Remember that while some important improvements have been made to these watches the PRICES HAVE BEEN REDUCED. This is only possible owing to the enormous output of these factories. Smaller institutions cannot give the same quality of goods for the same price because they

DROWNED.—Ayoung man named Wm. Baron, lately from Kent, Eng., was accidentally drowned out of a cames about afteen feet from shore in Lake St. John, near Long fordHills, about seven o'clock Saturday evening. Every effort was put forth to bring back life, but all to no avail. He has been in the employ of the Longford Lumbur Company only two weeks. He issues behind him, in England, a mother, brother and three sisters.

Not Arrived.—The hand fire-engine bought at Midland last month by our reeve has not yet arrived, as the rate asked by the railway company is considered too high, and an effort is being made to get it lowered. The 160 feet of hose Queen's Birthday.—There was no celebration on the Queen's birthday. A good many left for other places where purchased at the same time was brought to the Falle next day. It is made of cotton lined with rubber and is as good as new, having only been used two or three times. Mr. McArthur tells us that the cagine is not as has been alleged, an old wern out affair, but that it is in first class order and condition, and would have been cheap at double the price paid. Whatever the ratepayers may think of it when they see it they will have no right to grumble, as they needn't take it unless they choose to do so.—[Gasetta.]

On Friday, the 16th, Mr. George Munro died at his residence in Balsover, on Sanday afternoon a large funeral followed his remains to the Presbytarian cametery, Balsover, where he was laid in his last resting place in sight of a large number of sorrowing friends and relations. Deceased had a shingle factory and a store in Balsover, and this year was a councillor for the township of Eldon.

BOWMANVILLE.

BOWMANVILLE.

SHIPMENT OF CATTLE.—A large shipment of cattle was made here last week by Messrs. G. H. Gould, of Calawa, and M. D. Williams, of this town. The enterprise of these gentlemen seems to be prompting the farment to pay greater attention to stock raising than formerly, and the animals which have been purchased recently reflect credit on those farmers who are apparently alive to the importance of such a trade. Prominent among the misses are Messrs. Awde, Symonds, Werry, Rowe, Smale, Blackburn, S. Allen, Enight, Colwell, J. Pollard, Washington, Hamblyn, and Ormiston, of the township of Darlington; and Messrs. Bolph, Gamsley, and Hunter, of the township of Clarke. Eight car loads went forward. They included 96 head from Guelph, averaging 1,425 lbs. each; 33 from Bowmanville, averaging 1,500 each. This makes nearly 35 car loads in all, most of which goes direct to the old country.

Figs.—The village is full of fish. Every-body and everything are saturated with fish. In the calm of the evening the air is thick with it. All talk is fishy, and Our Mills.—Greene & Ellie's sawmill commenced work on Wednesday last, and R. C. Smith's "red" mill will probably be in operation before the end of this week. McArthur & Thompson have been cutting cull loge and shingle stuff for above a month past, and a few days ago the rest of their saws were put in motion. Smith & Fell's shingle mill was abut down some time ago in order to have a large engine put in and other improvements made; and the world—with the exception of a few odd places—says he has

Correspondence of The Warder. WE had quite a debate here about the Why should they not pay taxes for their limits in each township to the amount of capital they have invested the stationing, and the Rev. Peter Addiin the municipality for the maintenance son to the Sabbath school committee of roads, bridges and schools? They receive as large a benefit from them as the actual settler, if not a larger one, especially from roads. Why should they not help to pay the railway tax when they receive so large a benefit from it? Mr. J.

During the afternoon he went to the house of a well-knewn butcher, and told the latter's wife, who was alone with a lady friend, that he represented a musical house, offering to sell the lady a piano on favorable terms. Not being satisfied with a peremptory answer that she was not in need of a piano the scoundrel wormed himself into the house, and gramby insulted the lady. He was finally forced out. The head of the house was told of the intrusion, and his wrath knew no bounds. He followed the man to Brighton, and meeting him in Clarke's hetel, administered a chastisement, which, however, will not end the matter. A criminal action in court will be instituted.
