Fire Alarms.

Friday a fire alarm was sounded across the river. When the firemen turned out it was found to be merely some accident burning round the house of Mr. Britton, conductor H. R. R., and it was quickly extinguished with a few pails of water.

Again on Saturday the same place the chimney of Mr. T. Forster was discovered on fire and thinking it was a house fire, a large number of firemen were called out.

From the Review we learn that the Rev. J. Mr. Wm. Matthews, eldest son of Mr. Geo. Matthews, is home for a few days from Peterboro, where he is carrying on a large pork packing establishment for his father. Mr. Tilley has been actively engaged in teaching in this county for eighteen years, so that he is thoroughly acquainted with our schools and the teachers, most of them having been taught by him at one time or another. He is at present head master of the Lindsay high school, in which position he is giving great satisfaction. His long experience as a teacher, and the high position he has held, together with his superior talents, eminently fit for the duties of inspector. The only other aspirant for the office in the field is Mr. Samuel Hughes, of the Toronto Collegiate Institute, so that we are sure of having a good man in any event.
