direction.

There are in the Dominion, or rather there were when the last census was taken, nearly two hundred centenarians. Of these one hundred and six were residents of Ontario. This would seem to say something in favor of the climate of this province, and it may fairly be claimed that Ontario is a good place to grow old in. A hundred years is a long time to live, and there are not many who succeed in living that long, although large numbers have tried.

Mr. Cassis, the millionaire who died at Cleveland, Ohio, without making a will, leaving property valued at \$3,000,000, who is now dead, leaving a widow and three children, a son, Mr. Joseph Cassis, jr., born at Lehigh, and two daughters, Miss Asseline Cassis, also born at Lehigh, and married to Mr. Joseph Cassis, born at Longueil, and married to Mr. Joseph Bonhomme, of Peterborough. There are other heirs in Ontario, and it is said, over 300 in the Province of Quebec.

"Hold on, there! Hold on, there! What are you up to?" cried a Russell street boarding-house keeper who was awakened at midnight by an impetuous boarder who was shaking his trunk down the lightning-rod. "Well, I'll tell you how it is," replied the other with a wickedly pained nerve. "I thought I felt premonitions of consumption, and so I want to see a doctor this afternoon. His advice explains my present occupation." "How so?" "He told me I'd come around all right if I'd only throw my chest out."

An exchange tells its readers how to find their P's in the following paragraph—Persons who patronize papers should pay promptly for the pecuniary proceeds of the press have a peculiar power in pushing forward public property. If the printer is paid promptly and his pocket book kept plenteous by prompt paying patrons, he puts his pen to paper in peace, his paragraphs of pleasing events have more pleasing colors, and the personal of his paper is a pleasure to the people. Paste this piece of proverbial philosophy in some place where all parties can see it.

The Canadian Workman, a journal published in the interest of the Ancient Order of United Workmen, has been handed us by Mr. Gross. It is a neatly got up journal and should be a great assistance to the order, which by-the-way is becoming very strong in Ontario. We are also pleased to learn that the lodge here is in a flourishing condition. In this connection we might also mention that the young children of the late Robert Reynolds has recently received \$2,000 payable by the order at the death of a member, the society being funded on the cooperative insurance plan. We may have some more to say respecting the workings of this society hereafter.

Go to Hickey's for fine cakes and pastry.

"The Lotus of the Nile," one drop will cure a headache at Higginbotham's drug store.—17c.
The repairs on the Peel street bridge across the river are now completed, and the bridge is again in a first-class position.
The egg business appears to be the leading trade on the market and several hundred dozen have been bought and shipped east during the past week.
Excavations have been commenced for the new brick residence for Dr. Kemp on Rickett street. The house of Mr. Brooks is progressing favorably and will be completed very soon.

Chief constable Ball has been very successful in the collection of back taxes. He has now nearly \$150 collected and there is more to follow yet as soon as he can get his eye on the parties.

A meeting of the board of health recently appointed met in the police court room on Monday, when Mr. J. D. Flavelle was appointed chairman. The business was merely of a preliminary character.

"Yes," said the milkman, "we do have a good deal of milk on our hands sometimes; but this week we have taken a contract to whitewash a couple of barns, so I think we shall manage to use up all our surplus stock. How many pails did you say?" and he stirred up another can.

Millbrook is said to have been taken in by Peterboro when it purchased the Peterboro old hand engine. It was represented to be "nearly as good as new," but when the fire broke out at the hotel recently it promptly broke down at the beginning and the villagers were compelled to return to their water pails.

Rev. G. W. Sibbald, who has deservedly won a great name for his zeal and faithful and eloquent preaching as the rector of Christ church, Belleville, is expected to preach both morning and evening in St. Paul's church on Sunday next. It is hoped also that he will address a temperance meeting on Monday next in the new church rooms.

The St. Marys Argus says—For years the council of this town has given 37c cents for every tree planted, and as the result of this public spirited policy the town has become a perfect arbor, almost every street being lined with beech, maple, chestnut, and other handsome trees, which are very attractive to visitors and are the pride and glory of the denizens.

The ladies' aid association of St. Paul's church will respond their basket to-morrow in the same place, Watson's old store, corner Kent and William streets. More than half their stock of very pretty and useful articles has yet to be disposed of. Refreshments will be served throughout the evening. Friends are invited to take their evening meal at this most popular coffee house. No charge for admittance to bazaar will be made.

A New York medicine man says that if one falls asleep with his stomach full of corned beef and other solids his dreams will be very different from what they would be if he had partaken of food of less solidity. There is nothing like science. It is likely that if a man goes to sleep and dreams that he is hungry, he will wake up to find his dream realized. But for variegated dreams, out on the bias and frilled with fright, mince pie is the proper receipt.

A reasonable hint to storekeepers is given by the register of the Ontario College of Pharmacy, in an advertisement just published. Those who sell Paris green, London purple, or "other arsenical insecticides," are required thereafter to label the packages with the name and address of the seller and to keep a record of their sale. This under a penalty of \$30 for the first offence and \$50 and costs for subsequent offences. Pharmacy Act 1883, Sec. 24.

An exchange throws ridicule on the tradition that oysters are only good in the "4" months. It says—"Some kinds of oysters are eaten at their best in summer, and nearly all oysters taken fresh from their beds and eaten near the shore are as appetizing and as acceptable in summer as in winter. At some of the seaside resorts, especially at Cape May, oysters are advertised as one of the special attractions of the season, and oyster suppers will hold their own with the crab, clam and terrapin feasts."

The Review says that it is an opinion held by many that ground now covered by the town of Peterborough was the scene of a great battle fought by Indians in by-gone years. The remains of Indians and relics of the race frequently found at least proves that numerous red men once dwelt in this part of the country. Tuesday morning a discovery was made by men working near the Ontario & Quebec bridge at the site of Dalhousie street, added further proof of that already collected. They were digging in the earth, filling carts, when they came across a human skull, and more shovelling revealed two more skulls, bones, arrow heads, and other relics of the noble red man. One of the skulls was broken in removing it, and another was taken by one of the laborers. Mr. J. H. Burdham secured the third skull, which was well preserved, and will send it, with some of the relics, to the museum in University College, Toronto.

A citizen writes us complaining of the sidewalk from Mr. McFeely's, east side Kent, to the corner. It certainly is dangerous and Mr. Neenan would do well to fix it without delay.

Mr. Farquharson is putting on great style. He has now the noblest soda fountain in town. The soda water is also first-class to our taste though we have not a great preference for soda.

The university question was discussed at some length at a meeting of Victoria university senate a few days ago at Colborne. The result of the debate is not stated in the official minutes published.

Mr. Logic, of the east ward, lost a valuable colt Wednesday through being choked by a piece of carrot. His son was also so unfortunate as to lose a barn by fire recently. Some one is supposed to have set it going intentionally.

Mr. Wm. Walters has completed a stop-dam at Lake Oshawa, back of Haliburton, and has made a good job of it. The dam is 90 feet in length, 14 feet high, with a slide 16 feet wide and 40 feet long. A large gang of men from Lindsay has been at work on it, and the dam is said to be the strongest and best on the waters.

Salvation Army Barracks. It is said the Salvation Army barracks are indefinitely postponed, not from any cause or reason of the army, but on account of the indiscretions of those high in authority elsewhere. This is unfortunate as we believe the money for the erection was nearly all subscribed and the brick for the building even on the ground.

It is to be hoped the army will soon tide over the present difficulties and that their barracks may soon rise up stronger and larger than ever those so recently proposed.

Learn to Swim. Frequently the ability to swim is nothing but a matter of preserving the egrets of those who are so unfortunate as to be in any great accident at sea. But in the case of Mr. Bennett his life was clearly saved because he was able to swim. No doubt the being able to swim a few yards would have saved many lives that were lost in that disaster. There are few people who could not in a few hours learn enough of swimming to save themselves in cases where only a few yards of water intervene between them and safety.

Mechanics' Institute. The annual meeting of the Mechanics' Institute was held on Monday evening. There were present, Messrs. Dobson, Hadspeth, Irwin, Corneil, Flavelle, Burrows, Deacon, Martin, Keith, Patrick, O'Leary, Hallett, and others. Mr. G. R. Patrick, elected secretary. The following officers were then elected for the ensuing year: President Mr. J. Dobson; 1st vice president, Mr. A. O'Leary; 2nd Col. Deacon; secretary-treasurer, G. S. Patrick; librarian, L. A. Williams; directors, Messrs. S. Irwin, Burrows, Martin, McEwen, Hallett, Porteous, Corneil, Keith. The financial report for the past year was read showing a balance on hand of \$56.29 and showing assets over liabilities \$1,474.00, which considered a good showing indeed.

Egyptian Masonry. On Wednesday evening a Miramir Room Cruz Chapter, No. 22, G. R. C. of Supreme Rite of Memphis was duly organized in King Hiram lodge room by M. W. Bro. Robert Hammy, the substitute Grand Master General of the order. The degrees having been communicated the following Sir Kats. were installed in their respective offices in due and ancient form. III, Sir Kats. John W. Wallace, P. M.; M. W.; Dr. Conlter, P. M.; P. M. W. E. McFeely, W. M.; S. W. D. Ray, P. M.; J. W.; W. J. Hallett, Conductor; Theo. Walters, Trust; W. J. Farquharson, Capt. Gd.; Ancil Mills, Gd of Tower; John Kelly, Organist; H. Holter, Sentinel. This exalted rite of Masonry is progressing very rapidly in Canada. As the grades are claimed to be very beautiful there is no doubt of its continuing to prosper. The chapter here, we are informed, has a bright future before it, its officers being worthy Masters of both lodges. The Sovereigns' Sanctuary of Canada may add it recognized by every Sovereign Sanctuary in the world.

The New Dalry House. The new hotel under course of reconstruction by the Dalry Bros. is beginning to assume a habitable appearance and in an other couple of weeks will be fully equipped with all the latest improvements. The sitting room is now almost completed and is a very comfortable place, looking out on to the front street. A neat table is found at one end where all commercial men can do their writing and those who wish to see the new one can see the many styles of papers, lined, blank, and other things. The bar-room is set back from this, divided off by solid folding doors and is quite separated from the sitting room. The bar counter is a splendid piece of furniture and all the fixtures are of the most costly design, the whole of which is provided over by a bartender fully up in his business. The new kitchen under construction will be provided with head and hot water and all the many modern improvements, while the dining room is neat, well lighted and cheerful, with plenty of room for five good sized tables. The Dalry Bros. evidently intend to make this the hotel of Lindsay, and we trust will meet with the success their enterprise deserves. Mr. McEwen has the contract for all the work and as all know he knows how to do it up "right smart" as the Yankees say.
